public hearing, we will allocate an appropriate amount of time to each participant, allowing time for necessary breaks. In addition, we will reserve a block of time for anyone else in the audience who wishes to give an oral presentation. For planning purposes, each speaker should anticipate speaking for approximately five minutes. We request that you bring three copies of your statement or other material for the EPA and NHTSA panels. To accommodate as many speakers as possible, we prefer that speakers not use technological aids (e.g., audio-visuals, computer slideshows). However, if you wish to do so, you must notify the contact persons in the FOR FURTHER INFORMATION CONTACT section above. You also must make arrangements to provide your presentation or any other aids to NHTSA and EPA in advance of the hearing in order to facilitate set-up.

NHTSA and EPA will conduct the hearings informally, and technical rules of evidence will not apply. We will arrange for a written transcript of each hearing and keep the official record of each hearing open for 30 days to allow speakers to submit supplementary information to the dockets listed above. Panel members may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. You may make arrangements for copies of the transcripts directly with the court reporter.

Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public hearings. To be assured of consideration, written comments on the proposal must be received by the date indicated in the Federal Register once the document publishes. Written comments on NHTSA's Draft EIS must be received or uploaded to NHTSA's docket for the EIS by September 24, 2018.

Amanda Gunasekara, Principal Deputy Assistant Administrator for Air and Radiation, Environmental Protection Agency.

FOR FURTHER INFORMATION CONTACT: Michael Goodis, Registration Division (RD) (7505P), main telephone number: (703) 305–7090, email address: RDFRNotices@epa.gov; or Robert McNally, Biostatistics and Pollution Prevention Division (BPPD) (7511P), main telephone number: (703) 305–7090, email address: BPPDNotices@epa.gov. The mailing address for each contact person is: Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001. As part of the mailing address, include the contact person’s name, division, and mail code. The division to contact is listed at the end of each pesticide petition summary.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under FOR FURTHER INFORMATION CONTACT for the division listed at the end of the pesticide petition summary of interest.

B. What should I consider as I prepare my comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. Tips for preparing your comments. When preparing and submitting your comments, see the commenting tips at http://www.epa.gov/dockets/comments.html.

3. Environmental justice. EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice
issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the Agency taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FD&CA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioners. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petitions described in this document contain the data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this document, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available at http://www.regulations.gov.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is publishing notice of the petitions so that the public has an opportunity to comment on these requests for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petitions may be obtained through the petition summaries referenced in this unit.

Amended Tolerance Exemption for Non-Inert (Except PIPS)

PP 8F8680. (EPA–HQ–OPP–2018–0520). Eden Research plc, 6 Priory Ct., Priory Court Business Park, Poulton, Cirencester, GL7 5JB, United Kingdom (c/o SciReg, Inc., 12733 Director’s Loop, Woodbridge, VA 22192), requests to amend an exemption from the requirement of a tolerance in 40 CFR 180.1240 to include residues of the fungicide and nematocide thymol in or on raw agricultural commodities or processed food. The petitioner believes no analytical method is needed because an exemption from the requirement of a tolerance for residues of thymol is being requested; therefore, the requirement to provide an analytical method for detecting and measuring the levels of pesticide residue is not applicable. Contact: BPPD.

New Tolerance Exemption for Inert (Except PIPS)

PP IN–11098. (EPA–HQ–OPP–2018–0203). Spring Trading Company (203 Dogwood Trail, Magnolia, TX 77354) on behalf of Sasol Chemicals (USA) LLC, 12120 Wickcheaster Lane, Houston, TX 77079) requests to establish an exemption from the requirement of a tolerance for residues of perfumers, C2–33, manuf. of, by-products from, overheads (CAS Reg. No. 876065–86–0) when used as an inert ingredient (solvent) in pesticide formulations applied to growing crops and or to raw agricultural commodities after harvest under 40 CFR 180.910 and applied to animals under 40 CFR 180.930. The petitioner believes no analytical method is needed because it is not required for an exemption from the requirement of a tolerance. Contact: RD.

New Tolerance Exemptions for Non-Inerts (Except PIPS)

1. PP 8F8681. (EPA–HQ–OPP–2018–0522). Eden Research plc, 6 Priory Ct., Priory Court Business Park, Poulton, Cirencester, GL7 5JB, United Kingdom (c/o SciReg, Inc., 12733 Director’s Loop, Woodbridge, VA 22192), requests to establish an exemption from the requirement of a tolerance in 40 CFR part 180 for residues of the fungicide eugenol in or on raw agricultural commodities or processed food. The petitioner believes no analytical method is needed because an exemption from the requirement of a tolerance for residues of eugenol is being requested; therefore, the requirement to provide an analytical method for detecting and measuring the levels of pesticide residue is not applicable. Contact: BPPD.

2. PP 8F8690. (EPA–HQ–OPP–2016–0073). LAM International Corp., 117 12th ave., Butte, MT 59701, requests to establish an exemption from the requirement of a tolerance in 40 CFR part 180 for residues of the nematocide Purpureocillium lilacinum strain PL11 in or on all food commodities. The petitioner believes no analytical method is needed because, when used as proposed, Purpureocillium lilacinum strain PL11 would not result in residues that are of toxicological concern. Contact: BPPD.

New Tolerances for Non-Inerts

2. PP 7F8640. (EPA–HQ–OPP–2018–0088). Syngenta Crop Protection, LLC, P.O. Box 18300 Greensboro, NC 27419–8300, requests to establish a tolerance in 40 CFR part 180 for residues of the insecticide, emamectin, in or on vegetable, cucurbit, group 9 at 0.03 parts per million. The high performance liquid chromatography (HPLC) analytical method is used to measure and evaluate the chemical emamectin. Contact: (RD)

Delores Barber, Director, Information Technology and Resources Management Division, Office of Pesticide Programs.
