The Exchange believes the proposed Rebate would further the Exchange’s goal of introducing new products to the marketplace by encouraging trading in this index, in particular by encouraging Floor Brokers to bring business to the Trading Floor, which would in turn, benefit all market participants through increased liquidity and more opportunities to trade.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act, in general, and furthers the objectives of Sections 6(b)(4) and (5) of the Act, in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange believes the proposal to introduce a Floor Broker Rebate for executing a certain number of options contract sides on NYSE FANG+ is reasonable, equitable and not unfairly discriminatory for the following reasons. The Exchange believes the proposed rebates, which apply equally to all Floor Broker transactions in NYSE FANG+, regardless of account type,
be reasonable and equitable because business brought to the Trading Floor may be on behalf of any market participant. In addition, such orders benefit all market participants by providing more trading opportunities, which attracts Market Makers, Customers and other participants. An increase in activity, in turn, facilitates tighter spreads, which may result in a corresponding increase in order flow from all market participants.

B. Self-Regulatory Organization’s Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act, the Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposed rebates for Floor Broker organizations that achieve the proposed Rebate would not place an unfair burden on competition as it would apply to all similarly situated Floor Brokers, and is applicable to business from all account types. The Exchange also believes the proposed Rebate is procompetitive as it would further the Exchange’s goal of introducing new products to the marketplace and encouraging Floor Brokers to bring business to the Trading Floor, which would in turn, benefit all market participants. Market participants that do not wish to trade in NYSE FANG+ are not obliged to do so.

The Exchange does not believe that the proposed change will impair the ability of any market participants or competing order execution venues to maintain their competitive standing in the financial markets. Further, the proposed Rebate would be applied to all similarly situated participants (i.e., Floor Brokers), and, as such, the proposed change would not impose a disparate burden on competition either among or between classes of market participants.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A) of the Act and subparagraph (f)(2) of Rule 19b–4 thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
