BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-457]

Application to Export Electric Energy; ADG Group Inc.

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: ADG Group Inc. (ADG or Applicant) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before September 4, 2018.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On July 17, 2018, DOE received an application from ADG for authorization to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities.

In its application, ADG states that it does not own, operate, or control any electric power generation, transmission, or distribution facilities, and that it has no franchised electric power service area. The electric energy that the Applicant proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and other suppliers within the United States pursuant to voluntary agreements. The existing international

transmission facilities to be utilized by the Applicant have previously been authorized by Presidential Permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five (5) copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning ADG's application to export electric energy to Canada should be clearly marked with OE Docket No. EA-457. An additional copy is to be provided to both Xue Chao (David) Cai, ADG Group Inc., 77 King Street West, Suite 400, Toronto, Ontario, Canada M5K 0A1, and Peter P. Thieman, Dentons US LLP, 1900 K Street NW, Washington, DC 20006.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program website at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Signed in Washington, DC, on July 24, 2018.

Christopher Lawrence,

Electricity Policy Analyst, Office of Electricity.

DEPARTMENT OF ENERGY

Notice of Request for Information (RFI) on H2@Scale (Hydrogen at Scale): Determining Opportunities To Facilitate Wide-Scale Hydrogen Adoption for Energy Security and Economic Growth

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Request for information (RFI).

SUMMARY: The U.S. Department of Energy (DOE) invites public comment on its Request for Information (RFI) on H2@Scale (Hydrogen at Scale): Determining Opportunities to Facilitate Wide-Scale Hydrogen Adoption for Energy Security and Economic Growth. The Office of Energy Efficiency and Renewable Energy (EERE) is specifically interested in information to quantify the increasing industrial demand for hydrogen, to identify and quantify the available domestic resources capable of generating sufficient hydrogen to sustainably meet the demand in the near- to long-terms across multiple sectors, and to identify opportunities to leverage current industrial infrastructure to better meet the growing demands for hydrogen across sectors.

DATES: Responses to the RFI must be received no later than 5:00 p.m. (ET) on October 31, 2018.

ADDRESSES: Interested parties are invited to submit comments using the Online Response Collector found at the specified web link included in the RFI document. Alternatively, responses can be submitted as an attachment to an email addressed to fy18fctostrandedresources@ee.doe.gov with "H2@Scale RFI" in the subject line. Email attachments can be provided as a Microsoft Word (.docx) file or an Adobe PDF (.pdf) file, prepared in accordance with the detailed instructions in the RFI. Documents submitted electronically should clearly indicate which topic areas and specific questions are being addressed, and should be limited to no more than 10MB in size. The complete RFI [DE-FOA-0001965] document is located at <https://eere-exchange.energy.gov/>.

FOR FURTHER INFORMATION CONTACT:

Questions may be addressed to fy18fctostrandedresources@ee.doe.gov or to Eric Miller at (202) 287-5829. Further instruction can be found in the RFI document posted on EERE Exchange at <https://eere-exchange.energy.gov/>.

SUPPLEMENTARY INFORMATION: The H2@Scale initiative aims to develop and

enable transformational technologies that can sustainably produce and efficiently utilize large quantities of affordable hydrogen to collectively enable energy storage, energy security, grid resiliency, domestic employment, and American dominance in energy innovation. The purpose of this RFI is to solicit feedback from industry, academia, research laboratories, government agencies, and other stakeholders on opportunities and strategies for expanding and diversifying current hydrogen supply options, and for leveraging and multi-purposing current industrial infrastructure to accommodate widespread hydrogen usage. The RFI seeks input in five topic areas: Hydrogen supply expansion and diversification; expansion of markets requiring significant hydrogen demand; leveraging and/or multi-purposing industries and infrastructure to facilitate widespread adoption of hydrogen; potential sponsored competitions to incentivize widespread adoption of hydrogen across multiple sectors; and other innovative approaches to help enable H2@Scale.

Confidential Business Information: Because information received in response to this RFI may be used to structure future programs, funding and/or otherwise be made available to the public, respondents are strongly advised to not include any information in their responses that might be considered business sensitive, proprietary, or otherwise confidential. If, however, a respondent chooses to submit business sensitive, proprietary, or otherwise confidential information, it must be clearly and conspicuously marked as such in the response as detailed in the RFI [DE-FOIA-0001965] at: <https://eere-exchange.energy.gov/>.

Issued in Washington, DC, on July 23, 2018.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1162]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before September 4, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas.A.Fraser@omb.eop.gov; and to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the webpage <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the webpage called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box,
