POLICIES AND PRACTICES FOR STORAGE OF RECORDS:
Records are maintained in database servers, file folders, compact discs, digital versatile discs, and magnetic tapes.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:
Records are retrieved by SSN or other identifying number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:
All records are retained and disposed of in accordance with Department records schedule, National Archives and Records Administration (NARA) disposition authority DAA–0441–2017–002 (“FSA Health Education Assistance Loan (HEAL) Program Online Processing System (HOPS)”). Records shall be destroyed seven years after cutoff. Cutoff is annually upon final payment or discharge of the loan.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:
All users of the HEAL System will have a unique user ID with a password. All physical access to the data housed within the VDC is controlled and monitored by security personnel who check each individual entering the building for his or her employee or visitor badge. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention with firewalls, encryption, and password protection. This security system limits data access to Department and contract staff on a “need-to-know” basis, and controls individual users’ ability to access and alter records within the system.

RECORD ACCESS PROCEDURES:
If you wish to gain access to your record in the system of records, provide the System Manager with necessary particulars such as your name, date of birth, SSN, and any other identifying information requested by the Department while processing the request to distinguish between individuals with the same name. You must also provide a reasonable description of the record, specify the information being contested, the corrective action sought, and the reason for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant. Requests by an individual to amend a record must meet the requirements of the regulations in 34 CFR 5b.7.

NOTIFICATION PROCEDURES:
If you wish to determine whether a record exists about you in the system of records, provide the System Manager with necessary particulars such as your name, date of birth, SSN, and any other identifying information requested by the Department while processing the request to distinguish between individuals with the same name. Your request must meet the requirements of the regulations in 34 CFR 5b.5, including proof of identity.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
None.

HISTORY:
The system of records entitled “Health Education Assistance Loan (HEAL) Program” (18–11–20) was previously maintained by the HHS, at which time it was entitled “Health Education Assistance On-Line Processing System (HOPS)” (09–15–0044). HHS last published that system of records in the Federal Register on February 1, 2010 (75 FR 5094–5097). The system was modified in the transfer from HHS to the Department. The Department published a revised system of records notice in the Federal Register on June 26, 2014 (79 FR 36299–36302), changing the name and numbering of the system of records to the “Health Education Assistance Loan (HEAL) program” (18–11–20). The Department published a notice of a modified system of records in the Federal Register on January 23, 2017 (82 FR 7807–7812) Through this notice, the Department modifies the January 23, 2017, notice of a modified system of records and republishes in full the HEAL program system of records notice in the required format found in OMB Circular No. A–108, issued on December 23, 2016.

gas (LNG) in a volume equivalent to 582.14 billion cubic feet (Bcf) per year (Bcf/yr) of natural gas (1.59 Bcf per day). CCL Stage III seeks to export this LNG from the proposed natural gas liquefaction and export facilities (Stage 3 LNG Facilities) associated with the Stage 3 Project at the existing Corpus Christi LNG Terminal in San Patricio and Nueces Counties, Texas. CCL Stage III requests authorization to export this LNG to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries). CCL Stage III notes that, in DOE/FE Order No. 3638, DOE previously authorized the export of LNG from the Corpus Christi LNG Terminal by its affiliates—Corpus Christi Liquefaction, LLC and Cheniere Marketing, LLC—to non-FTA countries in a volume equivalent to 767 Bcf/yr of LNG. CCL Stage III seeks to export the requested volume of LNG on its own behalf and as agent for other entities who hold title to the natural gas at the time of export. CCL Stage III requests the authorization for a 20-year term to commence on the earlier of the date of first commercial export of LNG produced by the Stage 3 LNG Facilities or seven years from the issuance of the requested authorization. CCL Stage III filed the Application under section 3 of the Natural Gas Act (NGA). Additional details and related procedural history can be found in CCL Stage III’s Application, posted on the DOE/FE website at: https://www.energy.gov/sites/prod/files/2018/07/53/18-78-LNG.pdf.

SUPPLEMENTARY INFORMATION: DOE/FE Evaluation

In the Application, CCL Stage III requests authorization to export LNG from the proposed Stage 3 LNG Facilities to both FTA countries and non-FTA countries. This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). DOE/FE will review CCL Stage III’s request for a FTA export authorization separately pursuant to section 3(c) of the NGA, 15 U.S.C. 717b(c).

In reviewing CCL Stage III’s request for a non-FTA authorization, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE’s policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider one or more of the following studies examining the cumulative impacts of exporting domestically produced LNG:

- **The Macroeconomic Impact of Increasing U.S. LNG Exports**, conducted jointly by the Center for Energy Studies at Rice University’s Baker Institute for Public Policy and Oxford Economics, on behalf of DOE (2015 LNG Export Study);
- **The Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports**, conducted by NERA Economic Consulting on behalf of DOE (2018 LNG Export Study). Additional information about these studies can be found through the links above.

- Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application. The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.
