SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Subtitle C of the Resource Conservation and Recovery Act (RCRA) creates a comprehensive program for the safe management of hazardous waste. Section 3004 of RCRA requires owners and operators of facilities that treat, store, or dispose of hazardous waste to comply with standards established by EPA that are to protect the environment. Section 3005 provides for implementation of these standards under permits issued to owners and operators by EPA or authorized States. Section 3005 also allows owners and

operators of facilities in existence when the regulations came into effect to comply with applicable notice requirements to operate until a permit is issued or denied. This statutory authorization to operate prior to permit determination is commonly known as "interim status." Owners and operators of interim status facilities also must comply with standards set under Section 3004.

This ICR examines the ground-water monitoring standards for permitted and interim status facilities at 40 CFR parts 264 and 265, as specified. The ground-water monitoring requirements for regulated units follow a tiered approach whereby releases of hazardous contaminants are first detected (detection monitoring), then confirmed (compliance monitoring), and if necessary, are required to be cleaned up (corrective action). Each of these tiers requires collection and analysis of ground-water samples. Owners or operators that conduct ground-water monitoring are required to report information to the oversight agencies on releases of contaminants and to maintain records of ground-water monitoring data at their facilities. The goal of the ground-water monitoring program is to prevent and quickly detect releases of hazardous contaminants to groundwater, and to establish a program whereby any contamination is expeditiously cleaned up as necessary to protect human health and environment.

FEDERAL MARITIME COMMISSION

[DOCKET NO. 18-04]

Falcone Global Solutions, LLC v. Maurice Ward Networks, Ltd. d/b/a Maurice Ward Group; Maurice Ward & Co., BV.; and Maurice Ward & Co. S.R.O.; Notice of Filing of Complaint and Assignment

Notice is given that a complaint has been filed with the Federal Maritime Commission (Commission) by Falcone Global Solutions, LLC, hereinafter "Complainant," against Maurice Ward Networks, Ltd. d/b/a Maurice Ward Group; Maurice Ward & Co., BV.; and Maurice Ward & Co. S.R.O., hereinafter "Respondents." Complainant states that it is a licensed non-vessel operating common carrier (NVOCC) operating in Atlanta, Georgia. Complainant states that Respondents are foreign limited liability companies that "... [provide] global freight forwarding, warehousing, logistics, and custom clearance services for [their] customers". Complainant asserts that Maurice Ward & Co. S.R.O. is an FMC registered foreign-based unlicensed NVOCC.

Complainant claims that the Respondents "... [acted] as a common carrier as defined in 46 U.S.C. 40102(6)." Complainant asserts this action arises from "... Respondents' unlawful withholding of 87 containers of Complainant's cargo in an attempt to extort Complainant into paying invalid invoices with inaccurate fees and charges that were disputed by Complainant."
