SUMMARY: FMCSA announces its decision to deny applications from 39 individuals who requested an exemption from the Federal Motor Carrier Safety Regulations (FMCSRs) prohibiting persons with a clinical diagnosis of epilepsy or any other condition that is likely to cause a loss of consciousness or any loss of ability to operate a commercial motor vehicle (CMV) from operating CMVs in interstate commerce.

III. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for five years if it finds such an exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such an exemption. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The Agency’s decision regarding these exemption applications is based on the eligibility criteria, the terms and conditions for Federal exemptions, and an individualized assessment of each applicant’s medical information provided by the applicant.

IV. Conclusion

The Agency has determined that these applicants do not satisfy the criteria eligibility or meet the terms and conditions of the Federal exemption and granting these exemptions would not provide a level of safety that would be equivalent to or greater than, the level of safety that would be obtained by complying with the regulation 49 CFR 391.41(b)(8). Therefore, the 39 applicants in this notice have been denied exemptions from the physical qualification standards in 49 CFR 391.41(b)(8).

Each applicant has, prior to this notice, received a letter of final disposition regarding his/her exemption request. Those decision letters fully outlined the basis for the denial and constitutes final action by the Agency. This notice summarizes the Agency’s recent denials as required under 49 U.S.C. 31315(b)(4) by periodically publishing names and reasons for denial.

The following 35 applicants do not meet the minimum time requirement for being seizure-free, either on or off of anti-seizure medication:

- David M. Allyn (CT)
- Daniel Bailey (NY)
- Tiffany Banks (NV)
- Lorenzo Barber (IL)
- Richard Benjamin (AL)

[Docket No. FMCSA–2018–0031]

QUALIFICATION OF DRIVERS; EXEMPTION APPLICATIONS; DIABETES MELLITUS

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 53 individuals from the prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with insulin-treated diabetes mellitus (ITDM) from operating a commercial motor vehicle (CMV) in interstate commerce. The exemptions enable these individuals with ITDM to operate CMVs in interstate commerce.

DATES: The exemptions were applicable on July 19, 2018. The exemptions expire on July 19, 2020.

II. Background

On June 18, 2018, FMCSA published a notice announcing receipt of applications from 53 individuals requesting an exemption from diabetes requirement in 49 CFR 391.41(b)(3) and requested comments from the public (83 FR 28310). The public comment period ended on July 18, 2018, and two comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

The physical qualification standard for drivers regarding diabetes found in 49 CFR 391.41(b)(3) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control.

III. Discussion of Comments

FMCSA received two comments in this proceeding. Vicky Johnson from the Minnesota Department of Public Safety stated that Minnesota has no objections to granting diabetes exemptions to Bobby R. Isaacson, and Heath A. Woodiwiss. Mick Torok from N.A.T. Transportation, Inc. stated that he has no objections to granting a diabetes exemption to Zachary Fairbanks.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the diabetes standard in 49 CFR 391.41(b)(3) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows the applicants to operate CMVs in interstate commerce.

The Agency’s decision regarding these exemption applications is based on the program eligibility criteria and an individualized assessment of information submitted by each applicant. The qualifications, experience, and medical condition of each applicant were stated and discussed in detail in the June 18, 2018, Federal Register notice (83 FR 28310) and will not be repeated in this notice.

The following four applicants do not meet the minimum time requirement for a stable anti-seizure medication dosage:

- Steven L. Amell, Sr. (VT)
- Thomas H. Lee (VA)
- Gregory Long (CT)
- Christopher Phillips (PA)

Issued on: August 8, 2018.

Associate Administrator for Policy.
