

and will allow researchers to examine associations between contextual factors and student outcomes. The study focuses on student achievement in mathematics and literacy along with measures of student socioemotional wellbeing and other outcomes. The study includes students with disabilities for whom descriptive information on their outcomes, educational experiences, and special education services are being collected. In preparation for the Main Study (MS), the data collection instruments and procedures were field tested. An Item Validation Field Test (IVFT) was conducted from January through May 2016 to determine the psychometric properties of assessment and survey items and the predictive potential of items so that valid, reliable, and useful assessment and survey instruments could be developed for the Main Study. The MGLS:2017 Operational Field Test (OFT) Base Year (OFT1) data collection was conducted from January through May 2017 to test the near-final instruments and recruitment and data collection procedures and materials in preparation for the MGLS:2017 Main Study Base Year (MS1). Tracking of students and associated recruitment of schools for the OFT First Follow-up (OFT2) data collection began in August 2017. The primary purpose of the OFT2 was to: (a) Obtain information on recruiting, particularly for students in three focal IDEA-defined disability groups: Specific learning disability, autism, and emotional disturbance; (b) obtain a tracking sample that can be used to study mobility patterns in subsequent years; and (c) test protocols, items, and administrative procedures. The MS1 district and school recruitment began in February 2017. The MS1 and OFT2 data collections took place from January to July 2018. OMB approved the MGLS:2017 MS1 and OFT1 data collection, and MS2 tracking and recruitment in October 2017, with the latest change request approved in April 2018 (OMB #1850-0911 v.16-19). Originally, NCES planned for MGLS:2017 to conduct annual main study follow-up data collections first beginning in January 2019 and next beginning in January 2020, when most of the students in the sample will be in grades 7 and 8, respectively. However, due to lower than expected response rates experienced in the sixth grade data collection, this request is to: (1) Schedule the MS2 data collection for January–July 2020 (when most sample students will be in the eighth grade) instead of January–July 2019 (thus dropping the originally planned seventh

grade round of data collection), (2) notify participating districts and schools of this change in data collection schedule, (3) discontinue the procedures designed to oversample students in specific IDEA-defined disability groups, and (4) conduct MS2 and OFT3 tracking activities.

Dated: August 7, 2018.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[FE Docket No. 18-70-LNG]

Mexico Pacific Limited LLC; Application for Long-Term, Multi-Contract Authorization To Export Domestically Produced Natural Gas Through Mexico to Non-Free Trade Agreement Countries After Liquefaction to Liquefied Natural Gas

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on June 18, 2018, by Mexico Pacific Limited LLC (MPL). MPL requests long-term, multi-contract authorization to export domestically produced natural gas in a volume equivalent to 12 million metric tons per annum of liquefied natural gas (LNG)—or approximately 621 billion cubic feet (Bcf) per year (1.7 Bcf per day) of natural gas. Specifically, MPL seeks to export this natural gas to its proposed LNG production and storage facility to be constructed in the state of Sonora, Mexico (MPL Facility), using existing cross-border natural gas transmission pipelines. At the MPL Facility, MPL plans to liquefy the U.S.-sourced natural gas into LNG. MPL requests authorization to export the U.S.-sourced LNG by vessel from Mexico to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries). Only MPL's proposed export of LNG produced from U.S.-sourced natural gas to non-FTA countries is subject to this Notice. MPL requests this non-FTA authorization for a 20-year term to commence on the earlier of the date of first export or five years from date of the requested authorization. MPL requests this

authorization on its own behalf and as agent for other entities who hold title to the LNG at the time of export. MPL filed the Application under section 3 of the Natural Gas Act (NGA). Additional details can be found in MPL's Application, posted on the DOE/FE website at: <https://www.energy.gov/sites/prod/files/2018/07/f53/18-70-LNGapp.pdf>. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, October 9, 2018.

ADDRESSES:

Electronic Filing by email: fergas@hq.doe.gov.

Regular Mail: U.S. Department of Energy (FE-34), Office of Regulation and International Engagement, Office of Fossil Energy, P.O. Box 44375, Washington, DC 20026-4375.

Hand Delivery or Private Delivery Services (e.g., FedEx, UPS, etc.): U.S. Department of Energy (FE-34), Office of Regulation and International Engagement, Office of Fossil Energy, Forrestal Building, Room 3E-042, 1000 Independence Avenue SW., Washington, DC 20585.

Benjamin Nussdorf or Larine Moore, U.S. Department of Energy (FE-34), Office of Regulation and International Engagement, Office of Fossil Energy, Forrestal Building, Room 3E-042, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-7970; (202) 586-9478.

Cassandra Bernstein or Ronald (R.J.) Colwell, U.S. Department of Energy (GC-76), Office of the Assistant General Counsel for Electricity and Fossil Energy, Forrestal Building, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-9793; (202) 586-8499.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

In the Application, MPL requests authorization to export U.S.-sourced natural gas in the form of LNG from the proposed MPL Facility, to be located in Mexico, to both FTA countries and non-FTA countries. This Notice applies only to the non-FTA portion of the Application filed under section 3(a) of the NGA, 15 U.S.C. 717b(a). DOE/FE will review MPL's request for a FTA export authorization separately

pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

In reviewing this Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider one or more of the following studies examining the cumulative impacts of exporting domestically produced LNG:

- *Effect of Increased Levels of Liquefied Natural Gas on U.S. Energy Markets*, conducted by the U.S. Energy Information Administration upon DOE's request (2014 EIA LNG Export Study);¹

- *The Macroeconomic Impact of Increasing U.S. LNG Exports*, conducted jointly by the Center for Energy Studies at Rice University's Baker Institute for Public Policy and Oxford Economics, on behalf of DOE (2015 LNG Export Study);² and

- *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports*, conducted by NERA Economic Consulting on behalf of DOE (2018 LNG Export Study).³

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);⁴ and

- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas from the United States*, 79 FR 32260 (June 4, 2014).⁵

Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*,

requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 60 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the filing to fergas@hq.doe.gov, with FE Docket No. 18-70-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 18-70-LNG. *Please note:* If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to

achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Office of Regulation and International Engagement docket room, Room 3E-042, 1000 Independence Avenue SW, Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE web address: <http://www.fe.doe.gov/programs/gasregulation/index.html>.

Signed in Washington, DC, on August 6, 2018.

Shawn Bennett,

Deputy Assistant Secretary, Office of Oil and Natural Gas.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Energy Information Administration

Proposed Agency Information Collection

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: EIA requests a three-year extension, with changes, to the Oil and Gas Reserves System Survey Program as required by the Paperwork Reduction Act of 1995. This survey system includes: Form EIA-64A, *Annual Report of the Origin of Natural Gas Liquids Production*; Form EIA-23L, *Annual Report of Domestic Oil and Gas Reserves, County Level Report*; and Form EIA-23S, *Annual Survey of Domestic Oil and Gas Reserves, Summary Level Report*.

DATES: EIA must receive all comments on this proposed information collection no later than October 9, 2018. If you anticipate difficulties in submitting your comments by the deadline, contact the person listed in the below **ADDRESSES** section of this notice as soon as possible.

¹ The 2014 EIA LNG Export Study, published on Oct. 29, 2014, is available at: <https://www.eia.gov/analysis/requests/fe/>.

² The 2015 LNG Export Study, dated Oct. 29, 2015, is available at: http://energy.gov/sites/prod/files/2015/12/f27/20151113_macro_impact_of_lng_exports_0.pdf.

³ The 2018 LNG Export Study, dated June 7, 2018, is available at: <https://www.energy.gov/sites/prod/files/2018/06/f52/Macroeconomic%20LNG%20Export%20Study%202018.pdf>. DOE is currently evaluating public comments received on this Study (83 FR 27314).
