SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Route 280 Bridge across the Passaic River, mile 5.8, at Harrison, New Jersey. The deviation is necessary to perform steel repairs at the lift span. This deviation allows the bridge to remain closed during the construction period.

DATES: This deviation is effective from 12:01 a.m. on October 1, 2018, until 11:59 p.m. on December 14, 2018.

SUPPLEMENTARY INFORMATION: The owner of the bridge, New Jersey Department of Transportation, requested a temporary deviation in order to perform steel repairs at the lift span.

The Route 280 Bridge across the Passaic River, mile 5.8, at Harrison, New Jersey is a vertical lift bridge with a vertical clearance of 35 feet at mean high water and 40 feet at mean low water in the closed position. The existing drawbridge operating regulation is listed at 33 CFR 117.739(h).

This temporary deviation will allow the Route 280 Bridge to remain in the closed position from 12:01 a.m. on October 1, 2018, to 11:59 p.m. on December 14, 2018. The deviation will have minimal effect on navigation. The waterway is transited by recreational and commercial vessels. Coordination with waterway users has indicated no objection to the closure of the draw. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open

for emergencies. There is no immediate alternate route for vessels to pass.

The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: August 23, 2018.
