#### B. Submitting Comments

Please include Docket ID NRC-2018-0036 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

## II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* NRC Form 244, "Registration Certificate—Use of Depleted Uranium Under General License."

2. *OMB approval number:* 3150-0031.

3. *Type of submission:* Revision.

4. *The form number, if applicable:* NRC Form 244.

5. *How often the collection is required or requested:* Within 30 days after the first receipt or acquisition of depleted uranium. Any changes in information furnished by the registrant in the NRC Form 244 shall be reported in writing to the Director, Office of Nuclear Material Safety and Safeguards, with a copy to the Regional Administrator of the appropriate U.S. Nuclear Regulatory Commission Regional Office listed in appendix D of title 10 *Code of Federal Regulations* (CFR) part 20; this report shall be submitted within 30 days after the effective date of such change.

6. *Who will be required or asked to respond:* Persons who receive, acquire, possess, or use depleted uranium pursuant to the general license established in 10 CFR 40.25(a).

7. *The estimated number of annual responses:* 19.0 (3 NRC Licensees + 16.0 Agreement State Licensees).

8. *The estimated number of annual respondents:* 18.0 (2 NRC Licensee + 16.0 Agreement State Licensees).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 11.0 hours (1.7 NRC hours + 9.3 Agreement State hours).

10. *Abstract:* Part 40 of 10 CFR establishes requirements for the receipt, possession, use and transfer of radioactive source and byproduct materials. Section 40.25 established a general license authorizing the use of depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of the product or device. The NRC Form 244 is used to report the receipt and transfer of depleted uranium, as required by 10 CFR 40.25. The registration information required by the NRC Form 244 enables the NRC to make a determination on whether the possession, use, or transfer of depleted uranium source and byproduct material is in conformance with the NRC's regulations for the protection of public health and safety.

## III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 21st day of August 2018.

For the Nuclear Regulatory Commission.
