DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Submission to OMB for Review and Approval; Public Comment Request; The Secretary's Discretionary Advisory Committee on Heritable Disorders in Newborns and Children's Public Health System Assessment Surveys OMB No. 0906–0014—Revised

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with of the Paperwork Reduction Act of 1995, HRSA has submitted an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public during the review and approval period.

DATES: Comments on this ICR should be received no later than September 24, 2018.

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA Information Collection Clearance Officer, Room 14N136B, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: To request a copy of the clearance requests submitted to OMB for review, email Lisa Wright-Solomon, the HRSA Information Collection Clearance Officer at paperwork@hrsa.gov or call (301) 443–1984.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: The Secretary's Discretionary Advisory Committee on Heritable Disorders in Newborns and Children's Public Health System Assessment Surveys OMB No. 0906–0014—Revised.

Abstract: The purpose of the public health system assessment surveys is to inform the Secretary's Discretionary Advisory Committee on Heritable Disorders in Newborns and Children (Committee) on the ability to add newborn screening for particular conditions within a state, including the feasibility, readiness and overall capacity to screen for a new condition.

The Committee was established under Section 1111 of the Public Health Service Act, 42 U.S.C. 300b–10, as amended in the Newborn Screening Saves Lives Reauthorization Act of 2014. The Committee is governed by the provisions of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), which sets forth standards for the formation and use of advisory committees. The purpose of the Committee is to provide the Secretary with recommendations, advice, and technical information regarding the most appropriate application of technologies, policies, guidelines, and standards for: (a) Effectively reducing morbidity and mortality in newborns and children having, or at risk for, heritable disorders; and (b) enhancing the ability of state and local health agencies to provide for newborn and child screening, counseling, and health care services for newborns and children having, or at risk for, heritable disorders. Specifically, the Committee makes systematic evidence-based recommendations on newborn screening for conditions that have the potential to change the health outcomes for newborns.

The Committee tasks an external workgroup to conduct systematic evidence-based reviews for conditions being considered for addition to the Recommended Uniform Screening Panel, and their corresponding newborn screening test(s), confirmatory test(s), and treatment(s). Reviews also include an analysis of the benefits and harms of newborn screening for a selected condition at a population level and an assessment of state public health newborn screening programs' ability to implement the screening of a new condition.

Need and Proposed Use of the Information: HRSA proposes that the data collection surveys be administered by the Committee's external Evidence Review Group to all state newborn screening programs in the United States up to twice a year for two conditions. The surveys were developed to capture the following: (1) The readiness of state public health newborn screening programs to expand newborn screening to include the target condition; (2) specific requirements of screening for

the condition that could hinder or facilitate its implementation in each state; and (3) estimated timeframes needed for each state to complete major milestones toward full newborn screening of the condition.

HRSA published the 60-day notice on June 5, 2018 (FR Doc. 2018–12019). There were no comments received during the 60-day comment period. The survey tools have been revised to streamline responses to decrease the burden on the respondents, provide clarity with regard to what is being asked, ensure the survey can accommodate different types of conditions that may be nominated in the future, and offer additional response options. To accomplish this, questions were deleted, consolidated, reordered,

and new questions were added to address gaps in information identified by those who have completed the survey and utilized the survey results.

The data gathered will inform the Committee on the following: (1) Feasibility of implementing population-based screening for the target condition; (2) readiness of state newborn screening programs to adopt screening for the condition; (3) identify gaps in feasibility or readiness to screen for the condition; and (4) identify areas of technical assistance and resources needed to facilitate screening for conditions with low feasibility or readiness.

Likely Respondents: The respondents to the survey will be State and territorial newborn screening programs.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
INITIAL Survey of the Secretary’s Discretionary Advisory Committee on Heritable Disorders in Newborns and Children’s Public Health System Assessment	59	** 2	118	10.0	1,180
FOLLOW-UP Survey of the Secretary’s Discretionary Advisory Committee on Heritable Disorders in Newborns and Children’s Public Health System Assessment	* 30	** 2	60	2.0	120
Total	89	178	1,300

* Up to 30 States and/or Territories will be asked to complete a follow-up survey.

** Up to two conditions may be reviewed per year. Therefore, there will be two initial surveys and two follow-up surveys per year.

Amy P. McNulty,

Acting Director, Division of the Executive Secretariat.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Request for Nominations for the Advisory Committee on Training in Primary Care Medicine and Dentistry

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

ACTION: Notice of request for nominations.

SUMMARY: HRSA is requesting nominations to fill vacancies on the Advisory Committee on Training in Primary Care Medicine and Dentistry (ACTPCMD). The ACTPCMD is authorized by Section 749 of the Public Health Service (PHS) Act. The Advisory Committee is governed by provisions of the Federal Advisory Committee Act (FACA), as amended, which sets forth standards for the formation and use of

advisory committees, and applies to the extent that the provisions of FACA do not conflict with the requirements of PHS Act Section 749.

DATES: HRSA will receive nominations on a continuous basis.

ADDRESSES: Written nominations for membership can be submitted by mail to Advisory Council Operations, Bureau of Health Workforce, HRSA, Room 11W45C, 5600 Fishers Lane, Rockville, Maryland 20857 or sent by email to BHWAdvisoryCouncilFRN@hrsa.gov.

FOR FURTHER INFORMATION CONTACT: Kennita R. Carter, MD, Designated Federal Official, ACTPCMD at 301–945–3505 or email kcarter@hrsa.gov. A copy of the current committee membership, charter, and reports can be obtained by accessing the ACTPCMD website <https://www.hrsa.gov/advisory-committees/primarycare-dentist/index.html>.

SUPPLEMENTARY INFORMATION: The ACTPCMD provides advice and recommendations to the Secretary of the Department of Health and Human Services (Secretary), the Senate Committee on Health, Education, Labor

and Pensions, and the House of Representatives Committee on Energy and Commerce on matters concerning policy, program development, and other matters of significance concerning the medicine and dentistry activities under Section 747 of the PHS Act, as it existed upon the enactment of Section 749 of the PHS Act in 1998. In addition, the ACTPCMD develops, publishes, and implements performance measures and longitudinal evaluations for programs under Part C of Title VII of the PHS Act, as well as recommends appropriation levels for programs under this part. Meetings are held twice a year.

Specifically, HRSA is requesting nominations for voting members of the ACTPCMD representing allopathic medicine, osteopathic medicine, family medicine, general internal medicine, general pediatrics, physician assistant, general dentistry, pediatric dentistry, public health dentistry, dental hygiene, advanced practice nurse programs, and other health professionals engaged in primary care or oral health interprofessional training. Among these nominations, students, residents, or fellows representing allopathic
