#### A. Overview of Information Collection

##### *Title of Information Collection:*

Congregate Housing Services Program.

*OMB Approved Number:* 2502-0485.

*Type of Request:* Extension of currently approved collection.

*Form Number:* SF-424, 425, HUD-90003, HUD-90006, HUD-90198, HUD-91180-A, HUD-91178-A.

##### *Description of the Need for the Information and Proposed Use:*

Completion of the Annual Report by grantees provides HUD with essential information about whom the grant is serving and what sort of services the beneficiaries receive using grant funds.

The Summary Budget and the Annual Program Budget make up the budget of the grantee's annual extension request. Together the forms provide itemized expenses for anticipated program costs and a matrix of budgeted yearly costs. The budget forms show the services funded through the grant and demonstrate how matching funds, participant fees, and grant funds will be used in tandem to operate the grant program. Field staff approve the annual budget and request annual extension funds according to the budget. Field staff can also determine if grantees are meeting statutory and regulatory requirements through the evaluation of this budget.

HUD will use the Payment Voucher to monitor use of grant funds for eligible activities over the term of the grant. The Grantee may similarly use the Payment Voucher to track and record their requests for payment reimbursement for grant-funded activities.

*Respondents:* (i.e., affected public): Non-profit institutions.

*Estimated Number of Respondents:* 49.

*Estimated Number of Responses:* 392.

*Frequency of Response:* 8.

*Average Hours per Response:* 1.56.

*Total Estimated Burdens:* 611.52.

#### A. Overview of Information Collection

*Title of Information Collection:* Pre-Purchase Homeownership Counseling Demonstration and Impact Evaluation collection.

*OMB Approval Number:* 2528-0293.

*Type of Request:* Revision of currently approved collection.

*Form Number:* N/A.

*Description of the need for the information and proposed use:* The U.S. Department of Housing and Urban Development (HUD) is conducting a national study on the effectiveness of pre-purchase homeownership counseling services. This request covers four data collection activities: (1) Administering a final follow-up survey to study participants; (2) extending OMB approval #2528-0293 so that the study can continue to collect updated tracking information from study participants; and (3) extending OMB approval #2528-0293 so that the study can continue to collect consent from the co-borrowers of study participants; and (4) extending OMB approval #2528-0293 so that the study can continue to collect loan origination and servicing data from lenders. The final follow-up survey will be administered to study participants approximately 48 months after they completed the baseline survey. The final survey will provide a comparison of study participants' characteristics from the baseline survey and allow the study to better understand, document, and explain the impacts of first-time homebuyer education and counseling. As part of OMB approval #2528-0293, the study collects updated study participant contact information to locate study participants for the final follow-up survey. Maintaining contact with study participants over time is critical to minimizing attrition and ensuring high response rates to the follow-up surveys. Additionally, the collection of consent

from study participants' co-borrowers is necessary to allow the study to collect data related to the characteristics and performance of study participants' mortgage loans. Lastly, as part of OMB approval #2528-0293, the study collects study participants' loan origination and service tracking data from the study's three participating lenders.

*Respondents (i.e. affected public):* Up to 5,854 study participants; approximately 1,000 co-borrowers; and, staff at 3 lenders.

The average time per study participant (up to 5,854 study participants) to complete the final follow-up survey is 30 minutes. The

study mails study participant tracking letters twice per year. The average time for study participants' review of the letters and return of the tracking form is 5 minutes. The collection of co-borrower consent involves including the co-borrower consent form in the study's regular tracking letters, along with a request for the co-borrower to review, sign, and return the written consent form. For co-borrowers who do not return the written form, the study will collect consent verbally at the time of the interim survey. The study estimates that approximately 1,000 study participants will have co-borrowers. The co-borrowers' review of the co-borrower

consent information and completion of the consent process is estimated to require approximately 5 minutes per co-borrower. The average time for lenders to prepare study participants' loan origination and performance data for the study team is 60 minutes. The study team will ask for this data semi-annually from each lender during the next 3 years from each lender. The total burden for the study is 3,949.64 hours: 3,903 hours for study participants, 83 hours for co-borrowers, and 6 hours for lenders.

*Estimated Number of Respondents/  
Estimated Number of Responses:*

\* The average income that our study participants received in the last 12 months is \$57,811. This estimate of average income is based on responses to the Short-Term Follow-Up Survey and was weighted to represent the full study sample using sample weights that adjust for follow-up survey nonresponse. Thus, the hourly rate for our study participants is estimated at \$27.70 (using the U.S. Office of Personnel's national standard of 2,087 hours per year for a full-time employee).
