### SUPPLEMENTARY INFORMATION:

#### Introduction

Under division H, title V, section 525 of the Consolidated Appropriations Act, 2014 (Pub. L. 113–76) and title VII, part A, subpart I of the Public Health Service Act, the authority to administer the HEAL program, including servicing, collecting, and enforcing any loans made under the program that remain outstanding, was transferred from the Secretary of Health and Human Services to the Secretary of Education on July 1, 2014, the date of the enactment of the Consolidated Appropriations Act, 2014.

The HEAL program system of records covers records for all activities that the Department carries out with regard to servicing, collecting, and enforcing Federal student loans made under title VII, part A, subpart I of the Public Health Service Act that remain outstanding. The HEAL program system also contains records of transactions performed by the Department to carry out the purposes of this system of records.

The Department published a notice of a modified system of records in the **Federal Register** on January 23, 2017 (82 FR 7807–7812) proposing to revise a programmatic routine use and to include a Defaulted Borrowers website as a location where the Department may

publish the names of defaulted HEAL program borrowers. In addition, the Department added or made conforming changes both to the programmatic routine uses to make them consistent with the routine uses that the Department uses in its other system of records notice for the servicing and collection of Federal student aid and to the standard routine uses to make them consistent with those used in most other Department systems of records notices.

This notice makes a number of needed updates and additions to this previous version of the system of records notice, which include: Revising the paragraph on the system's security classification to indicate that this system is not classified; updating the paragraph on system location to reference the current location of the system; revising programmatic purpose (13), and removing former programmatic purpose (15); and modifying the information regarding disclosures to consumer reporting agencies to specify which information will be disclosed.

The section entitled "RECORD SOURCE CATEGORIES" has been updated to include information obtained from other Federal agencies and from other persons or entities to which records may be disclosed as described in the routine uses set forth in the system of records notice.

This notice updates the section entitled "POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS" to reflect the current Department records retention and disposition schedule covering records in this system.

This notice is modifying the safeguards to remove reference to implementation guidance when this system of records was under the Department of Health and Human Services (HHS) at the previous system location.

This notice is also revising the record access, contesting, and notification procedures to explicitly indicate which necessary particulars individuals are required to provide to the system manager.

This notice also removes former programmatic routine use 1(o), routine use (3) "Disclosure for Use by Other Law Enforcement Agencies," and routine use (16) "Disclosures to Third Parties through Computer Matching Programs;" adds citations to authorizing statutes in routine uses 1(i) and 13; revises routine uses 1(m) to remove language referencing disclosures to update information or correct errors contained in Department records, (2) to remove guaranty agencies and their authorized representatives as entities to

which the Department may disclose records, (4) to insert the word "person" in place of the word "individual", (6) to standardize it with other language used by the Department to permit disclosures of records from its systems of records where they are relevant and necessary to employee grievances, complaints, or disciplinary actions, (10) to remove the reference to "Privacy Act safeguards as required under 5 U.S.C. 552(m)" to now require that all contractors agree to maintain safeguards to protect the security and confidentiality of the records in the system, (11) to remove the requirement for a researcher to maintain "Privacy Act safeguards" with respect to the disclosed records and instead adding a requirement that a researcher must maintain safeguards to protect the security and confidentiality of the disclosed records, (13) to include reference to the Congressional Budget Office as an entity to which the Department may disclose records to, (14) to replace references of "compromise" with references to "breach" to be compliant OMB's requirements as set forth in OMB M-17-12, (16) to allow disclosures to subcontractors of Federal or State agencies and their agents and to the judicial or legislative branches of the United States, and (17) to remove language that specified that the Department may elect to reestablish a Defaulted Borrowers website, or a similar website; adds routine use (15) "Disclosure in Assisting another Agency in Responding to a Breach of Data."

Pursuant to the requirements of Office of Management and Budget Circular No. A-108, the Department has also added a section entitled "HISTORY."

All users of the HEAL System will have a unique user ID with a password. All physical access to the data housed within the VDC is controlled and monitored by security personnel who check each individual entering the building for his or her employee or visitor badge. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention with firewalls, encryption, and password protection. This security system limits data access to Department and contract staff on a “need-to-know” basis, and controls individual users’ ability to access and alter records within the system.

**RECORD ACCESS PROCEDURES:**

If you wish to gain access to your record in the system of records, provide the System Manager with necessary particulars such as your name, date of birth, SSN, and any other identifying information requested by the Department while processing the request to distinguish between individuals with the same name.
