II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to: (i) Retitle Rule 1080; (ii) remove the current rule text located at Phlx Rule 1080(a); and (iii) relocate the definition of the Specialized Quote Feed ("SQF") from Commentary .01(a) of Rule 1080 to proposed 1080(a)(i)(b) and relocate the definition of the Options Floor Based Management System ("FBMS") from Commentary .06 of Rule 1080 to proposed 1080(a)(i)(c) and codify the Financial Information eXchange ("FIX") within Rule 1080(a)(i)(a).

Rule 1080 Title

Rule 1080 is currently titled “Phlx.” The Exchange proposes to retitle Rule 1080 as “Electronic Acceptance of Quotes and Orders.”

Rule 1080(a) “General”

The Exchange proposes to delete paragraph (a). General,” which defines the Exchange’s System using a prior system’s names AUTOM and AUTO-X, which terms are obsolete, as are references to and the functions of each. Rule 1080(a) also refers to a successor system, Phlx XL, which is also obsolete. The Exchange recently added a definition to its Rules at 1000(b)(45) which describes the Exchange’s System.

The Exchange also proposes to delete cross-references to Rules 1014(b) and 1017, which are unnecessary. Rule 1014, entitled, “Obligations and Restrictions Applicable to Specialists and Registered Options Traders,” contains various definitions, including a Registered Options Trader at Rule 1014(b). The Exchange believes it is unnecessary to cite the specific rule. Further, Rule 1017 entitled “Openings in Options” does not require a specific citation.

New Rule 1080(a)

The Exchange believes that codifying definitions of these protocols in its rules will increase transparency around its operations. The protocols used by members to submit quotes and orders play an important role in the operation of the System. The Exchange therefore believes that codifying definitions of these protocols in its rules will increase transparency around its operations.

The Exchange proposes to add a new section (a) entitled “Entry and Display of Orders and Quotes.” The Exchange proposes to state in proposed Rule 1080(a) “Members may enter orders and quotes into the System as specified below.” The Exchange proposes to add a section 1080(a)(i) which provides, “The Exchange offers members the following protocols for entering orders and quotes respectively.”

Although the Exchange is changing how it categorizes various features included on FIX and SQF as part of its harmonization effort, the list of features included in the proposed definitions are intended to be exhaustive with respect to the buckets of information provided on each protocol. Overall, the Exchange believes that the proposed changes will allow members to more easily understand what information is available on which protocol.

A. Financial Information eXchange Ports

This protocol is not memorialized within the Exchange’s Rulebook, however rule changes describing FIX have been filed. The Exchange

The FIX port was previously referred to as the “Order Entry Port” and described as a connection to routing orders to the Exchange via an external order entry port. Members access the Exchange’s network through order entry ports. A

This first paragraph also refers to AUTOM routing orders to the specialist unit, and this rule governing order messages, all of which is obsolete. AUTOM and AUTO-X were replaced by Phlx XL.
