

Control Group

Control group drivers must be 21 to 24 years old. These drivers will be required to possess a valid CDL; drive for the participating motor carrier; have no disqualifications, suspensions, or license revocations within past 3 years; or be subject to any OOS order; and agree to the release of specified information for use in assessing the safety of covered drivers in pilot program.

Intrastate Drivers

Section 5404 of the FAST Act requires FMCSA to compare the covered drivers to other 18-, 19-, and 20-year-old drivers operating CMVs in intrastate commerce, and specifically to analyze crash rates. Motor carriers with intrastate drivers who are 18, 19 or 20 years old will be asked to provide the monthly report data on these drivers too, as a condition of participating in this pilot program.

Monitoring and Oversight

FMCSA will review both monthly data submitted by approved motor carriers and its own databases including, but not limited to, the Motor Carrier Management Information System, Safety Measurement System, Commercial Driver License Information System, and the Licensing and Insurance system. FMCSA reserves the right to remove any motor carrier or driver from the pilot program for reasons including, but not limited to, failing to meet any of the requirements of the program.

Length of Program

FMCSA expects this program to run 3 years but may conclude the program sooner if there is sufficient data to analyze the safety of covered drivers.

Issued on: June 7, 2018.

Administrator.
