SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration will be requesting that OMB extend information collection 3090-0007, concerning GSA Form 527, Contractor's Qualifications and Financial Information. This form is used to determine the financial capability of prospective contractors as to whether they meet the financial responsibility standards in accordance with the Federal Acquisition Regulation (FAR) 9.103(a) and 9.104-1 and also the General Services Administration Acquisition Manual (GSAM) 509.105-1(a).

B. Annual Reporting Burden

Respondents: 2,542.

Responses per Respondent: 1.2.

Total Responses: 3,050.

Hours per Response: 1.5.

Total Burden Hours: 4,575.

The estimated annual burden has decreased since GSA's 2014 submission from 5,292 to 4,575 burden hours to reflect the continued use of the widespread option for potential contractors to submit financial statements and balance sheets in lieu of completing the applicable fields on GSA Form 527. The alternate submission of financial statements and balance sheets significantly reduces the burden on prospective contractors, as these documents are generally readily available. The average estimated hours to complete a response remained at the optimal rate of 1.5 hours.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected. A request for public comments was issued in the **Federal Register** at 83 FR 7184, on

February 20, 2018. No comments were received.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405, telephone 202-501-4755.

Please cite OMB Control No. 3090-0007, Contractor's Qualifications and Financial Information (GSA Form 527), in all correspondence.

Dated: July 2, 2018.

SUPPLEMENTARY INFORMATION:

A. Purpose

The CDP Supply Chain Climate Change Information Request is an electronic questionnaire designed to collect information pertinent to organizations' exposure to energy market and environmental risks. The questionnaire is administered by CDP North America, Inc., a 501(c)(3) nonprofit organization ("CDP"). CDP administers the questionnaire annually to companies on behalf of over 650 institutional investors and over 100 major purchasing corporations and governmental purchasing organizations. In accordance with 31 U.S. Code § 3512(c)(1)(b), GSA will use the information collected via this questionnaire to inform and develop purchasing policies and contract requirements necessary to safeguard Federal assets against waste, loss, and misappropriation resulting from unmitigated exposure to energy market and environmental risks.

B. Annual Burden Hours

Frequency: Annual.

Affected Public: Federal contractors.

Number of Respondents: 250.

Responses per Respondent: 1.

Total Annual Responses: 250.

Estimated Time per Respondent: 4.8 hrs.

Total Burden Hours: 1,210.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary, whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines which have been promulgated by the Department of Health and Human Services (HHS) as a final rule, advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule, advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC.

The charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered under Executive Order 13811 on February 12, 2018, and will terminate on September 30, 2019.

Purpose: This Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such

radiation doses may have endangered the health of members of this class.

Matters to be Considered: The agenda will include discussions on the following: NIOSH Program Update; Department of Labor Program Update; Department of Energy Program Update; SEC Petitions Update; possible discussion of a site profile review (dose reconstruction methods for Feed Materials Production Center (Fernald, Ohio); SEC Petitions for: Sandia National Laboratory (Albuquerque, New Mexico), Metals and Controls Corporation (Attleboro, Massachusetts, Idaho National Laboratory (Scoville, Idaho), and DeSoto Facility (Los Angeles, California); continued review of dose reconstruction methods associated with estimating skin doses; and a Board Work Session. Agenda items are subject to change as priorities dictate.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Sherri A. Berger,

Chief Operating Officer, Centers for Disease Control and Prevention.
