microdilution drug panels. Experiments to be conducted include growth assessment of these bacterial pathogens in the presence and absence of clinically relevant antibiotics. The antibiotics selected for our studies are those recommended by the Clinical and Laboratory Standards Institute (CLSI) for primary testing. The objectives of the investigations are to more rapidly determine antimicrobial susceptibility of bacterial pathogens. Currently, the gold-standard method for antimicrobial susceptibility testing requires 16–20 or 24–48 hours, depending on the species. The techniques required to perform these experiments include inoculation of a testing drug panel with a bacterial suspension and assessing susceptibility by optical screening. The research conducted using this instrument may substantially reduce the time required to make an informed therapeutic decision.

Docket Number: 18–003. Applicant: University of Virginia, Charlottesville, VA 22903. Instrument: Superconducting Magnet System. Manufacturer: Cryogenic Ltd., United Kingdom. Intended Use: See notice at 83 FR31120, July 3, 2018. Comments: None received. Decision: Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of order. Reasons: The instrument will be used to study the optoelectronic properties of novel nanomaterials with the goal of developing advanced materials to support the needs for new energy conversion processes and next-generation electronics and computing.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Habitat Committee to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Tuesday, August 28, 2018 at 9 a.m.

ADDRESSES: Meeting address: The meeting will be held at the Four Points by Sheraton, One Audubon Road, Wakefield, MA 01880; phone: (781) 245–9300.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION: Agenda

The committee will discuss the Clam dredge framework, particularly review
fishing industry proposals and preliminary Habitat Plan Development Team evaluation for exemption areas in the Great South Channel Habitat Management Area. They will recommend alternatives to the Council for inclusion in the framework and for further analysis. The committee will receive an update on recent Essential Fish Habitat consultations from Greater Atlantic Regional Fisheries Office staff. They also plan to discuss recent Council and National Marine Fisheries Services activity related to offshore wind engagement and research and monitoring plans under development by the states. Other business will be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council’s intent to take final action to address the emergency.
