

gear) or § 1917.50 (for other interbox connectors). Paragraph (i)(8)(v) requires employers to have a certificate available for inspection that attests that the interbox connector meets the strength criteria specified in paragraph (i)(8)(iv) of the standard. Also, paragraph (i)(8)(vi) requires that each interbox connector be clearly and durably marked with its safe working load for lifting, including an identifying number or mark that will enable it to be associated with its test certificate.

The certification is necessary to ensure that interbox connector-corner casting assemblies have adequate strength to safely perform the lift. Marking of interbox connectors informs employers, workers, and OSHA that the interbox connectors have been certified.

Paragraph (j)(2) of § 1917.71 requires the employer to develop, implement, and maintain a written plan for transporting vertically connected containers in the terminal. The transport plan helps ensure the safety of terminal workers and thereby enhances productivity. Paragraph (k)(2) of § 1917.71 requires the written transport plan to identify a safe work zone within which workers are not permitted to be present when a VTL is in motion.

Written plans give employers, workers, and OSHA compliance officers assurance that VTLs are safe to use and provide the compliance officers with an efficient means to assess employer compliance with the Standard.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is proposing an adjustment decrease of the existing burden hour estimate for the collection of information requirement specified by the Standard from 560 hours to 512 hours—a total decrease of 48 hours. Based on staff expertise with marine

terminals, the Agency reduced the estimated number of marine terminals that use VTLs with updated establishment data from the North American Classification Information System (NACIS) retrieved from the Bureau of Labor Statistics <http://www.regulations.gov>.

Type of Review: Extension of a currently approved collection.

Title: Vertical tandem Lifts (VTLs) for Marine Terminals (29 CFR part 1917).

OMB Control Number: 1218-0260.

Affected Public: Business or other for-profits; not-for-profit organizations; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 128.

Number of Responses: 128.

Frequency of Responses: On occasion.

Average Time per Response: The average time is 4 hours for employers to generate, develop, and maintain a written plan for transporting vertically coupled containers in a terminal.

Estimated Total Burden Hours: 512.

Estimated Cost (Operation and Maintenance): \$0.

ADDRESSES: *Docket:* For access to the docket to read background documents,

¹ The Judges' receipt and publication of SoundExchange's notice of intent to audit Music Choice in these circumstances does not imply an opinion regarding the applicability of the section 112 and 114 licenses to Music Choice's webcast transmissions.

SUPPLEMENTARY INFORMATION: The Copyright Act, title 17 of the United States Code, grants to sound recordings copyright owners the exclusive right to publicly perform sound recordings by means of certain digital audio transmissions, subject to limitations. Specifically, the performance right is limited by the statutory license in section 114, which allows nonexempt noninteractive digital subscription services, eligible nonsubscription services, pre-existing subscription services, and preexisting satellite digital audio radio services to perform publicly sound recordings by means of digital audio transmissions. 17 U.S.C. 114(f). In addition, a statutory license in section 112 allows a service to make necessary ephemeral reproductions to facilitate the digital transmission of the sound recording. 17 U.S.C. 112(e).

Licensees may operate under these licenses provided they pay the royalty fees and comply with the terms set by the Copyright Royalty Judges. The rates and terms for the section 112 and 114 licenses are set forth in 37 CFR parts 380 and 382-84.

As part of the terms for these licenses, the Judges designated SoundExchange, Inc., as the Collective, *i.e.*, the organization charged with collecting royalty payments and statements of account submitted by eligible licensees and with distributing royalties to the copyright owners and performers entitled to receive them under the section 112 and 114 licenses. *See, e.g.*, 37 CFR 380.2(a).²

As the Collective, SoundExchange may, only once a year, conduct an audit of a licensee for any or all of the prior three calendar years in order to verify royalty payments. SoundExchange must first file with the Judges a notice of intent to audit a licensee and deliver the notice to the licensee. *See, e.g.*, 37 CFR 380.6(c).

On December 22, 2017, SoundExchange filed with the Judges notices of intent to audit licensees Alpha Media LLC and Google Inc. for their transmissions terminating in the

United States for the years 2014, 2015, and 2016. On December 29, 2017, it filed a notice of intent to audit Music Choice for its webcast transmissions for the same years. The Judges must publish notice in the **Federal Register** within 30 days of receipt of a notice announcing the Collective's intent to conduct an audit. *See id.* Today's notice fulfills this requirement with respect to SoundExchange's notices of intent to audit filed December 22, 2017, and December 29, 2017.

Dated: January 17, 2018.
