

programs, in accordance with the SDWA, section 1452(g)(1), may submit reports (according to the schedule specified for each program) that cover both programs.

(3) Annual Audit: A state must comply with the provisions of the Single Audit Act Amendments of 1996. Best management practices suggest and the EPA recommends that a state conduct an annual independent audit of its DWSRF program. The scope of the report must cover the DWSRF and all other set-aside activities included in the Capitalization Grant Agreement. States that jointly administer DWSRF and CWSRF programs, in accordance with the SDWA, section 1452(g)(1), may submit audits that cover both programs but which report financial information for each program separately.

(4) Assistance Application Review: Local applicants seeking financial assistance must prepare and submit DWSRF loan applications. States then review completed loan applications and verify that proposed projects will comply with applicable federal and state requirements.

(5) DWSRF National Information Management System (DWNIMS) and the Projects and Benefits Reporting System (PBR): To ensure that funds are being used in an expeditious and timely manner for eligible projects and expenses, states must annually enter state-level financial data into the DWNIMS and quarterly enter project-level data into the PBR.

*Form numbers:* None.

*Respondents/affected entities:* Entities affected by this action are states and local governments.

*Respondent's obligation to respond:* Required to obtain or retain a benefit per the Safe Drinking Water Act, section 1452(g)(1).

*Estimated number of respondents:* 379 state and local respondents (total).

*Frequency of response:* Varies by requirement (*i.e.*, quarterly, semi-annually, and annually).

*Total estimated burden:* 88,792.5 hours (per year) for state and local respondents. Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$3,355,516 (per year) for state and local respondents.

*Changes in estimates:* The EPA expects a decrease in the total estimated respondent burden cost compared with the ICR currently approved by OMB. The change in cost is due to moving from contractor-provided hourly cost rates to Bureau of Labor Statistics (BLS) provided hourly cost rates. Using BLS rates will ensure that the ICR is more transparent and replicable. The present

BLS rates are lower than historical contractor-provided rates.
