

modification of the mine closure approach (including the management of pit water through treatment to meet applicable water quality standards and subsequently put to beneficial use in perpetuity); and realignment of Buffalo Valley Road, as well as realignment of a service power line, fiber optic line, and natural gas pipeline.

Under the proposed Project, four existing FLPMA right-of-way grants (associated with project-related linear facilities) would be amended.

The EIS's analysis is focused on impacts to the following resource areas that were identified through the NEPA scoping process: Water resources (including surface water, groundwater, and geochemistry); air quality; vegetation resources (including noxious weeds and special status species); wildlife (including migratory birds and special status species); grazing management; land use and access; aesthetics (visual); cultural resources; Native American cultural concerns; geological resources (including minerals and soils); paleontological resources; recreation; social and economic values; hazardous materials; wetland and riparian zones.

The EIS describes and analyzes the proposed Project's direct, indirect, and cumulative impacts on all affected resources. In addition to the proposed Project, three alternatives were analyzed: the Enhanced/Mechanical Evaporation Cell Alternative, Treat Water for Agricultural Cropping on Private Land Alternative, and the No Action Alternative.

The Draft EIS, was available for a 45-day public comment period, which ended October 16, 2017. A public meeting was held on September 26, 2017 in Battle Mountain, NV. A total of 178 comments were received during the public comment process. Comment responses are in the Final EIS.

The BLM has utilized and coordinated the NEPA scoping and comment process to help fulfill the public involvement requirements under the National Historic Preservation Act (NHPA) (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3)—and continues to do so. The information about historic and cultural resources within the area potentially affected by the proposed Project has assisted the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and the NHPA.

The BLM has consulted and continues to consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts to Indian trust assets

and potential impacts to cultural resources have been analyzed and addressed in the EIS.
