**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Census Bureau proposes an extension of the Age Search Service Program. The Age Search is a service provided by the U.S. Census Bureau for persons who need official transcripts of personal data as proof of age for pensions, retirement plans, Medicare, and Social Security. The transcripts are also used as proof of citizenship to obtain passports or to provide evidence of family relationship for rights of inheritance. The Age Search forms are used by the public in order to provide the Census Bureau with the necessary information to conduct a search of historical population decennial census records in order to provide the requested transcript. The Age Search service is self-supporting and is funded by the fees collected from the individuals requesting the service.

**II. Method of Collection**

The Form BC-600, *Application for Search of Census Records*, is a paper public-use form that is submitted by applicants requesting information from the decennial census records. This application form is available online in PDF format for individuals to download and complete. Applicants must enclose the appropriate fee by check or money order with the completed and signed Form BC-600 or BC-600(SP) and return by mail to the U.S. Census Bureau, Post Office Box 1545, Jeffersonville, Indiana 47131.

The Form BC-649(L), which is called a *Not Found Letter*, advises the applicant that the search for information

from the census records was unsuccessful. The BC-658(L) is sent to the applicant when insufficient information has been received on which to base a search of the census records. These two forms request additional information from the applicant to aid in the search of census records.

<sup>1</sup> The respondent burden was incorrectly estimated at 72 hours in the previously published 60-day **Federal Register** notice. This mistake is corrected in the 30-day FRN. The 72 hours was

estimated over each year of clearance. However, since respondent will incur burden only in 2019 and 2020, the Census Bureau re-estimates the respondent burden over these two years. The

respondent burden hour is now 217 hours, which is obtained by dividing the total estimated hour burden with the number of respondents (11,284/52).
