

from study participants' co-borrowers is necessary to allow the study to collect data related to the characteristics and performance of study participants' mortgage loans. Lastly, as part of OMB approval #2528-0293, the study collects study participants' loan origination and service tracking data from the study's three participating lenders.

Respondents (i.e. affected public): Up to 5,854 study participants; approximately 1,000 co-borrowers; and, staff at 3 lenders.

The average time per study participant (up to 5,854 study participants) to complete the final follow-up survey is 30 minutes. The

study mails study participant tracking letters twice per year. The average time for study participants' review of the letters and return of the tracking form is 5 minutes. The collection of co-borrower consent involves including the co-borrower consent form in the study's regular tracking letters, along with a request for the co-borrower to review, sign, and return the written consent form. For co-borrowers who do not return the written form, the study will collect consent verbally at the time of the interim survey. The study estimates that approximately 1,000 study participants will have co-borrowers. The co-borrowers' review of the co-borrower

consent information and completion of the consent process is estimated to require approximately 5 minutes per co-borrower. The average time for lenders to prepare study participants' loan origination and performance data for the study team is 60 minutes. The study team will ask for this data semi-annually from each lender during the next 3 years from each lender. The total burden for the study is 3,949.64 hours: 3,903 hours for study participants, 83 hours for co-borrowers, and 6 hours for lenders.

Estimated Number of Respondents/ Estimated Number of Responses:

* The average income that our study participants received in the last 12 months is \$57,811. This estimate of average income is based on responses to the Short-Term Follow-Up Survey and was weighted to represent the full study sample using sample weights that adjust for follow-up survey nonresponse. Thus, the hourly rate for our study participants is estimated at \$27.70 (using the U.S. Office of Personnel's national standard of 2,087 hours per year for a full-time employee).

SUPPLEMENTARY INFORMATION: The following described public land in Park

County, Wyoming, has been examined and found suitable for sale under the authority of Section 203 of FLPMA, as amended:

Sixth Principle Meridian

T. 55 N, R. 100 W,
Sec. 10, lot 4.

The areas described contains 1.31 acres in Park County, Wyoming.

The sale is in conformance with the BLM Cody Resource Management Plan, which identifies this parcel of public land as suitable for disposal on page 105 and management action 6011, approved on September 18, 2015. The parcel is not needed for any other Federal purpose. The regulations at 43 CFR 2711.3-3(a) permit the BLM to make direct sales of public lands when a competitive sale is not appropriate and the public interest would be best served by a direct sale. The public interest would be served by resolving this inadvertent unauthorized use and receiving the fair market value for the lands.

On August 30, 2018, the above-described lands will be segregated from appropriation under the public lands laws, including the mining laws, except the sale provision of the FLPMA. Until completion of the sale action, the BLM is no longer accepting land use applications affecting the public land, except applications for the amendment of previously-filed, right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15. The temporary segregative effect will terminate upon the issuance of a patent, publication in the **Federal Register** of a termination of the segregation, or on July 16, 2020, unless extended by the BLM Wyoming State Director in accordance with 43 CFR 2711.1-2(d) prior to the termination date.

In addition, this Notice will publish once each week for three weeks in the Powell Tribune newspaper.

The following terms, conditions, and reservations will appear on the conveyance document for the sale parcel:

1. A right-of-way is reserved for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945);
2. A reservation of all minerals to the United States, and the right to prospect for, mine, and remove such minerals under applicable law and such regulations as established by the
