SUPPLEMENTARY INFORMATION: The SPRNCA was established by Public Law 100–696 on November 18, 1988. The planning area is located in Cochise County in southeastern Arizona, and encompasses approximately 55,990 acres of public land administered by the BLM TFO. The SPRNCA is located adjacent to the City of Sierra Vista and is near Fort Huachuca, Arizona.

The SPRNCA is currently managed under the Safford District RMP (1992 and 1994), which incorporated RMP level decisions from the San Pedro River Riparian Management Plan (1989). This planning effort would update management guidance from the previous plans and create a new RMP for the SPRNCA. The planning effort is needed to identify goals, objectives, and management actions for the SPRNCA’s resources and uses identified in the enabling legislation, including aquatic; wildlife; archaeological; paleontological; scientific; cultural; educational; and recreational resources and values.

The BLM used public scoping comments to help identify planning issues that directed the formulation of alternatives and framed the scope of analysis in the Draft RMP/Draft EIS. Issues identified included management

of water, vegetation, and soil resources, fire management, Threatened and Endangered species management, livestock grazing, access, recreation, socio-economics, and lands and realty. The planning effort also considers lands with wilderness characteristics, wild and scenic rivers, and Areas of Critical Environmental Concern (ACECs).

The Draft RMP/Draft EIS evaluates four alternatives in detail. Alternative A is the No Action Alternative, which is a continuation of current management in the existing Safford District RMP and San Pedro River Riparian Management Plan. It is a continuation of current public use, resource protection, and conservation prescriptions without change. It neither sets desired outcomes for resource management or most uses, nor addresses new issues unforeseen or nonexistent when the Safford District RMP was prepared. Alternative B provides opportunities for increased public access, includes livestock grazing in sensitive riparian and cultural areas, allows recreation uses, and focuses on active resource management using the broadest array of management tools. This would include use of heavy equipment, herbicide, hand tools, and prescribed fire to achieve goals and objectives, to mitigate any effects from increased use, and for ecosystem restoration. Alternative B places an emphasis on opportunities for motorized access. Alternative C is the

BLM’s preferred alternative. Alternative C represents a balance between resource protection and public access, authorizes livestock grazing in areas compatible with the established conservation values, and provides for a diverse mix of recreation opportunities. As in Alternative B, Alternative C focuses on active resource management and would allow for use of the broadest array of management tools for ecosystem restoration and to meet goals and objectives. Alternative D emphasizes resource protection and conservation. It emphasizes primitive recreational experiences with limited motorized access, protection of wilderness characteristics, ACECs, and management of the San Pedro and Babocomari Wild and Scenic Rivers. It focuses on natural processes and use of “light on the land” management methods, such as the use of hand tools and prescribed fire, to help meet goals and objectives.

Pursuant to 43 CFR 1610.7–2(b), this notice announces a concurrent public comment period for potential ACECs. There are three existing ACECs under Alternative A, and three expanded and two new potential ACECs under Alternative D. ACECs are not proposed under Alternatives B and C. Pertinent information regarding these ACECs, including proposed designation acreage and resource use limitations are listed below.

PROPOSED ACECS

	Alternative A (acres)	Alternative D (acres)	ACEC resource values	Resource use limitations
Saint David Cienega ACEC	380	2,710	Cienega habitat, Cultural and historical values.	Visual Resource Management (VRM) class II.
San Pedro ACEC	1,420	7,230	Upland and riparian areas, Rare plants, Cultural and historical values.	VRM class II.
San Rafael ACEC	370	560	Rare plants, Giant sacaton grasslands, Mesquite bosques.	VRM class II.
Curry-Horsethief ACEC	2,540	Cultural, historical, and paleontological values.	VRM class II, land use authorizations would be excluded.
Lehner Mammoth ACEC	30	Cultural, historical, and paleontological values.	VRM class II, land use authorizations would be excluded.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; 30 CFR 580, Prospecting for Minerals Other Than Oil, Gas, and Sulphur on the Outer Continental Shelf and Authorizations of Noncommercial Geological and Geophysical Activities

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) is proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before July 30, 2018.

ADDRESSES: Send written comments on this information collection request (ICR) to the Office of Management and Budget’s Desk Officer for the Department of the Interior by email at OIRA_Submission@omb.eop.gov; or via

facsimile to 202–395–5806. Please provide a copy of your comments to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference Office of Management and Budget (OMB) Control Number 1010–0072 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Anna Atkinson by email, or by telephone at 703–787–1025. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on April 6, 2018 (83 FR 14884). No comments were received.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM? (2) Will this information be processed and used in a timely manner? (3) Is the estimate of burden accurate? (4) How might BOEM enhance the quality, utility, and clarity of the information to be collected? and (5) How might BOEM minimize the burden of this collection on the respondents, including through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
