**Agency Forms Undergoing Paperwork Reduction Act Review**

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on March, 2018 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to [omb@cdc.gov](mailto:omb@cdc.gov). Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

**Proposed Project**

Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery—Revision—Centers for Disease Control and Prevention (CDC), National Institute for Occupational Safety and Health (NIOSH).

*Background and Brief Description*

Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that our programs are effective and meet our customers’ needs, Centers for Disease Control and Prevention (CDC’s) National Institute for Occupational Safety and Health (NIOSH) seeks to obtain OMB approval of a generic clearance to collect qualitative feedback on our service delivery on collections. The information collection activity will

garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic

mechanisms that are designed to yield quantitative results.

The Agency received no comments in response to the 60-day notice published in the **Federal Register** on March 23, 2018 (vol. 83, No. 57, pages 12766–12768).

This is a Revision information collection request. The burden hours have decreased from the previous submission by 6,250 hours. This decrease accounts for the hours that were unused as well as the planned

efforts within the Institute during the next three years. NIOSH is also planning on discontinuing 0920–0940 (expiration 3/31/2018) which accounts for service delivery data collections within NIOSH’s Health Hazard Evaluation program. The current submission will account for all service delivery data collections within NIOSH.

During the past three years the information has been used by programs within NIOSH to collect feedback from

customers and stakeholders. Respondents will be screened and selected from Individuals and Households, Businesses, Organizations, and/or State, Local or Tribal Government. Below we provide NIOSH’s projected annualized estimate for the next three years. There is no cost to respondents other than their time. The estimated annualized burden hours for this data collection activity are 13,075.

**ESTIMATED ANNUALIZED BURDEN HOURS**

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Individuals and Households, Businesses, Organizations .....	Print Surveys .....	50,000	1	15/60
	Focus Groups .....	100	1	2
	Online Surveys .....	1,500	1	15/60

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Administration for Children and Families**

**Notice; Children’s Bureau Proposed Research Priorities for Fiscal Years 2018–2020**

**AGENCY:** Administration on Children, Youth and Families (ACYF), Administration for Children and Families (ACF), HHS.

**ACTION:** Notice of proposed priorities; request for comments.

**SUMMARY:** The Children’s Bureau (CB) within the Administration on Children, Youth and Families (ACYF) announces the proposed priorities for research on the causes, prevention, assessment, identification, treatment, cultural and socio-economic distinctions, and the consequences of child abuse and neglect, and solicits comments regarding the prioritization.

**DATES:** In order to be considered, comments must be received no later than August 24, 2018.

**ADDRESSES:** You may send comments, identified by the RIN or docket number in the subject line, by email: [CBComments@acf.hhs.gov](mailto:CBComments@acf.hhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Dori Sneddon, 202–205–8024, [Dori.Sneddon@acf.hhs.gov](mailto:Dori.Sneddon@acf.hhs.gov).

**SUPPLEMENTARY INFORMATION:** Section 104(a)(4) of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by the CAPTA Reauthorization Act of 2010, Public Law (Pub. L.) 111–320, requires the Secretary of the Department of Health and Human Services (HHS) to establish proposed priorities for research activities, provide an opportunity for public comment on those proposed activities, and maintain an official record of received public comment concerning the priorities. The proposed priorities are being announced for the 2-year period required by CAPTA. Because the amount of federal funds available for discretionary activities in fiscal years (FY) 2018–2020 is expected to be limited, respondents are encouraged to recommend how the proposed issues should be prioritized.

The actual solicitation of grant applications will be posted electronically each fiscal year and will be available online through <http://www.Grants.gov>. Solicitations for contracts will be announced at later dates, online at FedBizOps. No proposals, concept papers, or other forms of application should be submitted at this time.

No acknowledgement will be made of the comments submitted in response to this notice, but all comments received by the deadline will be reviewed and given thoughtful consideration in the preparation of the final funding priorities for the announcements.

**I. Background**

As noted above, section 104(a)(4) of CAPTA requires the Secretary to publish proposed priorities for research activities for public comment every 2 years. In response to this legislative mandate, CB has undertaken a review of the current legislative language, the results of the CAPTA-funded research since the last CAPTA announcement of research priority areas, findings from other relevant research, and input from the field. Based on this review, this notice of proposed research is being disseminated for comment. The FY 2018 President’s Budget requested \$32,937,267 for child abuse discretionary activities to support efforts designed to assist and enhance national, state, and local efforts to prevent, identify, and treat child abuse and neglect. The program funds projects to compile, publish, and disseminate training materials; provide technical assistance; and demonstrate and evaluate improved methods and procedures to prevent and treat child abuse and neglect. Under discretionary funds, CB will continue to fund the following clearinghouse and technical assistance activities:

- The Child Welfare Information Gateway;
- Family Resource Information, Education, and Network Development Service (FRIENDS); and
- National Child Abuse and Neglect Data System (NCANDS) technical assistance and technical support program.

In addition, the child abuse discretionary activities’ account funds a number of research and demonstration
