

drawtender and in only one instance was a one-hour advance notice given. In all other instances, a notification of 30 minutes or less was given to the drawtender and the bridge opened for the passage of those vessels. The Coast Guard received five comments, via the Federal eRulemaking Portal, related to the initial test deviation. Four of the five comments indicated the 2-hour notice would be a burden on waterway users.

In order to meet the reasonable needs of navigation, while benefiting rail transportation, the Coast Guard is publishing this alternate temporary deviation to the proposed schedule change to determine whether a permanent change to the schedule is appropriate to better balance the needs of marine and rail traffic.

Under this temporary deviation, in effect from 6 a.m. on August 20, 2018 to 6 a.m. on October 18, 2018, the bridge shall open on signal from 3 a.m. to 11 p.m. if at least 30 minutes notice is given to the drawtender. At all other times, the draw shall be maintained in the fully open position, except for the passage of trains or for maintenance. To request an opening, mariners can contact the drawtender via marine radio VHF-FM channel 16/9 or by telephone at (707) 890-8650. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will be required to open as soon as practicable for vessels engaged in emergency response. SMART will log dates and times of vessels requesting openings. There are no alternate routes for vessels transiting upstream of the bridge on the Petaluma River.

The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners and through direct outreach to local harbors, marinas, and water-based business of the temporary change in the operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

## II. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking, and will consider all comments and materials received during the comment period. Your comments can help shape the outcome of this rulemaking. If you submit a comment, please include the

docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

We encourage you to submit comments through the Federal eRulemaking Portal at <http://www.regulations.gov>. If your material cannot be submitted using <http://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

We accept anonymous comments. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. For more about privacy and the docket, visit <http://www.regulations.gov/privacynotice>.

Documents mentioned in this notice as being available in this docket and all public comments, will be in our online docket at <http://www.regulations.gov> and can be viewed by following that website's instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

Dated: August 7, 2018.

**Carl T. Hausner**,  
*District Bridge Chief, Eleventh Coast Guard District.*

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

#### 33 CFR Part 117

[Docket No. USCG-2018-0512]

RIN 1625-AA09

#### Drawbridge Operation Regulation; Chevron Oil Company Canal, Fourchon, LA

**AGENCY:** Coast Guard, DHS.

**ACTION:** Final rule.

**SUMMARY:** The Coast Guard is removing the existing drawbridge operation regulation for the State Route (SR) 3090 Bridge, mile 0.05, across the Chevron Oil Company Canal, at Fourchon, Lafourche Parish, LA. The drawbridge was removed in May 7, 2018 and the operating regulation is no longer applicable or necessary.

**DATES:** This rule is effective August 13, 2018.

**ADDRESSES:** To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG-2018-0512. In the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rulemaking.

**FOR FURTHER INFORMATION CONTACT:** If you have questions on this rule, call or email Ms. Donna Gagliano, Bridge Branch Office, Eighth District, U.S. Coast Guard; telephone 504-671-2128, email [Donna.Gagliano@uscg.mil](mailto:Donna.Gagliano@uscg.mil).

#### SUPPLEMENTARY INFORMATION:

##### I. Table of Abbreviations

CFR Code of Federal Regulations  
DHS Department of Homeland Security  
FR Federal Register  
NPRM Notice of proposed rulemaking  
§ Section  
U.S.C. United States Code  
SR State Road

##### II. Background Information and Regulatory History

The Coast Guard is issuing this final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(3)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the State Route (SR) 3090 Bridge, mile 0.05, across the Chevron Oil Company Canal, at Fourchon, Lafourche Parish, LA (SR 3090 Bridge), that once required draw operations in 33 CFR 117.437, was removed from the waterway. Therefore, the regulation is no longer applicable and shall be removed from publication. It is unnecessary to publish an NPRM because this regulatory action does not purport to place any restrictions on mariners but rather removes a restriction that has no further use or value.

Under 5 U.S.C. 553(d)(3), and for the same reasons stated in the preceding paragraph, the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

##### III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority 33 U.S.C. 499.

On May 7, 2018, the SR 3090 Bridge, mile 0.05, across the Chevron Oil

Company Canal, at Fourchon, Lafourche Parish, LA was removed in its entirety. It has come to the attention of the Coast Guard that the governing regulation for this drawbridge was never removed subsequent to the removal of the drawbridge completion. The elimination of this drawbridge necessitates the removal of the drawbridge operation regulation, 33 CFR 117.437, which pertained to the former drawbridge.

The purpose of this rule is to remove 33 CFR 117.437 that refers to the Chevron Oil Company Canal, SR 3090 Bridge, mile 0.05, from the Code of Federal Regulations because it governs a bridge that is no longer in existence.

#### IV. Discussion of Final Rule

The Coast Guard is removing the regulation in 33 CFR 117.437 and the regulatory burden related to the draw operations for this bridge that is no longer in existence. This change does not affect waterway or land traffic.

#### V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protesters.

##### A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, it has not been reviewed by the Office of Management and Budget (OMB) and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the fact that the bridge was removed from the waterway and no longer operates as a drawbridge. The removal of the operating schedule from 33 CFR 117 Subpart B will have no effect on the movement of waterway or land traffic.

##### B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small

businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

For the reasons stated in section IV.A above this final rule would not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

##### C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

##### D. Federalism and Indian Tribal Government

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments,

because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

##### E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

##### F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule simply removes the operating regulations or procedures for a drawbridge no longer in existence. This action is categorically excluded from further review, under figure 2–1, paragraph (32)(e), of the Instruction.

A Record of Environmental Consideration and a Memorandum for the Record are not required for this rule.

##### G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

#### List of Subjects in 33 CFR Part 117

Bridges.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

## PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

**Authority:** 33 U.S.C. 499; 33 CFR 1.05–1; Department of Homeland Security Delegation No. 0170.1.

### § 117.437 [Removed]

■ 2. Remove § 117.437.

Dated: July 30, 2018.

**Paul F. Thomas,**

*Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.*

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

### 33 CFR Part 165

[Docket Number USCG–2018–0372]

RIN 1625–AA00

### Safety Zone; Lower Mississippi River, Mile Markers 94 to 97 Above Head of Passes, New Orleans, LA

**AGENCY:** Coast Guard, DHS.

**ACTION:** Final rule.

**SUMMARY:** The Coast Guard is establishing a permanent safety zone for the navigable waters of the Lower Mississippi River between mile marker (MM) 94 and MM 97, above Head of Passes. This action is necessary to provide for the safety of life on these navigable waters during firework displays. This regulation prohibits vessels from entering the safety zone before, during, and after the firework displays unless authorized by the Captain of the Port Sector New Orleans or a designated representative.

**DATES:** This rule is effective September 12, 2018.

**ADDRESSES:** To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG–2018–0372 in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rule.

**FOR FURTHER INFORMATION CONTACT:** If you have questions about this proposed rulemaking, call or email Lieutenant Commander Benjamin Morgan, Sector New Orleans, U.S. Coast Guard; telephone 504–365–2231, email [Benjamin.P.Morgan@uscg.mil](mailto:Benjamin.P.Morgan@uscg.mil).

**SUPPLEMENTARY INFORMATION:**

### I. Table of Abbreviations

CFR Code of Federal Regulations  
COTP Captain of the Port Sector New Orleans  
DHS Department of Homeland Security  
FR Federal Register  
MM Mile Marker  
NPRM Notice of proposed rulemaking  
§ Section  
U.S.C. United States Code

### II. Background Information and Regulatory History

The Coast Guard Captain of the Port Sector New Orleans (COTP) is establishing a permanent safety zone on the Lower Mississippi River in order to better provide for the safety of life on these navigable waters during firework displays. The COTP has determined that a large and increasing volume of the firework displays occurring within Sector New Orleans’ area of responsibility take place at locations between mile markers (MMs) 94 and 97 above Head of Passes on the Lower Mississippi River. Many of these events recur annually and are listed in Table 5 of 33 CFR 165.801 titled Sector New Orleans Annual and Recurring Safety Zones. However, a substantial and increasing number of these firework displays are one-time events associated with conventions, weddings, festivals, etc. By creating a permanent safety zone that can be enforced through a notice of enforcement, the COTP can more efficiently provide for the safety of life on these navigable waters. Therefore, on June 18, 2018, the Coast Guard published a notice of proposed rulemaking (NPRM) titled Safety Zone; Lower Mississippi River, Mile Markers 94 to 97 Above Head of Passes, New Orleans, LA (83 FR 28175). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this fireworks display safety zone. During the comment period that ended on July 18, 2018, we received two comments.

### III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The COTP has determined that a permanent safety zone that can be enforced as necessary for fireworks displays will better allow the COTP to provide for the safety of life. A large and increasing number of marine events has been occurring on the Lower Mississippi River, with the bulk of the events occurring within the same three-mile stretch of river. This rule allows for more timely and efficient responses to these requests and will also greatly reduce the administrative burden the COTP encounters with establishing

individual safety zones for these various events. The purpose of this rulemaking is to ensure the safety of life on these navigable waters within this three-mile segment of the Lower Mississippi River before, during, and after firework displays. Potential hazards associated with firework displays include the accidental discharge of fireworks, dangerous projectiles, and falling embers and other debris.

### IV. Discussion of Comments, Changes, and the Rule

As noted above, we received two comments on our NPRM published on June 18, 2018. One comment was unrelated to the rule. The second comment requested that the regulatory text include geographic coordinates in degrees-minutes-seconds with an associated horizontal datum in order to accurately depict the safety zone boundaries on NOAA nautical charts. The Coast Guard agrees that the requested information would be helpful for NOAA and the public to identify the boundaries of the zone. The regulatory text of this final rule has been updated to include this information.

This rule establishes a permanent safety zone between mile marker (MM) 94 (29°57’32” N, 90°03’05” W) and MM 97 (29°55’19” N, 90°04’00” W), NAD83 datum, on the Lower Mississippi River, above Head of Passes. While this zone encompasses a three-mile section of the waterway, the COTP will limit the enforcement of the zone only to the areas necessary for the protection of life on these navigable waters before, during, and after firework displays. No vessel or person is permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. A designated representative means any Coast Guard commissioned, warrant, or petty officer of the U.S. Coast Guard assigned to units under the operational control of USCG Sector New Orleans. Persons and vessels requiring entry into this proposed safety zone must request permission from the COTP or a designated representative. They may be contacted on VHF–FM Channel 16 or 67 or by telephone at (504) 365–2200. Persons and vessels permitted to enter the safety zone must transit at their slowest safe speed and comply with all lawful directions issued by the COTP or the designated representative.

In accordance with 33 CFR 165.7, for each enforcement of the safety zone established under this proposed rule, the COTP will publish a notice of enforcement in the **Federal Register** as early as practicable. The COTP or a designated representative will inform
