The Board is adopting revisions to the FR Y-11, FR 2314, and FR Y-7N report forms and instructions that are consistent with certain recent changes to the FR Y-9 family of reports (OMB No. 7100-0128)<sup>1</sup> and the Federal Financial Institutions Examination Council (FFIEC) Consolidated Reports of Condition and Income (Call Reports) (FFIEC 031, 041, and 051; OMB No. 7100-0036).<sup>2</sup> Specifically, the changes (1) add a new data item to the balance sheet to separate and reclassify equity securities with readily determinable fair values not held for trading from the “available for sale” category in accordance with Financial Accounting Standards Board’s (FASB) Accounting Standards Update (ASU) No. 2016-01, “Recognition and Measurement of Financial Assets and Financial Liabilities;” and (2) add new data items to the income statement to reflect the proper reporting of income associated with these securities. These revisions are effective for reports reflecting the June 30, 2018, report date. The comment period for this notice expired on July 2, 2018, and the Board did not receive any comments.

**FOR FURTHER INFORMATION CONTACT:** Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202) 452-3829. Telecommunications Device for the Deaf (TDD) users may contact (202) 263-4869, Board of Governors of the Federal Reserve System, Washington, DC 20551.

**SUPPLEMENTARY INFORMATION:** On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act submission, supporting statements and approved collection of information instrument(s) are placed into OMB’s public docket files. The Board may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

### Final Approval Under OMB Delegated Authority of the Extension for Three Years, Without Revision, of the Following Report

*Report title:* Senior Financial Officer Survey.

*Agency form number:* FR 2023.

*OMB control number:* 7100-0223.

*Frequency:* Up to four times a year.

*Respondents:* Domestically chartered large commercial banks.

*Estimated number of respondents:* 80.

*Estimated average hours per response:* 3 hours.

*Estimated annual burden hours:* 960 hours.

*General description of report:* The Board uses the surveys in this collection to gather qualitative and limited quantitative information about liability management, the provision of financial services, and the functioning of key financial markets. Responses are obtained from a senior officer at each participating institution usually through an electronic submission. Although a survey may not be collected in a given year, the Board may conduct up to four surveys per year when informational needs arise and cannot be met from existing data sources. The survey does not have a fixed set of questions; each survey consists of a limited number of questions directed at topics of timely interest.

*Legal authorization and confidentiality:* The FR 2023 is a

voluntary survey. Section 2A of the Federal Reserve Act (FRA) requires that the Board and the Federal Open Market Committee (FOMC) maintain long-run growth of the monetary and credit aggregates commensurate with the economy’s long run potential to increase production, so as to promote effectively the goals of maximum employment, stable prices, and moderate long-term interest rates (12 U.S.C. 225a). In addition, under section 12A of the FRA, the FOMC is required to implement regulations relating to the open market operations conducted by Federal Reserve Banks. Those transactions must be governed with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country (12 U.S.C. 263). The Board and the FOMC use the information obtained from the FR 2023 to help fulfill these obligations.

The questions asked on each survey will vary, so the ability of the Board to maintain the confidentiality of information collected must be determined on a case by case basis. It is likely that much of the information collected would constitute confidential financial information obtained from a person and would thus be protected from disclosure under exemption 4 to the Freedom of Information Act (FOIA) (5 U.S.C. 552(b)(4)). Exemption 8 of the FOIA, which protects information related to examination, operating, or condition reports prepared for the use of an agency supervising financial institutions, may also occasionally apply (5 U.S.C. 552(b)(8)).

*Current actions:* On May 15, 2018, the Board published a notice in the **Federal Register** (83 FR 22488) requesting public comment for 60 days on the extension, without revision, of the Board’s clearance for the Senior Financial Officer Survey. The comment period for this notice expired on July 16, 2018. The Board did not receive any comments.

FR Y-14 Attestation On-going Audit and Review, 2,560 hours.

**General description of report:** These collections of information are applicable to top-tier BHCs with total consolidated assets of \$100 billion or more and U.S. IHCs. This family of information collections is composed of the following three reports:

- The FR Y-14A collects quantitative projections of balance sheet, income, losses, and capital across a range of macroeconomic scenarios and qualitative information on methodologies used to develop internal projections of capital across scenarios either annually or semi-annually.

- The quarterly FR Y-14Q collects granular data on various asset classes, including loans, securities, and trading assets, and PPNR for the reporting period.

- The monthly FR Y-14M is comprised of three retail portfolio- and loan-level schedules, and one detailed address-matching schedule to supplement two of the portfolio and loan-level schedules.

The data collected through the FR Y-14A/Q/M reports provide the Board with the information and perspective needed to help ensure that large firms have strong, firm-wide risk measurement and management processes supporting their internal assessments of capital adequacy and that their capital resources are sufficient given their business focus, activities, and resulting risk exposures. The annual Comprehensive Capital Analysis and Review (CCAR) exercise complements other Board supervisory efforts aimed at enhancing the continued viability of large firms, including continuous monitoring of firms' planning and management of liquidity and funding resources, as well as regular assessments of credit, market and operational risks, and associated risk management practices. Information gathered in this data collection is also used in the supervision and regulation of these financial institutions. To fully evaluate the data submissions, the Board may conduct follow-up discussions with, or request responses to follow up questions from, respondents. Respondent firms are currently required to complete and

submit up to 18 filings each year: two semi-annual FR Y-14A filings, four quarterly FR Y-14Q filings, and 12 monthly FR Y-14M filings. Compliance with the information collection is mandatory.

**Proposed revisions:** In December 2017, the Board approved modifications to the FR Y-14 series of reports and a notice was published in the **Federal Register** (December 15, 2017; 82 FR 59608). The proposal modified the FR Y-14Q, Schedule L (Counterparty) effective as of the March 31, 2018, report date. These changes included simplifying the ranking methodology required for reporting positions and combining the previously separate collections of counterparties as ranked by derivatives and securities financing transactions (SFTs), respectively. Following the finalization and adoption of these proposed changes, the Board became aware of unintended omissions from the report forms and instructions for the FR Y-14Q. The omitted items required respondents to report their total stressed net current exposure under the two supervisory stressed scenarios.

To rectify the unintended changes, the Board is proposing to revise sub-schedule L.5 (Derivatives and SFT Profile) on the FR Y-14Q by adding the mistakenly omitted items. This modification would allow continued operationalization of supervisory modeling, and would provide for total stressed net current exposure reporting under the two supervisory stressed scenarios.

With the addition of the total stressed net current exposure item, the instructions would be changed to modify the associated ranking methodologies for the yearly stressed/CCAR submission in sub-schedule L.5 to require the top 25 counterparties to be reported as ranked by the total stressed net current exposure. This modification would ensure that top counterparties are properly rank-ordered by the total stressed net current exposure to be added on sub-schedule L.5 in a manner that captures both derivative and securities financing transaction exposures.

The proposed revisions do not result in a change to the estimated burden for this series of reports, as the burden from the proposed revisions is already captured in the burden estimates associated with the FR Y-14Q report.

Board of Governors of the Federal Reserve System, August 2, 2018.

**FOR FURTHER INFORMATION CONTACT:** G. Richard Gold and Alex Tang, Attorneys, Office of the General Counsel, FTC, 600 Pennsylvania Avenue NW, Washington, DC 20580, (202) 326-2424.

**SUPPLEMENTARY INFORMATION:** In a document previously published in the **Federal Register**, 83 FR 19560 (May 3, 2018), the Federal Trade Commission, as required by the Privacy Act, sought comments on a proposal to modify and bifurcate an existing routine use relating to assistance in data breach responses, which is applicable to all Federal Trade Commission SORNs, to conform with OMB Memorandum M-17-12, Preparing for and Responding to a Breach of Personally Identifiable Information (January 3, 2017). The commenters were Xyampza Kerz, Thomas Dickinson, and Dave Root.
