Title: 7 CFR part 1738, Rural Broadband Loans and Loan Guarantee Program.

OMB Control Number: 0572–0130.

Type of Request: Revision of a currently approved information collection.

Abstract: The Rural Utilities Service (RUS), is authorized by Title VI, Rural Broadband Access, of the Rural Electrification Act of 1936, as amended (RE Act), to provide loans and loan guarantees to fund the cost of construction, improvement, or acquisition of facilities and equipment for the provision of broadband service in eligible rural areas in the States and Territories of the United States. 7 CFR part 1738 prescribes the types of loans available, facilities financed, and eligible applicants, as well as minimum equity requirements to be considered for a loan. In addition, 7 CFR part 1738 outlines the process through which RUS will consider applicants under the priority consideration required in Title VI.

The term of the loan is based on the expected composite economic life based on the depreciation rates of the facilities financed. The term of the loan can be as high as 35 years. These loans are secured by a first lien on the borrower’s broadband system. In the interest of protecting loan security and accomplishing the statutory objective of a sound program of rural broadband service access, Title VI of the RE Act further requires that RUS make or guarantee a loan only if there is reasonable assurance that the loan, together with all outstanding loans and obligations of the borrower, will be repaid in full within the time agreed.

Estimated Number of Respondents: 18.

Estimated Number of Responses per Respondent: 4.5.

Estimated Total Annual Burden on Respondents: 7,305 hours.
