

GSD and MBSD fails charge calculations do not produce a zero charge would encourage market participants to maintain their fails charge operational processes. Accordingly, the Commission finds that the proposed rule change is designed to help ensure that settlement in the applicable markets covered by FICC's processes occurs on a timely basis, and thereby promotes the prompt and accurate clearance and settlement of securities transactions, consistent with Section 17A(b)(3)(F) of the Act.<sup>39</sup>

#### *B. Rule 17Ad-22(e)(23)(ii) Under the Act*

Rule 17Ad-22(e)(23)(ii) under the Act requires each covered clearing agency<sup>40</sup> to establish, implement, maintain and enforce written policies and procedures reasonably designed to provide sufficient information to enable participants to identify and evaluate the risks, fees, and other material costs they incur by participating in the covered clearing agency.<sup>41</sup>

As discussed above, the proposed rule change would update both the GSD Rules and the MBSD Rules to clarify the target rate that may be used in the fails charge calculations under certain circumstances and make certain technical changes to the fails charge provisions to ensure consistent use of defined terms. The proposed rule change also would update the MBSD Rules to clarify that a cap applies to the MBSD fails charge.

These clarifications are designed help ensure that the GSD and MBSD fails charges are transparent and clear to market participants. Increasing transparency and clarity around these charges would help market participants better understand the operation of the fails charges, and thereby provide market participants with increased predictability and certainty regarding their obligations to FICC. Accordingly, the Commission finds that the proposed rule change would help establish, implement, and maintain FICC's rules in a manner reasonably designed to provide sufficient information to enable participants to identify and evaluate the risks, fees, and other material costs they incur by participating in FICC,

consistent with Rule 17Ad-22(e)(23)(ii) under the Act.<sup>42</sup>

### III. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act, in particular the requirements of Section 17A of the Act<sup>43</sup> and the rules and regulations thereunder.

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act, that proposed rule change SR-FICC-2018-004 be, and hereby is, *approved*.<sup>44</sup>

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>45</sup>

*Assistant Secretary.*

### SUPPLEMENTARY INFORMATION:

#### I. Background

The VIS Working Group is an advisory committee established in accordance with Section 10 of the Protecting our Infrastructure of Pipelines and Enhancing Safety Act of 2016 (Pub. L. 114–183), the Federal Advisory Committee Act of 1972 (5 U.S.C., App. 2, as amended), and 41 CFR 102–3.50(a).

#### II. Meeting Details and Agenda

The VIS Working Group agenda will include briefings on topics such as mandate requirements, integrity management, data types and tools, in-line inspection and other direct assessment methods, geographic information system implementation, subcommittee considerations, lessons learned, examples of existing information-sharing systems, safety management systems, and more. As part of its work, the committee will ultimately provide recommendations to the Secretary, as required and specifically outlined in Section 10 of Public Law 114–183, addressing:

(a) The need for, and the identification of, a system to ensure that dig verification data are shared with in-line inspection operators to the extent consistent with the need to maintain proprietary and security-sensitive data in a confidential manner to improve pipeline safety and inspection technology;

(b) Ways to encourage the exchange of pipeline inspection information and the

development of advanced pipeline inspection technologies and enhanced risk analysis;

(c) Opportunities to share data, including dig verification data between operators of pipeline facilities and in-line inspector vendors to expand knowledge of the advantages and disadvantages of the different types of in-line inspection technology and methodologies;

(d) Options to create a secure system that protects proprietary data while encouraging the exchange of pipeline inspection information and the development of advanced pipeline inspection technologies and enhanced risk analysis;

(e) Means and best practices for the protection of safety and security-sensitive information and proprietary information; and

(f) Regulatory, funding, and legal barriers to sharing the information described in paragraphs (a) through (d).

The Secretary will publish the VIS Working Group’s recommendations on a publicly available DOT website and in the docket. The VIS Working Group will fulfill its purpose once its recommendations are published online.

PHMSA will publish the agenda on the PHMSA meeting page at: <https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=135>, once it is finalized.

Issued in Washington, DC, on June 18, 2018, under authority delegated in 49 CFR 1.97.
