

4. On page 28609, in the third column, correct the first paragraph of "Proposed Action" to read as follows:

#### Proposed Action

The scope and scale of the proposed action is on approximately 6 million acres of greater sage-grouse habitat on National Forest System lands in the Intermountain and Rocky Mountain Regions. Specific textual adjustments currently under consideration can be found on the Intermountain Region home page: <https://www.fs.usda.gov/detail/r4/home/?cid=stelprd3843381>.

5. On page 28610, in the first column, correct the "Scoping Process" paragraph to read as follows:

#### Scoping Process

The Forest Service is proposing amendments to affected land management plans in Colorado, Idaho, Nevada, Wyoming and Utah to change some of the plan components added in 2015. Public involvement is important for adding meaningful participation from the early phases of planning through finalization of the plan amendments and subsequent monitoring. A public participation strategy has been designed to assist with communication within the Forest Service and between the Forest Service and the public. Find the strategy here: <https://www.fs.usda.gov/detail/r4/home/?cid=stelprd3843381>.

6. On page 28610, in the first column, correct the "Responsible Officials" paragraph to read as follows:

#### Responsible Officials

The responsible officials who would approve plan amendments are the Regional Foresters for the Intermountain and Rocky Mountain Regions.

Dated: June 25, 2018.

**Chris French,**

*Associate Deputy Chief, National Forest System.*

## DEPARTMENT OF AGRICULTURE

### National Agricultural Statistics Service

#### Notice of Intent To Request Revision and Extension of a Currently Approved Information Collection

**AGENCY:** National Agricultural Statistics Service (NASS), USDA.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this

notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Cost of Pollination Survey. This survey gathers data related to the costs incurred by farmers to improve the pollination of their crops through the use of honey bees and other pollinators.

**DATES:** Comments on this notice must be received by August 31, 2018 to be assured of consideration.

**ADDRESSES:** You may submit comments, identified by docket number 0535-0258, by any of the following methods:

- *Email:* [ombofficer@nass.usda.gov](mailto:ombofficer@nass.usda.gov). Include docket number above in the subject line of the message.

- *eFax:* (855) 838-6382.

- *Mail:* Mail any paper, disk, or CD-ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

- *Hand Delivery/Courier:* Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

#### FOR FURTHER INFORMATION CONTACT:

Kevin L. Barnes, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720-2707. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS—OMB Clearance Officer, at (202) 690-2388 or at [ombofficer@nass.usda.gov](mailto:ombofficer@nass.usda.gov).

#### SUPPLEMENTARY INFORMATION:

*Title:* Cost of Pollination Survey.

*OMB Control Number:* 0535-0258.

*Type of Request:* Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

*Abstract:* The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue state and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture, and also to conduct the Census of Agriculture.

Pollinators (honey bees, bats, butterflies, hummingbirds, etc.) are vital to the agricultural industry for pollinating numerous food crops for the world's population. Concern for honey bee colony mortality has risen since the introduction of *Varroa* mites in the United States in the late 1980s and the appearance of Colony Collapse Disorder in the past decade.

In the Pollinator Research Action Plan, the Pollinator Health Task Force identified nearly 200 tasks that need to be conducted and coordinated from across the government to research all aspects of pollinator health and to come up with suggestions for improving this vital part of our food system. The Task Force's plan involves conducting research and collecting data for the following categories: Status & Trends, Habitats, Nutrition, Pesticides, Native Plants, Collections, Genetics, Pathogens, Decision Tools, and Economics. The pollinators have been classified into Honey Bee, Native Bee, Wasp, Moth/Butterfly, Fly, and Vertebrate. The departments that conduct the bulk of the research are the Department of the Interior (DOI), the Environmental Protection Agency (EPA), the National Science Foundation (NSF), the Smithsonian Institute (SI), and the United States Department of Agriculture (USDA).

NASS was given the tasks of collecting economic data related to honey bees and quantifying the number of colonies that were lost or reduced. NASS was approved to conduct the Quarterly and Annual Colony Loss Surveys under OMB approval number 0535-0255. NASS also collects the economic data under this collection. NASS collects data from crop farmers who rely on pollinators for their crops (fruits, nuts, vegetables, etc.). Data relating to the targeted crops are collected for the total number of acres that rely on honey bee pollination, the number of honey bee colonies that were used on those acres, and any cash fees associated with honey bee pollination. Crop Farmers are also asked if beekeepers who were hired to bring their bees to their farm were notified of pesticides used on the target acres, how many acres they were being hired to pollinate, and how much they were being paid to pollinate the targeted crops.

*Authority:* These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-113) and the Office of Management and Budget regulations at 5 CFR part 1320. NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential

Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33376.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 15 minutes per response. Publicity materials and an instruction sheet for reporting via internet will account for 5 minutes of additional burden per respondent. Respondents who refuse to complete a survey will be allotted 2 minutes of burden per attempt to collect the data.

Once a year, NASS will contact approximately 20,000 crop farmers who rely on honey bees to pollinate their fruit, nut, vegetable, and other crops. NASS will conduct the annual survey using a mail and internet approach. This will be followed up with phone and personal enumeration for non-respondents. NASS will attempt to obtain at least an 80% response rate.

*Respondents:* Farmers.

*Estimated Number of Respondents:* 20,000.

*Estimated Total Annual Burden on Respondents:* With an estimated response rate of approximately 80%, we estimate the burden to be 6,100 hours.

*Comments:* Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, June 20, 2018.

**Kevin L. Barnes,**

*Associate Administrator.*

## DEPARTMENT OF AGRICULTURE

### National Agricultural Statistics Service

#### Notice of Intent To Request Revision and Extension of a Currently Approved Information Collection

**AGENCY:** National Agricultural Statistics Service, USDA.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Mink Survey. The target population will be pulled from the NASS List Frame of operations with positive historical data. The frame is updated with the names of new operations that are found in trade magazines or grower’s association’s lists. The questionnaires that NASS is planning to use are the same as what was used in previous years. Any additional changes to the questionnaires would result from requests by industry data users.

**DATES:** Comments on this notice must be received by August 31, 2018 to be assured of consideration.

**ADDRESSES:** You may submit comments, identified by docket number 0535–0212, by any of the following methods:

- *Email:* [ombofficer@nass.usda.gov](mailto:ombofficer@nass.usda.gov). Include docket number above in the subject line of the message.
- *Fax:* (855) 838–6382.
- *Mail:* Mail any paper, disk, or CD-ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250–2024.

• *Hand Delivery/Courier:* Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, DC 20250–2024.

**FOR FURTHER INFORMATION CONTACT:**

Kevin L. Barnes, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720–2707. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS—OMB Clearance Officer, at (202) 690–2388 or at [ombofficer@nass.usda.gov](mailto:ombofficer@nass.usda.gov).

**SUPPLEMENTARY INFORMATION:**

*Title:* Mink Survey.

*OMB Control Number:* 0535–0212.

*Expiration Date of Approval:* November 30, 2018.

*Type of Request:* Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

*Abstract:* The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Mink Survey collects data on the number of mink pelts produced, the number of females bred, and the number of mink farms. Mink estimates are used by the federal government to calculate total value of sales and total cash receipts, by State governments to administer fur farm programs and health regulations, and by universities in research projects. The current expiration date for this docket is November 30, 2018. NASS intends to request that the Mink Survey be approved for another 3 years.

*Authority:* These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501, *et seq.*), and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 10 minutes per response for the producers and approximately 30 minutes per response for the buyers. NASS plans to mail out publicity materials with the questionnaires to inform operators of the importance of these surveys. NASS will also use multiple mailings, followed up with phone and personal enumeration to increase response rates and to minimize data collection costs.

*Respondents:* Farmers and ranchers.  
*Estimated Number of Respondents:* 300.

*Estimated Total Annual Burden on Respondents:* 85 hours.

*Comments:* Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the
