

conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Distribution of Characteristics of the Insured Unemployed is a monthly snapshot of the demographic composition of the claimant population in the Unemployment Insurance (UI) system. It is based on those who file a claim in the week containing the 19th day of the month, which reflects unemployment during the week containing the 12th day of the month. This corresponds with the sample frame used by the Bureau of Labor Statistics for the production of labor force statistics they produce. This report serves a variety of socio-economic needs because it provides aggregate data reflecting UI claimants' sex, race/ethnic group, age, industry, and occupation. The Social Security Act, Section 303(a)(6), authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205-0009.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive

statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility,
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used,
- enhance the quality, utility, and clarity of the information to be collected, and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

I. Notice of the Applications for Expansion

The Occupational Safety and Health Administration is providing notice that TUV Rheinland of North America, Inc. (TUVRNA), is applying for expansion of its current recognition as an NRTL. TUVRNA requests the addition of four (4) recognized testing and certification sites, and two (2) additional test standards to its NRTL scope of recognition.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in 29 CFR

1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including TUVRNA, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

TUVRNA currently has five facilities (sites) recognized by OSHA for product testing and certification, with its headquarters located at: TUV Rheinland of North America, Inc., 12 Commerce Road, Newtown, Connecticut 06470. A complete list of TUVRNA sites recognized by OSHA is available at <https://www.osha.gov/dts/otpca/nrtl/tuv.html>.

II. General Background on the Applications

TUVRNA submitted two applications, one dated March 30, 2016 (OSHA-2007-0042-0030) and another dated April 19, 2017 (OSHA-2007-0042-0031), to expand its recognition to include the addition of four recognized testing and certification sites located at: TUV Rheinland (Shenzhen) Co., Ltd. 1f East & 2-4F, Cybio Technology Building No. 1, No. 16, Keibei 2nd Road, High-Tech Industrial Park North, Nanshan District, 518057 Shenzhen China; TUV Rheinland (Shanghai) Co., Ltd, TUV Rheinland Building No. 177, Lane 777, West Guangzhong Road, Zhabei District, Shanghai 200072, P.R. China; TUV Rheinland Taiwan Ltd., 11F., No 758, Sec. 4, Bade Rd., Songshan Dist., Taipei City 105, Taiwan; and TUV Rheinland Taiwan Ltd., Taichung Branch Office, No. 9, Lane 36, Minsheng Rod., Sec. 3, Daya District, Taichung City 428, Taiwan. TUVRNA's applications also requested the addition of two additional test standards to its scope of recognition. In 2017 OSHA staff performed an on-site review of TUVRNA's testing facilities on August 7-8 at TUV Rheinland Shanghai, August 10-11 at TUV Rheinland Shenzhen, August 14-15 at TUV Rheinland Taipei, and August 16, 2017 at TUV Rheinland Taichung, in which the assessors found some nonconformances with the requirements of 29 CFR 1910.7. TUVRNA addressed these issues sufficiently, and OSHA staff preliminarily determined that OSHA should grant the applications for expansion.

Table 1 below lists the appropriate test standards found in TUVRNA's applications for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN TUVRNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
NFPA 496	Purged and Pressurized Enclosures for Electrical Equipment.
UL 698A	Industrial and Classification of Mercantile and Bank Burglar-Alarm Systems.

III. Preliminary Finding on the Applications

TUVRNA submitted acceptable applications for expansion of its scope of recognition. OSHA's review of the application files and detailed on-site assessments indicate that TUVRNA can meet the requirements prescribed by 29

CFR 1910.7 for expanding recognition to include the addition of four sites and these two test standards for NRTL testing and certification. This preliminary finding does not constitute an interim or temporary approval of TUVRNA's applications.

OSHA welcomes public comment as to whether TUVRNA meets the

requirements of 29 CFR 1910.7 for expansion of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10

days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, listed in **ADDRESSES**. These materials also are available online at <https://www.regulations.gov> under Docket No. OSHA-2007-0042.

OSHA staff will review all comments to the docket submitted in a timely manner. After addressing the issues raised by these comments, staff will make a recommendation to the Assistant Secretary for Occupational Safety and Health on whether to grant TUVRNA's applications for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the applications. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.

Authority and Signature

Loren Sweatt, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on July 24, 2018.
