

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

January 24, 2018.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC; New Executive Office Building, 725—17th Street NW, Washington, DC, 20503. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602.

Comments regarding these information collections are best assured of having their full effect if received by March 1, 2018. Copies of the submission(s) may be obtained by calling (202) 720–8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Water Use Surveys.

OMB Control Number: 0535–NEW.

Summary of Collection: The primary function of the National Agricultural Statistics Service (NASS) is to prepare and issue current official State and national estimates of crop and livestock production, value, and disposition, and resource use. General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204. This statute specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . . and shall distribute them among agriculturists.”

Need and Use of the Information: The Water Use Survey program will collect information on water usage for North Carolina agricultural operations that likely use between 10,000 and 1,000,000 gallons per day. For operations that are unable to provide water use data, an estimation guide is included in the questionnaire that the respondents can use to estimate their water usage based on their agricultural production data. The program will help the North Carolina Department of Agriculture and Consumer Services and North Carolina Department of Environmental Quality fulfill requirements of North Carolina state legislation enacted in 2008. Collecting data less frequently would prevent the agriculture industry from being kept abreast of water use changes for North Carolina.

Description of Respondents: Farms; Businesses or other for-profit.

Number of Respondents: 3,330.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 1,614.

National Agricultural Statistics Service

Title: Wine Grape Inventory Surveys.

OMB Control Number: 0535–NEW.

Summary of Collection: The primary function of the National Agricultural

Statistics Service (NASS) is to prepare and issue current official State and national estimates of crop and livestock production, value, and disposition. Limited data exists specifically for wine grapes. Currently, only Oregon and Washington publish annual statistics for wine grapes that are funded by their State Departments of Agriculture. General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204. This statute specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . . and shall distribute them among agriculturists.”

Need and Use of the Information: The Wine Grape Inventory survey program will collect information on number of producers, age of vines, acreage by wine grape variety, and number of vines by wine grape variety in select States. The program will provide data needed by the State Departments of Agriculture, other government agencies, and producer groups to track the growth and production practice information of the wine grape industry. Collecting data less frequently would prevent the agriculture industry from being kept abreast of changes at the State and variety level.

Description of Respondents: Farms; Businesses or other for-profit.

Number of Respondents: 1,330.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 482.

Ruth Brown,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410–20–P

DEPARTMENT OF AGRICULTURE

Forest Service

Caribou-Targhee National Forest, Idaho; Lower Valley Energy Crow Creek Pipeline Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: This notice advises the public that the USDA Forest Service, Caribou-Targhee National Forest, Montpelier Ranger District, is gathering information

necessary to prepare an environmental impact statement (EIS) in connection with Lower Valley Energy's request to construct an eight-inch diameter, low pressure pipeline in a north-northeasterly direction between Montpelier, Idaho and Afton, Wyoming.

DATES: Comments concerning the scope of the analysis must be received by March 1, 2018. The draft EIS is expected to be released in spring 2018, and the final EIS is expected in summer 2018.

ADDRESSES: Send written comments to Montpelier Ranger District, 322 N. 4th Street, Montpelier, ID 83254. Comments may also be sent via email to comments-intermtn-caribou-targhee-montpelier@fs.fed.us or via facsimile to (208) 847-3426.

FOR FURTHER INFORMATION CONTACT: Bryan Fuell, Acting District Ranger, Montpelier Ranger District, (208) 547-1101 or Jessica Taylor, National Environmental Policy Act (NEPA) Coordinator, Caribou-Targhee National Forest (208) 557-5837. A public scoping letter with more details is posted on the Forest website: <https://www.fs.usda.gov/projects/ctnf/landmanagement/projects>.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose and need for this project is to provide natural gas to the Afton/Star Valley, Wyoming area by pipeline. Lower Valley Energy currently provides natural gas to the Afton/Star Valley area by trucking liquefied natural gas to a central distribution facility located in Star Valley. As the demand for natural gas for residences and commercial buildings continues to increase, the shipping of gas by truck becomes costlier and less efficient. Increased shipping by truck also elevates a public safety issue because the level of truck traffic carrying hazardous chemicals on public highways increases. Shortages occur each winter because truck shipments are stalled by the inclement weather. Construction of the proposed pipeline would eliminate the need for Lower Valley Energy to ship overland and would contain all natural gas conveyance to a single pipeline.

Proposed Action

The proposed routing of an eight-inch diameter, low pressure pipeline parallels existing road corridors through Forest Service ownership where feasible. In several locations, an existing

road is the dividing feature between Inventoried Roadless Areas (IRAs). In these areas, the pipeline will be constructed within the roadway corridor, however; due to potential visual, noise and other impacts, IRAs adjacent to the pipeline construction may be impacted. In other locations, terrain limitations, stream environments, or practicality (shorter route, less disturbance) results in deviating from the road corridor and, in some of these cases, results in construction within an IRA. The total pipeline length is approximately 48 miles, with approximately 20 miles occurring on NFS lands (approximately 119 acres), and 40 acres of disturbance occurring within IRAs.

The project would directly impact the Meade Peak, Red Mountain, Telephone Draw and Hell Hole IRAs, and would be immediately adjacent to, and would thereby have some impact to, the Gannett Spring Creek and Sage Creek IRAs.

No road building is proposed within IRAs. Within the IRAs, only activities needed to construct the pipeline would occur and the construction areas would be fully reclaimed to original contours and with native vegetation. Project activities would include digging a trench, hauling pipe, welding pipe, and burying the pipe as well as cleanup and reclamation. Alignment markers would be installed at inter-visible distances along the entire route. While the project would have impacts to General Forest, Rangeland and Grassland (GFRG) and Backcountry Restoration (BCR) IRA themes, only incidental timber cutting would occur in BCR themes because the vegetation communities are primarily sagebrush and mountain brush.

The proposed action would also result in a plan amendment to make the project consistent with the Caribou Revised Forest Plan. The project would result in the establishment of a utility corridor for those portions of the pipeline that are outside existing corridors. The plan amendment would change the management prescription of approximately 119 acres to Management Prescription 8.1, Concentrated Development Areas.

The 2012 Planning Rule, as amended, requires identification in the initial notice of the amendment of the substantive provisions that are likely to be directly related to the amendment. Based on the proposed amendment for the Lower Valley Energy Crow Creek Pipeline and requirements of the planning rule, the following substantive requirements of the 36 CFR 219 planning regulations would likely be

directly related to the proposed amendment:

§ 219.10(a)(1) Aesthetic values, air quality, cultural and heritage resources, ecosystem services, fish and wildlife species, forage, geologic features, grazing and rangelands, habitat and habitat connectivity, recreation settings and opportunities, riparian areas, scenery, soil, surface and subsurface water quality, timber, trails, vegetation, viewsheds, wilderness, and other relevant resources and uses;

§ 219.10(a)(4) Appropriate placement of and sustainable management of infrastructure, such as recreational facilities and transportation and utility corridors; and

§ 219.10(a)(7) Reasonably foreseeable risks to ecological, social, and economic sustainability.

Possible Alternatives

Two alternative routes to the proposed route have been developed to date, although other alternatives may be considered that could provide mitigation of potential impacts. At a minimum, the "no action alternative" will be fully evaluated and analyzed along with the proposed action.

Lead and Cooperating Agencies

The Forest Service is the lead agency; there are no cooperating agencies.

Responsible Official

The Forest Supervisor of the Caribou-Targhee National Forest is the responsible official.

Nature of Decision To Be Made

The decisions to be made include whether to implement the proposed action, as designed; whether there are other alternatives capable of satisfying the purpose and need; whether any mitigation measures or monitoring is required to implement the proposed action or alternatives; and whether or not to approve the plan amendment. These decisions would be made in the record of decision, which would be issued following the publication of a final EIS and completion of the Forest Service objection process (36 CFR part 218, subparts A and B and 36 CFR part 219).

Preliminary Issues

The Forest Service will identify issues based on internal and external scoping comments and will analyze potential effects in a draft EIS. Due to the number of IRAs between Montpelier and the terminus of the pipeline, avoiding impacts to IRAs is not practical. Up to six IRAs could be impacted either directly or by activities occurring

adjacent to the IRA. The project would directly impact the Meade Peak, Red Mountain, Telephone Draw and Hell Hole IRAs, and would be immediately adjacent to, and would thereby have some impact to, the Gannett Spring Creek and Sage Creek IRAs. The portions of IRAs that could be impacted include GFRG and BCR management classifications (36 CFR part 294).

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. In addition to this notice of intent, a legal notice will be published in the *Idaho State Journal*, newspaper of record, and the *Star Valley Independent* to ensure wide distribution of this notice.

The purpose of this comment period is to provide an opportunity for the public to provide early and meaningful participation on a proposed action prior to a decision being made by the Responsible Official. Per 36 CFR 218 and 219, only those who provide specific, written comments regarding the proposed project or activity will be eligible to file an objection. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

An additional opportunity for public participation will occur during the public comment period on the draft EIS, which will be initiated by the publication of a notice of availability of the draft EIS in the **Federal Register**.

Dated: January 10, 2018.

Chris French,

Associate Deputy Chief, National Forest System.

BILLING CODE 3411-15-P

COMMISSION ON CIVIL RIGHTS

Agenda and Notice of Public Meetings of the South Dakota Advisory Committee

AGENCY: Commission on Civil Rights.

ACTION: Announcement of meetings.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission), and the Federal Advisory Committee Act (FACA), that planning meetings of the South Dakota Advisory Committee to the Commission will convene at 2:00 p.m. (MST) on Wednesday, February 7, 2018 via teleconference. The purpose of the meeting is to review and possibly vote on advisory memorandum culminating from the subtle racism briefing in March 2017.

DATES: Wednesday, February 7, 2018, at 2:00 p.m. (MST).

ADDRESSES: To be held via teleconference:

Conference Call Toll-Free Number for Both Meetings: 1-888-267-6301, Conference ID: 8658344.

TDD: Dial Federal Relay Service 1-800-877-8339 and give the operator the above conference call number and conference ID.

FOR FURTHER INFORMATION CONTACT:

David Mussatt, DFO, dmussatt@usccr.gov, 312-353-8311.

SUPPLEMENTARY INFORMATION: Members of the public may listen to the discussion by dialing the following Conference Call Toll-Free Number: 1-888-267-6301; Conference ID: 8658344. Please be advised that before being placed into the conference call, the operator will ask callers to provide their names, their organizational affiliations (if any), and an email address (if available) prior to placing callers into the conference room. Callers can expect to incur charges for calls they initiate over wireless lines, and the Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free phone number.

Persons with hearing impairments may also follow the discussion by first calling the Federal Relay Service (FRS) at 1-800-877-8339 and provide the FRS operator with Conference Call Toll-Free Number: 1-888-267-6301; Conference ID: 8658344. Members of the public are invited to submit written comments; the comments must be received in the regional office by Wednesday, March 7, 2018. Written comments may be mailed to the Rocky Mountain Regional Office, U.S. Commission on Civil Rights, 1961 Stout Street, Suite 13-201, Denver, CO 80294, faxed to (303) 866-1050, or emailed to Evelyn Bohor at ebohor@usccr.gov. Persons who desire additional information may contact the Rocky Mountain Regional Office at (303) 866-1040.

Records and documents discussed during the meeting will be available for

public viewing as they become available at <https://database.faca.gov/committee/meetings.aspx?cid=274> and clicking on the "Meeting Details" and "Documents" links. Records generated from this meeting may also be inspected and reproduced at the Rocky Mountain Regional Office, as they become available, both before and after the meeting. Persons interested in the work of this advisory committee are advised to go to the Commission's website, www.usccr.gov, or to contact the Rocky Mountain Regional Office at the above phone number, email or street address.

February 7, 2018 Agenda

- Welcome and Roll Call
- Review, Discuss and Possibly Vote on Advisory Memorandum on Subtle Racism in South Dakota
- Public Comment
- Adjourn

Exceptional Circumstance: Pursuant to 41 CFR 102-3.150, the notice for this meeting is given less than 15 days prior to the meetings because of the exceptional circumstance of the potential government shutdown on February 8, 2018.

Dated: January 25, 2018.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

BILLING CODE 6335-01-P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Indiana Advisory Committee to the U.S. Commission on Civil Rights

AGENCY: U.S. Commission on Civil Rights.

ACTION: Announcement of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission) and the Federal Advisory Committee Act that the Indiana Advisory Committee (Committee) will hold a meeting on Friday February 9, 2018, at 3:00 p.m. EST for the purpose of preparing for its public meeting on voting rights issues in the state.

DATES: The meeting will be held on Friday, February 9, 2018, at 3:00 p.m. EST.

ADDRESSES: Public call information: Dial: 888-601-3878, Conference ID: 2383092.

FOR FURTHER INFORMATION CONTACT:

Melissa Wojnaroski, DFO, at mwojnaroski@usccr.gov or 312-353-8311.
