agency, or Tribe that is interested in serving as a cooperating agency for the development of the MDP/EIS is asked to submit such requests to the BLM by September 6, 2018.

ADDITIONAL INFORMATION:

In the May 10, 2018 ConocoPhillips letter, the BLM will consult with federally recognized Tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns will be given appropriate consideration.

Federal, state, local agencies, and Tribes that may be interested in or substantially affected by the proposal that the BLM is evaluating are invited to request participation in the development of the MDP/EIS as cooperating agencies. Appropriate cooperating agencies are those with jurisdiction by law and/or those that can offer special expertise in the development of the MDP/EIS.

AUTHORITY:

40 CFR 1501.7.

Karen E. Mouritsen,
Acting State Director, Alaska.

SUPPLEMENTARY INFORMATION:

I. Abstract

A federal grant is an award of
financial assistance from a federal agency to a recipient to carry out a
public purpose of support or
stimulation authorized by a law of the
United States. The NASA Procurement
Office supports NASA research, science,
and education communities through the
award of research/education/and
training grants in the science,
technology, engineering, and math
(STEM) fields. NASA has a continuing
commitment to identify and address
inequities associated with its grant
review and awards processes. To
support that commitment, NASA
implemented a process to collect
demographic data from grant applicants
for the purpose of analyzing
demographic differences associated
with its award processes. Information
collected includes the name, gender,
race, ethnicity, disability status,
citizenship status, education, and career
data of the respondents.

Submission of the information is
voluntary and is not a precondition of
award. However, if the information is
not submitted, it will undermine the
usefulness of information received from
other respondents.

II. Methods of Collection

Electronic.

III. Data

Title: Research and Related Personal
Data.

OMB Number: 2700–0161.

Type of Review: Existing information
collection.

Affected Public: Not-For-Profit
Institutions.

Estimated Number of Respondents: 5,000.

Estimated Time per Response: 5
minutes.

Estimated Total Annual Public
Burden Hours: 416.7.

Estimated Total Annual Government
Cost: $37,500.

IV. Request for Comments

Comments are invited on: (1) Whether
the proposed collection of information
is necessary for the proper performance
of the functions of NASA, including
whether the information collected has
practical utility; (2) the accuracy of
NASA’s estimate of the burden
(including costs and cost) of the
proposed collection of information; (3)
ways to enhance the quality, utility, and
clarity of the information to be
collected; and (4) ways to minimize the
burden of the collection of information
on respondents, including automated
collection techniques or the use of other
forms of information technology.

Comments submitted in response to
this notice will be summarized and
included in the request for OMB
approval of this information collection.

They will also become a matter of
public record.

Gatrie Johnson,
NASA PRA Clearance Officer.
