SUPPLEMENTARY INFORMATION: The estimated time required for technological development and user acceptance testing is one year from the start of development. The Agency does not plan to collect a technology fee during the first year of the project, and technology fee collections are not expected prior to the first quarter of fiscal year 2019. Presently the estimated amount of the guarantee loan systems user fee is \$25 with an expected implementation date of January 2, 2019. The Agency will advise lenders in advance of the implementation date of the actual amount of the guarantee loan systems user fee, along with all pertinent development and operational details.

The use of the LLC is currently voluntary and lenders submit more than 98 percent of loan closings through that channel. In order to effectively serve the public and keep pace with modern lending practices, the Agency must have ready access to funding for the maintenance and enhancement of automated systems required for the secure and efficient delivery of the single family housing loan programs. The system improvement will also enhance the Agency's ability to effectively monitor the processing, underwriting, and closing of all guaranteed loans and protect the investment of the public.
