

of the FD&C Act (21 U.S.C. 379aa(b)(1)), including followup reports under 760(c)(2) of the FD&C Act (21 U.S.C. 379aa(c)(2)), and how to submit these reports. The estimates for the annual reporting and recordkeeping burdens are based on FDA data on the number

of adverse drug experience reports submitted for nonprescription drug products marketed without an approved application and on prior input from comments received from prior **Federal Register** publications.

Based on FDA records, we received 194,449 total annual responses from

approximately 283 respondents for nonprescription drugs marketed without an approved application. We estimate that each submission will take approximately 6 hours to prepare and submit.

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN ¹

Activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Reports of serious adverse drug events (21 U.S.C. 379aa(b) and (c))	283	687.099	194,449	6	1,166,694

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Section 760(e) of the FD&C Act (21 U.S.C. 379aa(e)) also requires that responsible persons maintain records of nonprescription adverse event reports, whether or not the event is serious, for a period of 6 years. The guidance

recommends that respondents maintain records of efforts to obtain the minimum data elements for a report of a serious adverse drug event and any followup reports. We estimate that there are approximately 265,700 records per year

maintained by approximately 300 respondents, and that it takes approximately 8 hours to maintain each record.

TABLE 2—ESTIMATED ANNUAL RECORDKEEPING BURDEN ¹

Activity	Number of recordkeepers	Number of records per recordkeeper	Total annual records	Average burden per recordkeeping	Total hours
Recordkeeping (21 U.S.C. 379aa(e)(1))	300	885.6667	265,700	8	2,125,600

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Our estimated burden for the information collection reflects an overall increase. We attribute this adjustment to an increase in the number of submissions we received in the last few years.

SUPPLEMENTARY INFORMATION:

Agenda: The meeting will focus on two topics related to the Office of Pharmaceutical Quality's priority of promoting the availability of better medicine. FDA will seek input on the potential enhancement of a submission format consistent with KASA to improve the efficiency and consistency of regulatory quality assessment. During the afternoon session, the committee will discuss in-vitro/in-vivo relationship

standards, and will seek input on establishing patient-focused dissolution standards for oral solid modified-release dosage forms.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's website after the meeting. Background material is available at <https://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.
