NUCLEAR REGULATORY COMMISSION

[Docket No. 50–271; NRC–2015–0157]

Entergy Nuclear Operations, Inc.; Vermont Yankee Nuclear Power Station; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Final environmental assessment and finding of no significant impact; correction.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is correcting a notice that was published in the **Federal Register** (FR) on December 26, 2017, regarding issuance of a final environmental assessment (EA) and finding of no significant impact (FONSI). The EA and FONSI address the issuance of two exemptions that allow Entergy Nuclear Operations, Inc. to use funds from the Vermont Yankee decommissioning trust fund for irradiated fuel management activities. This action is necessary to delete erroneous text in the response to petitioner's comment 1.a. and provide clarification.

DATES: The correction is effective January 24, 2018.

SUPPLEMENTARY INFORMATION: In the FR on December 26, 2017, in FR Doc. 2017–27682, on page 61042, in the NRC response to Petitioners comment 1.a., the entire response is corrected to read as follows: “The NRC disagrees with this comment. The NRC is aware of the possible sale of VY to NorthStar, and that the sale may result in changes to the plan, schedule, and cost estimate for decommissioning. The sale transaction is still pending regulatory review and approval by both the Vermont Public Service Board and the NRC. Pursuant to 10 CFR 50.80, the VY license may not be transferred, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to any person, unless the NRC gives its consent in writing. In light of the pendency of the license transfer request, it would be inappropriate for the agency to prejudge the outcome of this review. However, pursuant to 10 CFR 51.22(c)(21), the agency has determined that, as a generic matter, there are no significant environmental impacts associated with the transfer of the license. While the petitioners have challenged the applicability of the categorical exclusion in these circumstances, the agency believes that, for purposes of this EA, it is appropriate to rely on the existing analysis and to leave future arguments concerning its applicability to the ongoing adjudicatory process. Furthermore, pursuant to 10 CFR 50.33(k), the license transfer request is required to state information in the form of a report indicating how reasonable assurance will be provided that funds will be available to decommission the facility.”

Dated at Rockville, Maryland, this 19th day of January.

For the Nuclear Regulatory Commission.

John R. Tappert,

Director, Division of Decommissioning, Uranium Recovery, and Waste Programs, Office of Nuclear Material Safety and Safeguards.

SUPPLEMENTARY INFORMATION:

Section 4007 of Title IV of the Employee Retirement Income Security Act of 1974 (ERISA) requires pension plans covered under Title IV pension insurance programs to pay premiums to PBGC. All plans covered by Title IV pay a flat-rate per-participant premium. An underfunded single-employer plan also pays a variable-rate premium based on the value of the plan’s unfunded vested benefits.

Pursuant to section 4007, PBGC has issued its regulation on Payment of Premiums (29 CFR part 4007). Under § 4007.3 of the premium payment regulation, the plan administrator of each pension plan covered by Title IV of ERISA is required to file a premium payment and information prescribed by PBGC for each premium payment year. Premium information is filed electronically using “My Plan Administration Account” (“My PAA”) through PBGC’s website. Under § 4007.10 of the premium payment regulation, plan administrators are required to retain records about premiums and information submitted in premium filings.

Premium filings report (i) the flat-rate premium and related data (all plans), (ii) the variable-rate premium and related data (single-employer plans), and (iii) additional data such as identifying information and miscellaneous plan-related or filing-related data (all plans). PBGC needs this information to identify the plans for which premiums are paid, to verify whether the amounts paid are correct, to help PBGC determine the magnitude of its exposure in the event of plan termination, to help track the creation of new plans and transfer of participants and plan assets and liabilities among plans, and to keep PBGC’s insured-plan inventory up to date. That information and the retained records are also needed for audit purposes.

The collection of information under the regulation has been approved through March 31, 2018, by OMB under control number 1212–0009. PBGC intends to request that OMB approve the
