

current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Amendment of Class E Airspace; Lansing, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace extending upward from 700 feet above the surface at Capital Region International Airport, Lansing, MI. This action is the result of an airspace review due to the decommissioning of the Lansing VHF omnidirectional range (VOR) navigation aid as part of the VOR Minimum Operational Network (MON) Program. The geographic coordinates and name of the airport are also updated to coincide with the FAA’s aeronautical database. An editorial change is also made to the airspace legal designation by removing the city from the airport name.

DATES: Effective 0901 UTC, November 8, 2018. The Director of the Federal Register approves this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace extending upward from 700 feet above the surface at Capital Region International Airport, Lansing, MI, to support instrument flight rule operations.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** (83 FR 16802; April 17, 2018) for Docket No. FAA–2018–0101 to amend Class E airspace extending upward from 700 feet above the surface at Capital Region International Airport, Lansing, MI. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas,

air traffic service routes, and reporting points.

The Rule

This amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 modifies Class E airspace extending upward from 700 feet above the surface to within a 6.8-mile radius (increased from a 6.7-mile radius) at Capital Region International Airport (formerly Capital City Airport), Lansing, MI; removes the extension to the east of the airport associated with the ARTDA LOM; adds an extension within 2.0 miles each side of the 091° bearing from the airport from the 6.8-mile radius to 10.4 mile east of the airport; and adds an extension within 4.0 miles each side of the 233° bearing from the airport from the 6.8-mile radius to 10.5 miles southwest of the airport.

The name of the airport is also updated from Capital City Airport to Capital Region International Airport, and the geographic coordinates of the airport are updated to coincide with the FAA's aeronautical database. Additionally, an editorial change is made removing the name of the city associated with the airport in the airspace legal designation to comply with a recent change to FAA Order 7400.2L, Procedures for Handling Airspace Matters.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5.a. This airspace action is not expected to cause any potentially

significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Public Information, Freedom of Information Act and Privacy Act Regulations

AGENCY: Department of Commerce.

ACTION: Final rule.

SUMMARY: This rule amends the Department of Commerce's (Department) regulations under the Freedom of Information Act (FOIA) and Privacy Act. The FOIA regulations are being revised to clarify, update and streamline the language of several procedural provisions, including methods for submitting FOIA requests and appeals and the time limits for filing an administrative appeal, and to incorporate certain changes brought about by the amendments to the FOIA under the FOIA Improvement Act of 2016. Additionally, the FOIA regulations are being updated to reflect developments in the case law.

DATES: These amendments are effective August 10, 2018.

FOR FURTHER INFORMATION CONTACT: Dr. Michael J. Toland, Deputy Chief Freedom of Information Act Officer and Department Privacy Act Officer, Office of Privacy and Open Government, 1401 Constitution Ave. NW, Room 61013, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background Information

On February 6, 2018, the Department published a proposed rule revising its existing regulations under the FOIA and Privacy Act. *See* 83 FR 5215. This rule proposed revisions to the Department's regulations under the Freedom of Information Act to incorporate certain changes made to the FOIA, 5 U.S.C. 552, by the FOIA Improvement Act of 2016, Public Law 114-185, 130 Stat. 538 (June 30, 2016). The FOIA Improvement Act of 2016 provides that agencies must allow a minimum of 90 days for requesters to file an administrative appeal. The Act also requires that agencies notify requesters of the availability of dispute resolution services at various times throughout the FOIA process. This rule updated the Department's regulations in 15 CFR part 4, subpart A, to reflect those statutory changes. Additionally, this rule revises the Department's regulations under the FOIA to clarify, update and streamline
