provide for a well-founded, clear, transparent, and enforceable legal basis for each aspect of its activities in all relevant jurisdictions. The Commission has stated that, in establishing and maintaining policies and procedures to address legal risk, a covered clearing agency generally should consider whether its rules, policies and procedures, and contracts are clear, understandable, and consistent with relevant laws and regulations.

The Commission believes that the proposed consolidation and reorganization of OCC’s Rules described above would improve readability by locating all rules related to the clearing fund in one place, thereby enhancing the clarity, transparency, consistency, and understandability of OCC’s Rules related to the clearing fund. Additionally, by amending the Rules to accurately reflect OCC’s current margin practices, the Commission believes OCC’s Rules will be more transparent and understandable.

Accordingly, the Commission finds that the proposed textual reorganization and clarifications are consistent with Rule 17Ad–22(e)(1).

V. Conclusion

On the basis of the foregoing, the Commission finds that the Proposed Rule Change is consistent with the requirements of the Act, and in particular, the requirements of Section 17A of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the Proposed Rule Change (SR–OCC–2018–008), as modified by Amendments No. 1 and 2, be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.

Robert W. Errett,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of Partial Amendments No. 1 and 2 to Proposed Rule Change Concerning Updates to and Formalization of OCC’s Recovery and Orderly Wind-Down Plan

Pursuant to Section 19(b)(1) of the Act and Rule 19b–4 thereunder the Commission is publishing notice of these Partial Amendments No. 1 and 2 to the Proposed Rule Change as described in Items I and II below, which items have been prepared by OCC. The Commission is publishing this notice to solicit comments on the Proposed Rule Change, as modified by Amendments No. 1 and 2, from interested persons.

I. Clearing Agency’s Statement of the Terms of Substance of Partial Amendments to the Proposed Rule Change

This Partial Amendment No. 2 would make the following three amendments to the Initial Filing: (1) Removal of sections of the RWD Plan concerning OCC’s proposed authority to require cash settlement of certain physically delivered options and single stock futures; (2) updating the list of OCC’s Critical Support Functions; and (3) making three changes to Chapter 5 of the RWD Plan in order to conform to a change contemporaneously proposed in Amendment No. 2 to OCC proposed rule change SR–OCC–2017–020 concerning enhanced and new tools for recovery scenarios.

With regard to the removal of sections of the RWD Plan concerning OCC’s proposed authority to require cash settlement of certain physically delivered options and single stock futures, OCC proposes to amend the following text on pages 16 and 55–56 of the Initial Filing (new text is underlined and proposed deletions are marked in strikethrough text).
Proposed Chapter 5 would explain that OCC’s Enhanced Risk Management Tools are designed to supplement OCC’s existing processes and other existing tools in scenarios where OCC faces heightened stresses. Contrary to the Recovery Tools (which are described in greater detail below), the use of OCC’s Enhanced Risk Management Tools would not be intended to be limited strictly to situations in which a Recovery Trigger Event has occurred. Rather, OCCs Enhanced Risk Management Tools have been designed such that they could be used prior to the occurrence of a Recovery Trigger Event (and preferably, the Enhanced Risk Management Tools would be used prophylactically in an effort to prevent the occurrence of a Recovery Trigger Event). As proposed, OCC would not anticipate there being a rigid order or timing for the deployment of its Enhanced Risk Management Tools, subject to one caveat—“Cash Settlement of Physically Delivered Options and Single Stock Futures” would only be deployed in very narrow circumstances where a correspondent clearing organization has rejected the settlement obligations of an OCC Clearing Member and OCC does not believe it has sufficient liquid resources immediately available to facilitate settlement through a substitute broker.

OCC also proposes to amend the following text on pages 22–23 and 61–63 of the Initial Filing (including associated footnotes).
Cash Settlement of Physically Delivered Options and Single Stock Futures. OCC is in the process of proposing a new Rule 913, which would provide OCC the ability to require cash settlement of otherwise physically settled delivery obligations arising from exercised or assigned stock options and/or physically settled matured stock futures in the event that a correspondent clearing corporation rejects the settlement obligations for such stock options and/or stock futures (such rejected stock options and/or stock futures hereinafter, “Rejected Cleared Securities”) and either of the two following necessary conditions exists: (i) the liquidity demand on OCC to fund an alternative form of settlement for such Rejected Cleared Securities (i.e., settlement through the use of a “substitute broker”) would exceed the amount of liquid resources immediately available to OCC, or (ii) no agent is available to serve as substitute broker to facilitate alternative settlement for OCC. In these extremely limited circumstances, fixing cash settlement amounts pursuant to proposed Rule 913 would provide OCC with the ability to substantially reduce the liquidity demands that it might otherwise face if required to fund an alternative form of settlement to effect physical delivery. The Recovery Plan would include cash settlement of otherwise physically delivered options and single stock futures pursuant to proposed Rule 913 among OCC’s Enhanced Risk Management Tools.

The Recovery Plan would acknowledge that, assuming one of the two necessary conditions exists, the process for initiating cash settlement would be driven by the preparation of a “Close Out Action Plan,” which would recommend impacted options and single stock futures be cash settled in lieu of physical delivery. The Recovery Plan would also acknowledge that execution of cash settlement would occur in accordance with OCC’s “Alternative Cash Settlement of Cleared Contracts Procedure.” The Recovery Plan recognizes that a key risk of this particular tool would be the potentially detrimental impacts on Clearing Members and their customers, who would receive a cash settlement amount when they had anticipated receiving physical securities.

OCC plans to resubmit the proposed cash settlement tool previously filed in SR–OCC–2017–018 and SR–OCC–2017–807 on a separate timeline from the rest of its enhanced and new tools for recovery scenarios and would submit a subsequent filing to the Commission to amend the RWD Plan at that time. In addition, OCC proposes to make the following amendments on pages 32 and 72 of the Initial Filing.

- **Tools to address liquidity shortfalls:** minimum Clearing Fund cash contribution, borrowing against Clearing Fund, OCC’s credit facility, and OCC’s non-bank facility and cash settlement of physically delivered options and single stock futures.

With regard to updating the list of OCC’s Critical Support Functions, the amendment would revise OCC’s RWD Plan to consistently identify one of OCC’s internal functions as a Critical Support Function. Finally, OCC proposes to make two changes to Chapter 5 of the RWD Plan, which would align an exhibit, a related list and a related paragraph with the certain changes OCC is contemparaneously proposing in Amendment No. 2 to proposed rule change SR–OCC–2017–020 concerning enhanced and new tools for recovery scenarios. Specifically, OCC would change the aforementioned exhibit, list and paragraph in Chapter 5 to recognize that while OCC does not intend, in the first instance for its tear-up process to serve as a means of loss allocation, circumstances may arise such that, despite best efforts, OCC has inadequate remaining financial resources to extinguish torn-up positions at their assigned Tear-Up Price without forcing a reduction in the amount of unpaid value of such positions (e.g., despite best efforts, market movements not accounted for by monitoring, additional Clearing Member defaults occur immediately preceding a tear-up). In such circumstances, despite best efforts,
OCC would use its partial tear-up process as a means of loss allocation.

OCC has included an updated Exhibit 5 containing its RWD Plan as well as an Exhibit 4 showing the changes proposed in this Partial Amendment No. 2 to the proposed rule text in the Initial Filing, with the proposed changes in the Initial Filing marked in underlined and strikethrough text. Exhibits 4 and 5 have been redacted and filed separately with the Commission and confidential representations in the Initial Filing remain as stated therein and no other changes are being made.

II. Date of Effectiveness of Proposed Rule Change and Timing for Commission Action

As the Commission stated in Securities Exchange Act Release No. 83485, the Commission shall by order approve or disapprove the proposed rule change by August 23, 2018.13

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Nasdaq GEMX, LLC: Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Codify the Protocol Definitions That Members Use To Enter Quotes and Orders

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),1 and Rule 19b–4 thereunder,2 notice is hereby given that on July 16, 2018, Nasdaq GEMX, LLC (“GEMX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to codify the definitions of the protocols that Members can use to enter quotes and orders on the Exchange.

The text of the proposed rule change is available on the Exchange’s website at http://nasdaqgemx.cchwallstreet.com/, at the principal office of the Exchange,3 and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to codify the definitions of the protocols that Members use to enter quotes and orders on the Exchange, specifically, the Specialized Quote Feed (“SQF”), Ouch to Trade Options (“OTTO”), Financial Information eXchange (“FIX”), and Nasdaq Precise (“Precise”). On April 27, 2017, the Exchange filed a proposed rule change that established the ports that Members use to connect to the Exchange, including ports used for quote and order entry—i.e., SQF, OTTO and FIX.3 The Exchange has also filed proposed rule changes that briefly describe the availability of Precise, which is the Exchange’s proprietary front-end interface used by Electronic Access Members (“EAMs”) and their Sponsored Customers4 to send orders to the
