The Commission is not requesting that individuals who file complaints alleging violations of our rules (complainants) submit confidential information (e.g., credit card numbers, social security numbers, or personal financial information) to us. We request that complainants submit their names, addresses, and other contact information, which enables us to process complaints. Any use of this information is covered under the routine uses listed in the Commission’s SORN, FCC/CGB–1, “Informal Complaints, Inquiries, and Requests for Dispute Assistance.” The PIA that the FCC completed on June 28, 2007 gives a full and complete explanation of how the FCC collects, stores, maintains, safeguards, and destroys PII, as required by OMB regulations and the Privacy Act, 5 U.S.C. 552a. The Commission will update the PIA to cover the PII collected related to this information collection to incorporate various revisions to it as a result of revisions to the SORN and as required by OMB’s Memorandum M–03–22 (September 26, 2003) and by the Privacy Act, 5 U.S.C. 552a.

Needs and Uses: The Commission is submitting this revised information collection to transfer certain information collection burdens associated with this OMB control number to another OMB control number. This change is being made to reflect the development of an online filing complaint system for consumers in filing complaints with the Commission that allege violations of the FCC’s disability accessibility requirements. The online form is part of an information collection reflected in OMB control number 3060–0874. The Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA) directed the Commission to revise its regulations to mandate closed captioning on IP-delivered video programming that was published or exhibited on television with captions after the effective date of the regulations. Accordingly, the Commission requires video programming owners (VPOs) to send program files to video programming distributors and providers (hereinafter VPDs) with required captions, and it requires VPDs to enable the rendering or pass through of all required captions to the end user. The CVAA also directed the Commission to revise its regulations to mandate that all apparatus designed to receive, play back, or record video programming be equipped with built-in closed caption decoder circuitry or capability designed to display closed-captioned video programming, except that apparatus that use a picture screen that is 13 inches or smaller and recording devices must comply only if doing so is achievable. These rules are codified at 47 CFR 79.4 and 79.100–79.104.
