Harvard Gulch Alternative 3. The Harvard Gulch nonstructural flood risk management alternative includes structures in all reaches with an individual BCR above 1.0 and 10 buyouts located in the floodway in reach 4. The 10 residential buyouts in the floodway were selected based on flood damages beginning at the 10% ACE (10-year return interval flood) and inundation depths around 3 feet during the 1% ACE (100-year return interval flood). Of the structures meeting this criteria, the 10 closest to the channel were selected. This selection criteria also aligns with the non-Federal sponsor’s Harvard Gulch Major Drainageway Plan. The nonstructural measures for the 96 structures in this alternative include elevation, basement fill, dry floodproofing, and buyouts.

Harvard Gulch Alternative 4. The Harvard Gulch flood channel and nonstructural flood risk management combination alternative combines the measures and properties considered in alternatives 2 and 3 into a single alternative by looking at how isolated nonstructural measures could be used to further reduce the existing flood risk and thus generate higher flood risk reduction benefits.

Harvard Gulch Alternative 1. The Harvard Gulch NAA would involve the UDFCD and CCD ongoing operation and maintenance of constructed flood risk management features along the Harvard Gulch. Harvard Gulch Park would continue to be maintained for its current mixed use recreational purposes. Ongoing minor invasive species management and water quality improvements would be expected to continue, but construction of habitat restoration or additional flood risk management features would not be expected to occur.

Harvard Gulch Alternative 2. The Harvard Gulch flood channel alternative would involve increasing conveyance through the project area by widening the channel in reaches 2 through 5 with a culvert expansion in reach 1. The channel widening in reaches 2 through 5 would involve maintaining the approximately 1-foot wide daily flow channel, excavating a low flow channel and re-grading the upper channel sides to a 3H:1V slope. The flood control channel would consist generally of a trapezoidal low-flow channel designed to convey approximately 70% of the 50% ACE (2-year return interval flood), per UDFCD guidelines. The overall channel width varies by location and reach, but in general top of channel widths average 80 feet. Native species vegetation plantings would also be incorporated into this alternative to restore some riparian vegetation along the channel banks and restore wetland benches within the daily flow channel.

Harvard Gulch Alternative 3. The Harvard Gulch nonstructural flood risk management alternative includes structures in all reaches with an individual BCR above 1.0 and 10 buyouts located in the floodway in reach 4. The 10 residential buyouts in the floodway were selected based on flood damages beginning at the 10% ACE (10-year return interval flood) and inundation depths around 3 feet during the 1% ACE (100-year return interval flood). Of the structures meeting this criteria, the 10 closest to the channel were selected. This selection criteria also aligns with the non-Federal sponsor’s Harvard Gulch Major Drainageway Plan. The nonstructural measures for the 96 structures in this alternative include elevation, basement fill, dry floodproofing, and buyouts.

Harvard Gulch Alternative 4. The Harvard Gulch flood channel and nonstructural flood risk management combination alternative combines the measures and properties considered in alternatives 2 and 3 into a single alternative by looking at how isolated nonstructural measures could be used to further reduce the existing flood risk and thus generate higher flood risk reduction benefits.

The Draft EIS evaluates the potential effects on the human environmental associated with each of the alternatives. Issues addressed include: Land use and vegetation, social and economic conditions, recreation, water resources, climate change, biological resources, cultural resources, geomorphology, preexisting contamination, utilities and infrastructure, air quality, noise, and environmental justice.

Schedule. A 45-day public comment period will begin July 2, 2018. Comments on the Draft EIS must be received by August 16, 2018. The Corps will consider and respond to all comments received on the Draft EIS when preparing the Final EIS. The Corps expects to issue the Final EIS in the spring of 2019, at which time a Notice of Availability will be published in the Federal Register.

The public meeting date or location may change based on inclement weather or exceptional circumstances. If the meeting date or location is changed, the Corps will issue a press release and post it on the web at http://www.nwo.usace.army.mil/News-Press Releases/ to announce the updated meeting details.

Special Assistance for Public Meeting. The meeting facility is physically accessible to people with disabilities. People needing special assistance to attend the meeting in the meeting should contact: U.S. Army Corps of Engineers Omaha District, ATTN:
the meeting agenda can be found on the website.

SUPPLEMENTARY INFORMATION: This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102–3.140 and 102–3.150.

This notice of meeting is provided under the Federal Advisory Committee Act, as amended (5 U.S.C. App.). The executive session of the meeting from 11:15 a.m. to 12:00 p.m. on September 4, 2018, will consist of discussions of new and pending administrative/minor disciplinary infractions and non-judicial punishments involving midshipmen attending the Naval Academy to include but not limited to, individual honor/conduct violations within the Brigade, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. For this reason, the executive session of this meeting will be closed to the public, as the discussion of such information cannot be adequately segregated from other topics, which precludes opening the executive session of this meeting to the public. Accordingly, the Department of the Navy/Assistant for Administration has determined in writing that the meeting shall be partially closed to the public because the discussions during the executive session from 11:15 a.m. to 12:00 p.m. will be concerned with matters protected under sections 552b(c)(5), (6), and (7) of title 5, United States Code.

Purpose of the Meeting: The U.S. Naval Academy Board of Visitors will meet to make such inquiry, as the Board shall deem necessary, into the state of morale and discipline, the curriculum, instruction, physical equipment, fiscal affairs, and academic methods of the Naval Academy.

Agenda: 0830–0900 Assemble/Coffee (OPEN to public), 0900 Call to Order (OPEN to public), 0900–1100 Business Session (OPEN to public), 1100–1115 Break (OPEN to public), 1115–1200 Executive Session (CLOSED to public).

Meeting Accessibility: The meeting will be handicap accessible.

Written Statements: Pursuant to 41 CFR 102–3.105(j) and 102–3.140(c) and section 10(a)(3) of the FACA, the public or interested organizations may submit written statements to the membership of the DBP at any time regarding its mission or in response to the stated agenda of a planned meeting. Written statements should be submitted to the DBP’s Designated Federal Officer (DFO); the DFO’s contact information is listed in this notice or it can be obtained from the GSA’s FACA Database http://www.facadatabase.gov/. Written statements that do not pertain to a scheduled meeting of the DBP may be submitted at any time. However, if individual comments pertain to a specific topic being discussed at a planned meeting, then these statements must be submitted no later than five business days prior to the meeting in question. The DFO will review all submitted written statements and provide copies to all members.

E.K. Baldini
Lieutenant Commander, Judge Advocate General’s Corps, U.S. Navy, Federal Register Liaison Officer.

Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at http://www.ferc.gov using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.
