

estimated weighted-average dumping margins by the appropriate rates as indicated in the above chart.¹⁵ We made no adjustment for domestic subsidy pass-through in this case because we found no basis upon which to make such an adjustment.¹⁶

In addition, pursuant to section 735(c)(1)(B)(ii) of the Act, Commerce will instruct CBP to require a cash deposit equal to the weighted-average amount by which NV exceeds U.S. price as follows: (1) The cash deposit rate for the exporter/producer combination listed in the table above will be the rate identified for that combination in the table; (2) for all combinations of exporters/producers of merchandise under consideration that have not received their own separate rate above, the cash-deposit rate will be the cash deposit rate established for the China-wide entity; and (3) for all non-Chinese exporters of the merchandise under consideration which have not received their own separate rate above, the cash deposit rate will be the cash deposit rate applicable to the Chinese exporter/producer combination that supplied that non-Chinese exporter. These suspension of liquidation instructions will remain in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of the final affirmative determination of sales at LTFV.

As Commerce's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will determine, within 45 days, whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of cast iron soil pipe fittings from China, or sales (or the likelihood of sales) for importation, of cast iron soil pipe fittings from China. If the ITC determines that such injury does not exist, this proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, Commerce intends to issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

¹⁵ See the Issues and Decision Memorandum for further discussion.

¹⁶ *Id.*

Notification Regarding Administrative Protective Orders

In the event that the ITC issues a final negative injury determination, this notice will serve as the only reminder to parties subject to an APO of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This determination is issued and published pursuant to sections 735(d) and 777(i) of the Act and 19 CFR 351.210(c).

Dated: July 5, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by this investigation is cast iron soil pipe fittings, finished and unfinished, regardless of industry or proprietary specifications, and regardless of size. Cast iron soil pipe fittings are nonmalleable iron castings of various designs and sizes, including, but not limited to, bends, tees, wyes, traps, drains, and other common or special fittings, with or without side inlets.

Cast iron soil pipe fittings are classified into two major types—hubless and hub and spigot. Hubless cast iron soil pipe fittings are manufactured without a hub, generally in compliance with Cast Iron Soil Pipe Institute (CISPI) specification 301 and/or American Society for Testing and Materials (ASTM) specification A888. Hub and spigot pipe fittings have hubs into which the spigot (plain end) of the pipe or fitting is inserted. Cast iron soil pipe fittings are generally distinguished from other types of nonmalleable cast iron fittings by the manner in which they are connected to cast iron soil pipe and other fittings.

The subject imports are normally classified in subheading 7307.11.0045 of the Harmonized Tariff Schedule of the United States (HTSUS): Cast fittings of nonmalleable cast iron for cast iron soil pipe. They may also be entered under HTSUS 7324.29.0000 and 7307.92.3010. The HTSUS subheadings and specifications are provided for convenience and customs purposes only; the written description of the scope of this investigation is dispositive.

Appendix II

List of Topics Discussed in the Issues and Decision Memorandum

I. Summary

- II. Background
- III. Final Determination of Critical Circumstances
- IV. China-Wide Rate
- V. Separate Rates
- VI. Adjustments for Countervailable Export Subsidies
- VII. Changes Since the Preliminary Determination
- VIII. Discussion of the Issues
 - General Issues
 - Comment 1: What Rate to Assign as Adverse Facts Available (AFA) to Sibo and the China-Wide Entity
 - Comment 2: Surrogate Country Selection
 - Comment 3: Adjusting the Global Trade Atlas (GTA) Import Data for Movement Expenses
 - Comment 4: Treatment of Certain Inputs as Materials or Overhead
 - Comment 5: Reintroduced Materials
 - Comment 6: Surrogate Value for Coated Sand
 - Comment 7: Calculating the Margins on a Consistent Basis
 - Comment 8: Calculation of Movement Expenses
 - Comment 9: Non-Refundable Value Added Tax (VAT)
 - Comment 10: Record-Keeping Deficiencies Wor-Biz Issues
 - Comment 11: Surrogate Value for Asphalt Paint
 - Comment 12: Surrogate Value for Paint Thinner
 - Comment 13: Calculation of Freight Revenue
 - Xuanshi Issues
 - Comment 14: Surrogate Value for Pig Iron
 - Comment 15: Surrogate Values for Iron Ore, Coal, and Coke
 - Comment 16: Calculation of the Slag Iron By-Product Offset
 - Comment 17: Calculation of the Packing Material Consumption Rates
 - Comment 18: Surrogate Values for Inland and Ocean Freight
- IX. Recommendation

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Economic Expenditure Survey of Golden Crab Fishermen in the U.S. South Atlantic Region

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on

proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before September 17, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at pracommments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. Scott Crosson, (305) 361-4468 or scott.crosson@

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. The National Marine Fisheries Service (NMFS) proposes to collect economic information from golden-crab landing commercial fishermen in the United States (U.S.) South Atlantic region. The data gathered will be used to evaluate the likely economic impacts of management proposals. In addition, the information will be used to satisfy legal mandates under Executive Order 12898, the Magnuson-Stevens Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act, and other pertinent statutes.

II. Method of Collection

A standardized survey will be administered via in-person, telephone and/or mail to all fishermen participating in the fishery.

III. Data

OMB Number: 0648-0631.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 9.

Estimated Time per Response: 1 hour.

Estimated Total Annual Burden

Hours: 9.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance

of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: July 12, 2018.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XG302

Endangered Species; File Nos. 18238, 21327 and 22123

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of applications for permits and a permit modification.

SUMMARY: Notice is hereby given that three applicants have applied in due form for a permit or permit modification to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), Kemp's ridley (*Lepidochelys kempii*), loggerhead (*Caretta caretta*), and olive ridley (*L. olivacea*) sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or email comments must be received on or before August 16, 2018.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting the applicable File No. from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources,

NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on the applications should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on the application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Amy Hapeman (for File No. 18238-01) or Erin Markin (for File Nos. 21327 and 22123), (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permits and permit modification are requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

File No. 18238-01: Permit No. 18238 issued on April 21, 2016 (81 FR 43589) authorizes the NMFS Southwest Fisheries Science Center, 8901 La Jolla Shores Drive, La Jolla, CA 92037, (Responsible Party: Lisa Ballance, Ph.D.) to take green, loggerhead, and olive ridley sea turtles for research in southern California waters. Researchers may conduct vessel surveys for sea turtle counts, captures, examination, observation, marking, biological sampling, tagging, and morphometrics. The permit holder requests authorization to: (1) Increase the number of green sea turtles that may be taken from 60 to 100 turtles annually to accommodate an increase in survey effort needed to improve population abundance estimates, and (2) extend the duration of the permit until September 30, 2025.

File No. 21327: Raymond Carthy, Florida Cooperative Fish and Wildlife Research Unit, USGS-BRD, P.O. Box 110485, Gainesville, FL 23611, proposes to continue research to determine (1) distribution and abundance, (2) use of benthic habitats, (3) demographics and movement patterns, and (4) human impacts for sea turtles in the Florida Panhandle and Big Bend region of Florida. Up to 1720 green, 160 hawksbill, 285 Kemp's ridley, and 180 loggerhead sea turtles, annually, may be harassed, but not captured, during
