

proceeding or to defense strategy, a privilege team shall be designated by the Judge Advocate General, consisting of individuals not involved in the underlying investigation or judicial proceeding. The monitoring shall be conducted pursuant to procedures designed to minimize the intrusion into privileged material or conversations. Except in cases where the person in charge of the privilege team determines that the acts of terrorism are imminent, the privilege team shall not disclose any information unless and until such disclosure has been approved by a federal or military judge presiding over the legal matter for which attorneys or their agents represent the particular prisoner.

(e) The affected prisoner may seek review of any specific limitation on communications or contacts imposed pursuant to this directive in accordance with AR 190-47, paragraph 10-14. The Commander, ACC will act on any request for review.

The Provost Marshal General is the proponent for this policy and will incorporate the provisions of this directive into AR 190-47 as soon as possible. This directive will be rescinded upon publication of the revised regulation.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 5001-03-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Availability of the Final Environmental Impact Statement for the Northern Integrated Supply Project, Larimer and Weld Counties, Colorado

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers (Corps) Omaha District has prepared a Final Environmental Impact Statement (EIS) to analyze the direct, indirect, and cumulative effects of a water supply project called the Northern Integrated Supply Project (NISP or Project) in Larimer and Weld Counties, CO. The purpose of NISP is to provide the Participants, a group of 15 water providers and communities, with approximately 40,000 acre-feet (AF) per year of new, reliable municipal water supply through a regional project coordinated by the Northern Colorado Water Conservancy District (Northern

Water). NISP would result in direct impacts to jurisdictional waters of the U.S., including wetlands. The placement of fill material into waters of the U.S. requires authorization from the Corps under Section 404 of the Clean Water Act. Northern Water is the applicant for the Section 404 permit, acting on behalf of the Participants. In accordance with Section 176 of the Clean Air Act a Draft General Conformity Determination has been prepared for the Project.

DATES: Written comments on the Final EIS and the Draft General Conformity Determination will be accepted on or before September 4, 2018.

ADDRESSES: Send written comments regarding NISP, the Final EIS, and the Draft General Conformity Determination to John Urbanic, NISP EIS Project Manager, U.S. Army Corps of Engineers, Omaha District, Denver Regulatory Office, 9307 South Wadsworth Boulevard, Littleton, CO 80128, or by email to nisp.eis@usace.army.mil. Requests to be placed on or be removed from the NISP mailing list should also be sent to this address.

FOR FURTHER INFORMATION CONTACT: John Urbanic, NISP EIS Project Manager, telephone 303-979-4120, fax at 303-979-0602, or email at nisp.eis@usace.army.mil.

SUPPLEMENTARY INFORMATION: The Final EIS was prepared in accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Corps' regulations for NEPA implementation (33 Code of Federal Regulations [CFR] Parts 230 and 325, Appendix B). The Corps, Omaha District, Denver Regulatory Office is the lead federal agency responsible for the Final EIS. Information contained in the EIS serves as the basis for a decision regarding issuance of a Section 404 Permit. It also provides information for local and state agencies that have jurisdictional responsibility for affected resources.

The Corps released a Draft EIS for NISP on April 30, 2008 and a Supplemental Draft EIS on June 19, 2015. The Corps has considered the comments received on the Draft and Supplemental Draft EIS in the development of the Final EIS. The purpose of the Final EIS is to provide decision-makers and the public with information pertaining to the Project, disclose environmental impacts of the alternatives, and identify mitigation measures to reduce impacts. In NISP, Northern Water proposes to construct Glade Reservoir with a total storage capacity of approximately 170,000 AF. The Project would also involve

rehabilitating the existing diversion and intake structure in the Cache la Poudre River as well as constructing a new diversion and intake structure, forebay, pumping facility, and outlet channel. Glade Reservoir would inundate approximately 7 miles of U.S. Highway 287 and a section of the Munroe (North Poudre Supply) Canal, requiring a relocation of the highway and the canal. Northern Water also proposes to construct the South Platte Water Conservation Project (SPWCP) which includes Upper Galetton Reservoir with a total storage capacity of approximately 45,624 AF. The SPWCP includes the construction of a new diversion and intake structure in the South Platte River, pumping facilities, and new pipelines for Upper Galetton Reservoir.

This FEIS evaluates the effects of the following alternatives to NISP: Alternative 1—No Action Alternative; Alternative 2M—Glade Reservoir with modified conveyance and the South Platte Water Conservation Project (Applicant's Preferred Alternative); Alternative 2—Glade Reservoir and the South Platte Water Conservation Project; Alternative 3—Cactus Hill Reservoir, Poudre Valley Canal Diversion, and the South Platte Water Conservation Project; and Alternative 4—Cactus Hill Reservoir, with multiple diversion locations, and the South Platte Water Conservation Project.

In accordance with Section 176 of the Clean Air Act and the Environmental Protection Agency's general conformity regulations (40 CFR part 93, subpart B), a Draft General Conformity Determination has been prepared for the Project. Section 176 of the Clean Air Act requires federal agencies to ensure that their actions conform to applicable implementation plans for achieving and maintaining the National Ambient Air Quality Standards for criteria air pollutants. The Corps has prepared a Draft Conformity Determination for the Project and has included it in Chapter 4.14.7 of the Final EIS. The Draft General Conformity Determination finds that all alternatives of the Project conform with the State Implementation Plan.

The U.S. Environmental Protection Agency Region VIII, U.S. Fish and Wildlife Service, Bureau of Land Management, Colorado Department of Transportation, Colorado Department of Natural Resources, Colorado Department of Public Health and Environment, and Larimer County participated as cooperating agencies in the development of the Final EIS.

Copies of the Final EIS will be available for review at:

1. Colorado State University Morgan Library, 1201 Center Avenue, Fort Collins, CO 80521.

2. Poudre River Public Library District—Old Town Library, 201 Peterson Street, Fort Collins, CO 80524.

3. Poudre River Public Library—Harmony Library, 4616 S. Shields Street, Fort Collins, CO 80526.

4. University of Northern Colorado, James A. Michener Library, 14th Avenue and 20th Street, Greeley, CO 80639.

5. Fort Morgan Public Library, 414 Main Street, Fort Morgan, CO 80701.

6. Windsor Recreation Center, 250 11th Street, Windsor, CO 80550.

7. Northern Colorado Water Conservancy District, 220 Water Avenue, Berthoud, CO 80513.

8. U.S. Army Corps of Engineers, Denver Regulatory Office, 9307 S. Wadsworth Boulevard, Littleton, CO 80128.

Electronic copies of the Final EIS and supporting documents may be obtained from the Denver Regulatory Office or its website at: <http://www.nwo.usace.army.mil/Missions/Regulatory-Program/Colorado/EIS-NISP>.

Dated: July 2, 2018.

Kiel Downing,

State Regulatory Program Manager, U.S. Army Corps of Engineers, Omaha District, Denver Regulatory Office.

BILLING CODE 3720-58-P

DEPARTMENT OF DEFENSE

Department of the Army, Army Corps of Engineers

Notice of Availability of the Draft Feasibility Report and Integrated Environmental Impact Statement for the Adams and Denver Counties, Colorado General Investigation Study, Adams and Denver County, Colorado

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice; extension of public comment deadline.

SUMMARY: The comment period for the Notice of Availability of the Draft Feasibility Report and Integrated Environmental Impact Statement for the Adams and Denver Counties, Colorado General Investigation Study, Adams and Denver County, Colorado published in the **Federal Register** on Monday, July 2, 2018, and required comments be postmarked on or before August 16, 2018. The Corps is extending the deadline for submitting public comments to August 28, 2018.

FOR FURTHER INFORMATION CONTACT: Mr. Jeffrey Bohlken, U.S. Army Corps of Engineers at (402) 995-2671 or by email at Jeffrey.C.Bohlken@usace.army.mil.

SUPPLEMENTARY INFORMATION: The Draft EIS can be downloaded from www.nwo.usace.army.mil/Missions/Civil-Works/Planning/Project-Reports/.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3720-58-P

DEPARTMENT OF ENERGY

[EERE-2013-BT-NOC-0005]

Solicitation of Nominations for Membership on the Appliance Standards and Rulemaking Federal Advisory Committee

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Solicitation of nominations for membership.

SUMMARY: To ensure a wide range of candidates and a balanced committee, the U.S. Department of Energy (DOE) announces the solicitation of nominations to fill upcoming vacancies on the Appliance Standards and Rulemaking Federal Advisory Committee (Committee).

DATES: All nomination information should be provided in a single, complete package submitted electronically or postmarked by August 20, 2018.

ADDRESSES: Nominations packages should be submitted either electronically or by mail, but not by both methods. Complete nomination packages identified by docket number “EERE-2013-BT-NOC-0005” may be submitted by any of the following methods:

1. *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

2. *Email:* ASRAC@ee.doe.gov. Include docket number “EERE-2013-BT-NOC-0005” in the subject line of the message.

3. *Postal Mail:* Ms. Naeema Conway, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW, Washington, DC 20585-0121. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies.

4. *Hand Delivery/Courier:* Ms. Naeema Conway, U.S. Department of Energy, Building Technologies Office, 950 L’Enfant Plaza SW, Suite 600,

Washington, DC 20024. Telephone: (202) 287-1445. If possible, please submit all items on a CD, in which case it is not necessary to include printed copies. No telefacsimiles (faxes) will be accepted.

It is recommended that nominations be submitted in electronic format via email to ASRAC@ee.doe.gov. Submissions submitted by mail are welcome, but may be delayed in delivery due to the DOE mail vetting procedures in place. For submission by mail, please send to Ms. Naeema Conway, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW, Washington, DC 20585-0121. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies.

FOR FURTHER INFORMATION CONTACT: John Cymbalsky by telephone at (202) 287-1692 or by email at asrac@ee.doe.gov.

SUPPLEMENTARY INFORMATION: The Committee will provide advice and recommendations to the Secretary of Energy on the DOE’s Appliance and Equipment Standards Program’s test procedures and rulemaking determinations. The Committee’s scope is to review and make recommendations on the: (1) Development of minimum efficiency standards for residential appliances and commercial equipment, (2) development of product test procedures, (3) certification and enforcement of standards, (4) labeling for various residential products and commercial equipment, and (5) specific issues of concern to DOE as requested by the Secretary of Energy, the Assistant Secretary for Energy Efficiency and Renewable Energy, and the Buildings Technologies Office’s Director.

To facilitate the functioning of the Committee, working groups (*i.e.*, subcommittees) may be formed with the approval of the Department of Energy. The objectives of the working groups are to make recommendations to the Committee with respect to particular matters related to the responsibilities of the parent committee. Such working groups may not work independently of the Committee and must report their recommendations and advice to the Committee for full deliberation and discussion. Working group members are appointed with DOE approval.

DOE is hereby soliciting nominations for members of the Appliance Standards and Rulemaking Federal Advisory Committee. The Committee is expected to be continuing in nature. Members will be selected with a view toward achieving a balanced committee of experts in fields relevant to energy
