II. Background Information and Regulatory History

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule. Since the Coast Guard received final details of this event on June 25, 2018, notice and comment procedures would be impracticable in this instance.

For similar reasons as those stated above, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The Captain of the Port (COTP) San Francisco has determined that potential hazards associated with the planned fireworks display on July 4, 2018, will be a safety concern for anyone within a 100-foot radius of the fireworks barge and anyone within a 420-foot radius of the fireworks firing site. This rule is needed to protect spectators, vessels, and other property from hazards associated with pyrotechnics.

IV. Discussion of the Rule

This rule establishes a temporary safety zone during the loading and transit of the fireworks barge, until after completion of the fireworks display. During the loading of the pyrotechnics onto the fireworks barge, scheduled to take place from 8:00 a.m. to 4:00 p.m. on July 4, 2018, at Mare Island Waterfront in Vallejo, CA, the safety zone will encompass the navigable waters around and under the fireworks barge within a radius of 100 feet.

The fireworks barge will remain at Mare Island Waterfront until the start of the transit to the display location. Towing of the barge from Mare Island Waterfront to the display location is scheduled to take place from 8:50 p.m. to 9:00 p.m. on July 4, 2018, where it

will remain until the conclusion of the fireworks displays.

At 9:00 p.m. on July 4, 2018, 30 minutes prior to the commencement of the 18-minute fireworks display, the safety zone will increase in size and encompass the navigable waters around and under the fireworks barge within a radius of 420 feet in approximate position 38°06'03" N, 122°16'00" W (NAD 83) for the City of Vallejo Fourth of July Fireworks Display. The safety zone shall terminate at 10:30 p.m. on July 4, 2018.

The effect of the temporary safety zone are to restrict navigation in the vicinity of the fireworks loading, transit, and firing site. Except for persons or vessels authorized by the COTP or the COTP's designated representative, no person or vessel may enter or remain in the restricted area. This regulation is needed to keep spectators and vessels away from the immediate vicinity of the fireworks firing site to ensure the safety of participants, spectators, and transiting vessels.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the limited duration and narrowly tailored geographic area of the safety zone. Although this rule restricts access to the waters encompassed by the safety zone, the effect of this rule will not be significant because the local waterway users will be notified via public Broadcast Notice to Mariners to ensure the safety zone will result in minimum impact. The entities most likely to be affected are waterfront facilities, commercial vessels, and
