

Notification to Interested Parties

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the final results and this notice in accordance with sections 751(c), 752(b), and 777(i)(1) of the Act and 19 CFR 351.218.

Dated: July 2, 2018.

Fine Denier Polyester Staple Fiber From the People's Republic of China, India, the Republic of Korea, and Taiwan: Antidumping Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC), Commerce is issuing antidumping duty orders on fine denier polyester staple fiber (fine denier PSF) from the People's Republic of China (China), India, the Republic of Korea (Korea), and Taiwan.

DATES: Applicable July 20, 2018.

Determination, 78 FR 13019, 13025 (February 26, 2013).

SUPPLEMENTARY INFORMATION:**Background**

In accordance with sections 735(a), 735(d), and 777(i)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(c), on May 30, 2018, Commerce published its affirmative final determinations in the less-than-fair-value (LTFV) investigations of fine denier PSF from China, India, Korea and Taiwan.¹ On July 13, 2018, the ITC notified Commerce of its affirmative final determinations that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of LTFV imports of fine denier PSF from China, India, Korea, and Taiwan.²

Scope of the Orders

The product covered by these orders is fine denier PSF from China, India, Korea, and Taiwan. For a complete description of the scope of these orders, see the Appendix to this notice.

Antidumping Duty Orders

In accordance with sections 735(b)(1)(A)(i) and 735(d) of the Act, the ITC notified Commerce of its final determinations in these investigations, in which it found that an industry in the United States is materially injured by reason of imports of fine denier PSF from China, India, Korea, and Taiwan.³ Therefore, in accordance with section 735(c)(2) of the Act, Commerce is issuing these antidumping duty orders. Because the ITC determined that imports of fine denier PSF from China, India, Korea, and Taiwan are materially injuring a U.S. industry, unliquidated entries of such merchandise from China, India, Korea, and Taiwan, entered or withdrawn from warehouse for consumption, are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(a)(1) of the Act, Commerce will direct U.S. Customs and Border Protection (CBP) to assess, upon further

instruction by Commerce, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise, for all relevant entries of fine denier PSF from China, India, Korea, and Taiwan. With the exception of entries occurring after the expiration of the provisional measures period and before publication of the ITC's final affirmative injury determinations, as further described below, antidumping duties will be assessed on unliquidated entries of fine denier PSF from China, India, Korea, and Taiwan entered, or withdrawn from warehouse, for consumption on or after January 5, 2018, the date of publication of the preliminary determinations.⁴ Additionally, because the estimated weighted-average dumping for subject merchandise produced and exported by Tainan Spinning Co., Ltd. was determined to be zero in the investigation of fine denier PSF from Taiwan, and the estimated weighted-average dumping for subject merchandise produced and exported by Toray Chemical Kora Inc. was determined to be zero in the investigation of fine denier PSF from Korea, Commerce is directing CBP to not suspend liquidation of entries of subject merchandise from these exporter/producer combinations for each of the respective orders. Entries of subject merchandise exported to the United States by any other producer and exporter combination are not entitled to this exclusion from suspension of liquidation and are subject to the applicable cash deposit rates noted below.

⁴ See *Fine Denier Polyester Staple Fiber from the People's Republic of China: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures*, 83 FR 665 (January 5, 2018), and accompanying Preliminary Decision Memorandum (China Preliminary Determination); *Fine Denier Polyester Staple Fiber from India: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures*, 83 FR 662 (January 5, 2018), and accompanying Preliminary Decision Memorandum (India Preliminary Determination); *Fine Denier Polyester Staple Fiber from the Republic of Korea: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures*, 83 FR 660 (January 5, 2018), and accompanying Preliminary Decision Memorandum (Korea Preliminary Determination); and *Fine Denier Polyester Staple Fiber from Taiwan: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures*, 83 FR 668 (January 5, 2018), and accompanying Preliminary Decision Memorandum (Taiwan Preliminary Determination).

Continuation of Suspension of Liquidation

Except as noted above and in the “Provisional Measures” section of this notice below, in accordance with section 735(c)(1)(B) of the Act, Commerce will instruct CBP to continue to suspend liquidation on all relevant entries of fine denier PSF from China, India, Korea, and Taiwan. These instructions suspending liquidation will remain in effect until further notice.

Commerce will also instruct CBP to require cash deposits equal to the estimated weighted-average dumping margins, or cash deposits adjusted for subsidy offset, as applicable, indicated in the tables below. Given that the provisional measures period has expired, as explained below, effective on the date of publication in the **Federal Register** of the notice of the ITC’s final affirmative injury determinations, CBP will require, at the same time as importers would normally deposit estimated duties on subject merchandise, a cash deposit equal to the estimated weighted-average dumping margins or cash deposits adjusted for subsidy offset, as applicable, listed in

the tables below.⁵ The relevant all-others rates apply to all producers or exporters not specifically listed. The China-wide entity rate applies to all exporter-producer combinations not specifically listed.

Provisional Measures

Section 733(d) of the Act states that suspension of liquidation pursuant to an affirmative preliminary determination may not remain in effect for more than four months, except where exporters representing a significant proportion of exports of the subject merchandise request that Commerce extend the four-month period to no more than six months. At the request of exporters that account for a significant proportion of fine denier PSF from China, India, Korea, and Taiwan, Commerce extended the four-month period to six months in each of these investigations. Commerce published the preliminary determinations in these investigations on January 5, 2018.⁶ Hence, the extended provisional measures period, beginning on the date of publication of the preliminary determinations, ended on July 3, 2018.

Therefore, in accordance with section 733(d) of the Act and our practice,⁷ Commerce will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of fine denier PSF from China, India, Korea, and Taiwan entered, or withdrawn from warehouse, for consumption after July 3, 2018, the final day on which the provisional measures were in effect, until and through the day preceding the date of publication of the ITC’s final affirmative injury determinations in the **Federal Register**. Suspension of liquidation and the collection of cash deposits will resume on the date of publication of the ITC’s final determinations in the **Federal Register**.

Appendix—Scope of the Orders

The merchandise covered by these orders is fine denier polyester staple fiber (fine denier PSF), not carded or combed, measuring less than 3.3 decitex (3 denier) in

diameter. The scope covers all fine denier PSF, whether coated or uncoated. The following products are excluded from the scope:

(1) PSF equal to or greater than 3.3 decitex (more than 3 denier, inclusive) currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 5503.20.0045 and 5503.20.0065.

(2) Low-melt PSF defined as a bi-component polyester fiber having a polyester fiber component that melts at a lower temperature than the other polyester fiber

component, which is currently classifiable under HTSUS subheading 5503.20.0015.

Fine denier PSF is classifiable under the HTSUS subheading 5503.20.0025. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these orders is dispositive.

Aluminum Extrusions From the People's Republic of China: Initiation and Preliminary Results of Expedited Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is initiating and issuing the preliminary results of a changed circumstances review (CCR) of the antidumping duty (AD) order on aluminum extrusions from the People's Republic of China (China), finding that the cash deposit rate for the 21 exporters/producers who retain a separate rate assigned in the less-than-fair value (LTFV) investigation should be recalculated to reflect the revised countervailing duty (CVD) export subsidy offsets from the amended final CVD determination. We invite interested parties to comment on these preliminary results.

DATES: Applicable July 20, 2018.

FOR FURTHER INFORMATION CONTACT: Mark Flessner or Erin Kearney, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-6312 or (202) 482-0167, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 26, 2011, Commerce published AD and CVD orders on aluminum extrusions from China.¹ On October 23, 2015, the United States Court of International Trade (CIT) sustained Commerce's results of redetermination pursuant to court remand, which recalculated the all-

others subsidy rate in the CVD investigation of aluminum extrusions from China.² On November 10, 2015, Commerce published an amended final CVD determination, with an effective date of November 2, 2015.³

In the CVD investigation, the subsidy rate applied to "all other" companies was 374.15 percent,⁴ and the amount of export subsidies included in the all-others rate was 42.16 percent.⁵ Section 772(c)(1)(C) the Act provides that in determining export price (EP) or constructed export price (CEP), Commerce should adjust its calculations by "the amount of any countervailing duty imposed on the subject merchandise . . . to offset an export subsidy." Therefore, the AD cash deposit rate for companies eligible for a separate rate was calculated as the separate rate dumping margin determined in the LTFV investigation (*i.e.*, 32.79 percent), less the amount of export subsidies included in the all-others CVD rate (*i.e.*, 42.16 percent).⁶ However, as a result of Commerce's amended final CVD determination, the all-others CVD rate was determined to be 7.37 percent,⁷ and the amount of export subsidies included in the all-others rate was determined to be 0.28 percent.⁸

Of the companies that were granted a separate rate in the LTFV investigation, 21 companies have not been subject to an administrative review and, thus, continue to be assigned the separate rate cash deposit rate determined in the LTFV investigation.⁹ These companies are listed below in the "Preliminary

Results of Expedited Changed Circumstances Review" section.

Scope of the Order

The merchandise covered by the Order is aluminum extrusions which are shapes and forms, produced by an extrusion process, made from aluminum alloys having metallic elements corresponding to the alloy series designations published by The Aluminum Association commencing with the numbers 1, 3, and 6 (or proprietary equivalents or other certifying body equivalents). Specifically, the subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 1 contains not less than 99 percent aluminum by weight. The subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 3 contains manganese as the major alloying element, with manganese accounting for not more than 3.0 percent of total materials by weight. The subject merchandise is made from an aluminum alloy with an Aluminum Association series designation commencing with the number 6 contains magnesium and silicon as the major alloying elements, with magnesium accounting for at least 0.1 percent but not more than 2.0 percent of total materials by weight, and silicon accounting for at least 0.1 percent but not more than 3.0 percent of total materials by weight. The subject aluminum extrusions are properly identified by a four-digit alloy series without either a decimal point or leading letter. Illustrative examples from among the approximately 160 registered alloys that may characterize the subject merchandise are as follows: 1350, 3003, and 6060.

Aluminum extrusions are produced and imported in a wide variety of shapes and forms, including, but not limited to, hollow profiles, other solid profiles, pipes, tubes, bars, and rods. Aluminum extrusions that are drawn subsequent to extrusion (drawn aluminum) are also included in the scope.

Aluminum extrusions are produced and imported with a variety of finishes (both coatings and surface treatments), and types of fabrication. The types of coatings and treatments applied to subject aluminum extrusions include, but are not limited to, extrusions that are mill finished (*i.e.*, without any coating or further finishing), brushed, buffed, polished, anodized (including brightdip anodized), liquid painted, or

However, both companies are currently under review in the 2015-2016 administrative review of aluminum extrusions from China, and their dumping margin will be determined in the final results of that review.
