categories on the AD–755 or nomination letter.

The eight slots to be filled are:

Category A. National Farm Organization
Category C. Food Animal Commodity Producer
Category I. National Human Health Association
Category N. Non-Land Grant College or University With Historic Commitment to Research in Food and Agricultural Sciences
Category O. Hispanic-serving Institutions
Category Q. Transportation of food and agricultural products to domestic and foreign markets
Category R. Food Retailing and Marketing Interests
Category S. Food and Fiber Processors

Specialty Crop Committee: The Specialty Crop Committee was created as a subcommittee of the NAREEE Advisory Board in accordance with the Specialty Crops Competitiveness Act of 2004 under Title III, Section 303 of Public Law 108–465. The committee was formulated to study the scope and effectiveness of research, extension, and economics programs affecting the specialty crop industry. The legislation defines “specialty crops” as fruits, vegetables, tree nuts, dried fruits and nursery crops (including floriculture). The Agricultural Act of 2014 further expanded the scope of the Specialty Crop Committee to provide advice to the Secretary of Agriculture on the relevancy review process of the Specialty Crop Research Initiative, a granting program of the National Institute of Food and Agriculture.

Members should represent the breadth of the specialty crop industry. Six members of the Specialty Crop Committee are also members of the NAREEE Advisory Board and six members represent various disciplines of the specialty crop industry. The terms of three members will expire on September 30, 2018. The Specialty Crop Committee is soliciting nominations to fill three vacant positions to represent the specialty crop industry. Appointed members will serve three years with their terms expiring in September 2021.

National Genetic Resources Advisory Council: The National Genetic Resources Advisory Council was re-established in 2012 as a permanent subcommittee of the NAREEE Advisory Board to formulate recommendations on actions and policies for the collection, maintenance, and utilization of genetic resources; to make recommendations for coordination of genetic resources plans of several domestic and international organizations; and to advise the Secretary of Agriculture and the National Genetic Resources Program, part of the Agricultural Research Service, of new and innovative approaches to genetic resources conservation.

The National Genetic Resources Advisory Council membership is required to have two-thirds of the appointed members from scientific disciplines relevant to the National Genetic Resources Program, including agricultural sciences, environmental sciences, natural resource sciences, health sciences, and nutritional sciences; and one-third of the appointed members from the general public including leaders in fields of public policy, trade, international development, law, or management.

The terms of two members of the National Genetic Resources Advisory Council will expire on September 30, 2018. The two slots to be filled are to be composed of one scientific members and one general public member. Appointed members will serve three-year appointments expiring in September 2021.

Citrus Disease Subcommittee: The Citrus Disease Subcommittee was established by the Agricultural Act of 2014 (Sec. 7103) to advise the Secretary of Agriculture on citrus research, extension, and development needs, engage in regular consultation and collaboration with USDA and other organizations involved in citrus, and provide recommendations for research and extension activities related to citrus disease. The Citrus Disease Subcommittee will also advise the Department on the research and extension agenda of the Emergency Citrus Disease Research and Extension Program, a granting program of the National Institute of Food and Agriculture.

The subcommittee is composed of nine members who must be a producer of citrus with representation from the following States: Three members from Arizona or California, five members from Florida, and one member from Texas.

The terms of six Citrus Disease Subcommittee will expire on September 30, 2018. The Citrus Disease Subcommittee is soliciting nominations to fill six vacant positions for membership; three positions are to represent Florida, two positions are to represent California or Arizona, and one position is to represent Texas. Appointed members will serve three years with their terms expiring in September 2021.
like to attend a particular session or participate in a public comment period.

The official transcript of the August 7, 2018 full Committee meeting, when it becomes available, will be kept in the FSIS Docket Room at the above address and will also be posted on https://www.fsis.usda.gov/wps/portal/fsis/topics/data-collection-and-reports/nacmcf/meetings/nacmcf-meetings.

FOR FURTHER INFORMATION CONTACT:
Persons interested in making a presentation, submitting technical papers, or providing comments at the August 7, plenary session should contact Karen Thomas: Phone: (202) 690–6620; Fax (202) 690–6334; Email: Karen.thomas-sharp@fsis.usda.gov or at the mailing address: USDA, FSIS, Office of Public Health Science, 1400 Independence Avenue SW, Washington, DC 20250. Persons requiring a sign language interpreter or other special accommodations should notify Ms. Thomas by July 30, 2018.

SUPPLEMENTARY INFORMATION:
Background
The NACMCF was established in 1988, in response to a recommendation of the National Academy of Sciences for an interagency approach to microbiological criteria for foods, and in response to a recommendation of the U.S. House of Representatives Committee on Appropriations, as expressed in the Rural Development, Agriculture, and Related Agencies Appropriation Bill for fiscal year 1988. The charter for the NACMCF is available for viewing on the FSIS web page at https://www.fsis.usda.gov/wps/portal/fsis/topics/data-collection-and-reports/nacmcf/committee-charter. The NACMCF provides scientific advice and recommendations to the Secretary of Agriculture and the Secretary of Health and Human Services on public health issues relative to the safety and wholesomeness of the U.S. food supply, including development of microbiological criteria and review and evaluation of epidemiological and risk assessment data and methodologies for assessing microbiological hazards in foods. The Committee also provides scientific advice and recommendations to the Centers for Disease Control and Prevention and the Departments of Commerce and Defense. Questions from the Department of Agriculture and Health and Human Services agencies that are sponsors of the Committee are submitted as Charges to the Executive Committee for approval before they are presented to the full Committee during the plenary session.

The Committee is expected to respond to the questions during their two-year term.

Ms. Carmen Rottenberg, Acting Deputy Under Secretary for Food Safety, USDA, is the Committee Chair; Dr. Susan T. Mayne, Director of the Food and Drug Administration’s Center for Food Safety and Applied Nutrition, is the Vice-Chair; and Dr. Mark Carter, FSIS, is the Designated Federal Officer.

Documents Reviewed by NACMCF
FSIS will make all materials reviewed and considered by NACMCF regarding its deliberations available to the public. Generally, these materials will be made available as soon as possible after the full Committee meeting. Further, FSIS intends to make these materials available in electronic format on the FSIS web page (www.fsis.usda.gov), as well as in hard copy format in the FSIS Docket Room.

Disclaimer: NACMCF documents and comments posted on the FSIS website are electronic conversions from a variety of source formats. In some cases, document conversion may result in character translation or formatting errors. The original document is the official, legal copy.

To meet the electronic and information technology accessibility standards in Section 508 of the Rehabilitation Act, NACMCF may add alternate text descriptors for non-text elements (graphs, charts, tables, multimedia, etc.). These modifications only affect the internet copies of the documents.

Copied rights documents will not be posted on the FSIS website, but will be available for inspection in the FSIS Docket Room.

Additional Public Notification
Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication online through the FSIS web page located at: http://www.fsis.usda.gov/federal-register. FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Constituent Update is available on the FSIS web page. Through the web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides...
automatic and customized access to selected food safety news and information. This service is available at: http://www.fsis.usda.gov/subscribe. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

USDA Non-Discrimination Statement

No agency, officer, or employee of the USDA shall, on the grounds of race, color, national origin, religion, sex, gender identity, sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, or political beliefs, exclude from participation in, deny the benefits of, or subject to discrimination, any person in the United States under any program or activity conducted by the USDA.

How To File a Complaint of Discrimination

To file a complaint of discrimination, complete the USDA Program Discrimination Complaint Form, which may be accessed online at: http://www.ocio.usda.gov/sites/default/files/docs/2012/Complain_combined_6_8_12.pdf, or write a letter signed by you or your authorized representative.

Send your completed complaint form or letter to USDA by mail, fax, or email:

Fax: (202) 690–7442.
Email: program.intake@usda.gov.

Persons with disabilities who require alternative means for communication (Braille, large print, audiotape, etc.), should contact USDA’s TARGET Center at (202) 720–2600 (voice and TDD).

Paul Kiecker,
Acting Administrator.

DEPARTMENT OF AGRICULTURE

Forest Service

Malheur National Forest, Prairie City Ranger District; Oregon; Cliff Knox Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Malheur National Forest will prepare an environmental impact statement (EIS) to disclose the environmental effects of proposed vegetation and fuels treatments, wildlife habitat designations, and road activities in the Cliff Knox project area located on the Prairie City and Emigrant Creek Ranger Districts. Proposed actions include timber harvest, small diameter thinning, aspen and mountain mahogany restoration, landscape underburning, road activities to support vegetation and fuels treatments, and road system changes. The intent of the project is to restore forest health, reduce fuels, increase the forest’s resilience to wildfires and other disturbance, and enhance fish and wildlife habitats.

DATES: Comments concerning the proposed action in this notice must be received by August 20, 2018. The draft EIS is expected in December 2018 and the final EIS is expected in June 2019.

ADDRESSES: The preferred method to submit comments is via email to: comments-pacificnorthwest-malheur-prairiecity@fs.fed.us. You may also submit comments via mail to Ed Guzman, District Ranger, Prairie City Ranger District, P.O. Box 337, Prairie City, OR 97869; via facsimile to 541–820–4844; or by hand delivery to the Prairie City Ranger District, 327 SW Front St., Prairie City, Oregon.

FOR FURTHER INFORMATION CONTACT: Kathy Schneider, District NEPA Planner, 327 SW Front St., P.O. Box 337, Prairie City, OR 97869. Phone: 541–820–3821. Email: kschnieder@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service at 1–800–877–8339 between 8 a.m. and 8 p.m., eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The Cliff Knox Project encompasses approximately 40,000 acres across the Bluebucket Creek subwatershed (10,976 acres) and the Cliff Creek-Malheur River subwatershed (29,342 acres), and includes the Malheur River Inventoried Roadless Area and part of the Malheur River Wild and Scenic River corridor. The legal description for the planning area includes Townships 17 and 18 South and Ranges 33, 34, and 35 East, Willamette Meridian, Grant County, Oregon. The full scoping package is available on the Malheur National Forest website: https://www.fs.usda.gov/project/?project=50433.

Purpose and Need for Action

The project’s purpose and need is represented by differences between existing and desired conditions based on forest plan management direction, other forest service policies, and best available science.

The purpose of the Cliff Knox Project is to improve forest health and increase resilience to drought, fire, insects and diseases, and other disturbances by moving the project area toward its historical (natural) range of variability in forest structure, tree density, species composition, and associated wildlife habitat. Additionally, there is an opportunity to contribute to the economic stability of local communities that depend on timber resources for their livelihood and move the forest transportation system toward a more environmentally and fiscally sustainable state.

Specifically, there is a need in the project area to:

(1) Increase forest resilience to insect and disease outbreaks and uncharacteristic wildfires by moving the landscape toward a more historical range of variability in structure, density, and species composition. This includes special consideration for the Malheur River Wild and Scenic River, the Malheur Inventoried Roadless Area, riparian habitat conservation areas, dedicated and replacement old growth stands, aspen and mountain mahogany stands, and connectivity corridors.

(2) Enhance landscape resilience to wildfire by restoring fuel profiles to types primarily conducive to surface fire, with special attention to lands adjacent to strategic roads and areas identified as wildland-urban interface.

(3) Increase public and firefighter safety in the event of a wildfire in the project area.

(4) Restore and promote open stands dominated by large trees and fire-tolerant tree species, which were historically dominant across the project area.

(5) Maintain existing old forest stands and promote old trees (greater than 150 years old) to increase their abundance over the long term.

(6) Restore and promote regeneration of hardwoods, including quaking aspen, mountain mahogany, and riparian hardwoods.

(7) Treat vegetation to improve characteristics of the Malheur River Inventoried Roadless Area as defined by the 2001 Roadless Area Conservation Rule (36 CFR 294.11).

(8) Increase water availability for native vegetation by reestablishing historical openings and grasslands, thinning overstocked stands, and removing encroaching juniper and other conifers where they did not historically occur.

(9) Improve quantity and quality of forage for large ungulates, especially in big-game winter range management areas.
