I. Background

On March 20, 2018, the Idaho Department of Environmental Quality (IDEQ) submitted revisions to the SIP

provisions that incorporate by reference (IBR) various portions of Federal regulations codified in the Code of Federal Regulations (CFR) into the Rules for the Control of Air Pollution in Idaho (IDAPA 58.01.01). Additionally, on April 12, 2018, Idaho submitted a separate SIP revision to remove an expired interim transportation conformity provision.

On June 29, 2018, EPA proposed to approve Idaho's March 20, 2018, and April 12, 2018, SIP submissions. Please see the proposed approval for further explanation (83 FR 30626). The public comment period for our proposed action ended July 30, 2018. We received three electronic comments submitted through <https://www.regulations.gov>. We reviewed the comments and have determined that they are not clearly related to the subject of this action and thus are not adverse to this action. Therefore, we are finalizing our action as proposed.

II. Final Action

EPA is approving, and incorporating by reference where appropriate, in Idaho's SIP, all revisions to IDAPA 58.01.01.107 *Incorporations by Reference* (state effective March 28, 2018), except .03.f through .p, as requested by Idaho on March 20, 2018. EPA is also approving, as requested by Idaho on April 12, 2018, removal of IDAPA 58.01.01.582 *Interim Conformity Provisions for Northern Ada County Former Nonattainment Area for PM 10* from the Idaho SIP. We have determined that the submitted SIP revisions are consistent with section 110 and parts C and part D of Title I of the CAA.

III. Incorporation by Reference

In this rule, EPA is approving regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is incorporating by reference the provisions described above in Section II. Final Action and set forth below, as amendments to 40 CFR part 52.

Also in this rule, EPA is removing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is removing the incorporation by reference of IDAPA 58.01.01.582 as described in Section II. Final Action and set forth below, as amendments to 40 CFR part 52.

EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and at the EPA Region 10 office (please contact the person identified in the **FOR FURTHER**

INFORMATION CONTACT section of this preamble for more information).

IV. Statutory and Executive Orders Review

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because it does not involve technical standards; and
- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP does not apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, this action does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

[EPA–R04–OAR–2017–0390; FRL–9982–70—Region 4]

Air Plan Approval and Air Quality Designation; KY; Redesignation of the Kentucky Portion of the Louisville Unclassifiable Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: On May 4, 2018, the Commonwealth of Kentucky, through the Kentucky Energy and Environment Cabinet, Division for Air Quality (KDAQ), submitted a request for the Environmental Protection Agency (EPA) to redesignate the portion of Kentucky that is within the bi-state Louisville, KY-IN fine particulate matter (PM_{2.5}) unclassifiable area (hereinafter referred to as the “bi-state Louisville Area” or “Area”) to unclassifiable/attainment for the 2012 primary annual PM_{2.5} national ambient air quality standard (NAAQS). The bi-state Louisville Area consists of Jefferson County and a portion of Bullitt

County in Kentucky, as well as Clark and Floyd Counties in Indiana. EPA is approving the State’s request and redesignating the Area to unclassifiable/attainment for the 2012 primary annual PM_{2.5} NAAQS based upon valid, quality-assured, and certified ambient air monitoring data showing that the PM_{2.5} monitors in the bi-state Louisville Area are in compliance with the 2012 primary annual PM_{2.5} NAAQS.

DATES: This rule will be effective September 19, 2018.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2017–0390. All documents in the docket are listed on the www.regulations.gov website. SUPPLEMENTARY INFORMATION:

I. Background

On December 14, 2012, EPA revised the primary annual NAAQS for PM_{2.5} at a level of 12 micrograms per cubic meter (µg/m³), based on a 3-year average of annual mean PM_{2.5} concentrations. See 78 FR 3085 (January 15, 2013). EPA established the standards based on significant evidence and numerous health studies demonstrating that serious health effects are associated with exposures to particulate matter.

The process for designating areas following promulgation of a new or revised NAAQS is contained in section
