SUPPLEMENTARY INFORMATION: OMB has approved and issued control numbers for three collections of information in PBGC's regulations relating to multiemployer plans. These collections of information are described below. OMB approvals for these collections of information expire November 30, 2018. PBGC intends to request that OMB extend its approval of these collections of information for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. PBGC is soliciting public comments to—

- Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- evaluate the accuracy of the agency's estimate of the burden of the proposed collections of information, including the validity of the methodologies and assumptions used;

- enhance the quality, utility, and clarity of the information to be collected; and

- minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

1. Termination of Multiemployer Plans (29 CFR Part 4041A) (OMB Control Number 1212-0020) (Expires November 30, 2018)

Section 4041A(f)(2) of ERISA authorizes PBGC to prescribe reporting requirements and other rules and standards for administering terminated multiemployer plans. Section 4041A(c) and (f)(1) of ERISA prohibit the payment by a mass-withdrawal-terminated plan of lump sums greater than \$1,750 or of nonvested plan benefits unless authorized by PBGC.

The regulation requires the plan sponsor of a terminated plan to submit a notice of termination to PBGC. It also requires the plan sponsor of a mass-withdrawal-terminated plan that is closing out to give notices to participants regarding the election of alternative forms of benefit distribution and, if the plan is not closing out, to obtain PBGC approval to pay lump sums greater than \$1,750 or to pay nonvested plan benefits.

PBGC uses the information in a notice of termination to assess the likelihood that PBGC financial assistance will be needed. Plan participants and beneficiaries use the information on alternative forms of benefit to make personal financial decisions. PBGC uses the information in an application for approval to pay lump sums greater than \$1,750 or to pay nonvested plan benefits to determine whether such payments should be permitted.

PBGC estimates that each year plan sponsors submit notices of termination for ten plans, distribute election notices to participants in three of those plans, and submit requests to pay benefits or benefit forms not otherwise permitted for one of those plans. The estimated annual burden of the collection of information is 69 hours and \$50,000.

2. Notice of Insolvency (29 CFR Part 4245) (OMB Control Number 1212-0033) (Expires November 30, 2018)

Section 4245(e) of ERISA requires two types of notice: A "notice of insolvency," stating a plan sponsor's determination that the plan is or may become insolvent, and a "notice of insolvency benefit level," stating the level of benefits that will be paid during an insolvency year. The recipients of these notices are PBGC, contributing employers, employee organizations representing participants, and participants and beneficiaries.

The regulation establishes the procedure for complying with these notice requirements. PBGC uses the information submitted to estimate cash needs for financial assistance to

troubled plans. The collective bargaining parties use the information to decide whether additional plan contributions will be made to avoid the insolvency and consequent benefit suspensions. Plan participants and beneficiaries use the information in personal financial decisions.

PBGC estimates that at most one plan sponsor of an ongoing plan gives notices each year under this regulation. The estimated annual burden of the collection of information is 20 hours and \$12,000.

3. Duties of Plan Sponsor Following Mass Withdrawal (29 CFR Part 4281) (OMB Control Number 1212-0032) (Expires November 30, 2018)

Section 4281 of ERISA provides rules for plans that have terminated by mass withdrawal. Under section 4281, if nonforfeitable benefits exceed plan assets, the plan sponsor must amend the plan to reduce benefits. If the plan nevertheless becomes insolvent, the plan sponsor must suspend certain benefits that cannot be paid. If available resources are inadequate to pay guaranteed benefits, the plan sponsor must request financial assistance from PBGC.

The regulation requires a plan sponsor to give notices of benefit reduction, notices of insolvency, and notices of insolvency benefit level to PBGC and to participants and beneficiaries and, if necessary, to apply to PBGC for financial assistance.

PBGC uses the information it receives to make determinations required by ERISA, to identify and estimate the cash needed for financial assistance to terminated plans, and to verify the appropriateness of financial assistance payments. Plan participants and beneficiaries use the information to make personal financial decisions.

PBGC estimates that plan sponsors of terminated plans each year will give benefit reduction notices for 1 plan, notices of insolvency for 10 plans, and notices of insolvency benefit level for 55 plans. PBGC also estimates that plan sponsors each year will file initial requests for financial assistance for 10 plans and will submit 300 non-initial applications for financial assistance. The estimated annual burden of the collection of information is 1,300 hours and \$615,400.
