include any rural electric cooperative which is regulated by the Rural Utilities Service of the Department of Agriculture or any other entities covered in section 201(f) of the Federal Power Act.

(c) Purchaser means any individual or corporation within the meaning of section 3 of the Federal Power Act who purchases electric energy from a public utility. Such term does not include the United States or any agency or instrumentality of the United States or any rural electric cooperative which is regulated by the Rural Utilities Service of the Department of Agriculture.

(e) Entity means any firm, company, or organization including any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. Such term does not include municipality as defined in section 3 of the Federal Power Act and does not include any Federal, State, or local government agencies or any rural electric cooperative which is regulated by the Rural Utilities Service of the Department of Agriculture.

SUMMARY: EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for 145 chemical substances which were the subject of premanufacture notices (PMNs). The chemical substances are subject to Orders issued by EPA pursuant to section 5(e) of TSCA. This action would require persons who intend to manufacture (defined by statute to include import) or process any of these 145 chemical substances for an activity that is designated as a significant new use by this rule to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA’s evaluation of the intended use within the applicable review period. Persons may not commence manufacture or processing for the significant new use until EPA has conducted a review of the premanufacture notice, made an appropriate determination on the notification, and has taken such actions as are required with that determination. In addition to this notice of proposed rulemaking, EPA is issuing the action as a direct final rule elsewhere in this issue of the Federal Register.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Permit Renewal Applications

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes to make administrative revisions to the renewal process for Federal vessel permits, licenses, and endorsements, and dealer permits (hereafter referred to collectively as permits) in the NMFS Southeast Region. This proposed rule would remove the regulatory requirement that NMFS must mail a renewal application to a permit holder (vessel or dealer) whose Federal permit is expiring. NMFS will continue to provide notice of the upcoming expiration date to the permit holder. This proposed rule would also remove the regulatory requirement that NMFS must notify an applicant of any deficiency in a renewal application only through sending a letter via traditional mail, such as through the U.S. Postal Service, which would allow NMFS expanded options for notifying permit holders. The purpose of this proposed rule is to reduce the administrative costs and burden to NMFS of renewing Federal permits, while still maintaining the needed information and services to the public.
