Certain Steel Wheels 12 to 16.5 Inches in Diameter From the People’s Republic of China: Initiation of Less-Than-Fair-Value Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Paul Stolz or Jonathan Cornfield at (202) 482–4474 or (202) 482–3855, respectively; AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

The Petition

On August 8, 2018, the U.S. Department of Commerce (Commerce) received an antidumping duty (AD) Petition concerning imports of certain steel wheels 12 to 16.5 inches in diameter (certain steel wheels) from the People’s Republic of China (China), filed in proper form on behalf of Dexstar Wheel, a division of Americana Development, Inc. (the petitioner), which is a domestic producer of certain

retroactively to the effective date of the first entry by HEES.5

On July 6, 2018, Hyundai submitted comments regarding the Preliminary Results.6 On July 13, 2018, ABB submitted its rebuttal brief.7

Scope of the Order

The scope of this Order covers large liquid dielectric power transformers having a top power handling capacity greater than or equal to 60,000 kilovolt amperes (60 megavolt amperes), whether assembled or unassembled, complete or incomplete. Incomplete LPTs are subassemblies consisting of the active part and any other parts attached to, imported with or invoiced with the active parts of LPTs. The “active part” of the transformer consists of one or more of the following when attached to or otherwise assembled with one another: The steel core or shell, the windings, electrical insulation between the windings, the mechanical frame for an LPT.

The product definition encompasses all such LPTs regardless of name designation, including but not limited to step-up transformers, step-down transformers, autotransformers, interconnection transformers, voltage regulator transformers, rectifier transformers, and power rectifier transformers.

The LPTs subject to this Order are currently classifiable under subheadings 8504.23.0040, 8504.23.0080, and 8504.90.9540 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this Order is dispositive.

Analysis of Comments Received

The issue raised in the case and rebuttal briefs by parties to this CCR is addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice.8 A list of the topics discussed in the Issues and Decision Memorandum is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov, and it is available to all parties in the Central Records Unit, Room B8024, of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at http://enforcement.trade.gov/frn/. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of Changed Circumstances Review

Based on the record evidence and our analysis of the comments received, Commerce continues to find that applying HHI’s current cash deposit rate of 60.81 percent retroactively to the effective date of the first entry of HEES, HHI’s successor-in-interest, is warranted.9

Instructions to U.S. Customs and Border Protection

As a result of this determination, Commerce will instruct CBP to collect estimated antidumping duties for all shipments of the subject merchandise produced and/or exported by HEES and entered, or withdrawn from warehouse, for consumption on or after the date of the first entry made by HEES at the 60.81 percent rate established in the 2014–2015 and 2015–2016 antidumping duty administrative reviews. This cash deposit requirement shall remain in effect until further notice.

Notification to Interested Parties

This notice serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Regarding Successor-In-Interest Analysis: Large Power Transformers from the Republic of Korea,” dated concurrently with this notice (Issues and Decision Memorandum).

8 See Memorandum to Gary Taeverman, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, “Final Results of Changed Circumstances Review
steel wheels.1 The AD Petition was accompanied by a countervailing duty (CVD) Petition concerning imports of certain steel wheels from China.

On August 10, 2018, Commerce requested supplemental information pertaining to certain aspects of the Petition in two separate supplemental questionnaires, one dealing with general issues with the Petition and the other with issues related to Volume II of the Petition (i.e., the AD allegation).2

The petitioner filed its responses to the supplemental questionnaires on August 14 and August 15, 2018.3 On August 17, 2018, we spoke with the counsel to the petitioner regarding the scope language and its August 14 and August 15, 2018, submissions, requesting further clarification to certain responses.4 On August 20, 2018, the petitioner responded to Commerce’s August 17 request for supplemental information, including further clarification of the scope language.5 On August 28, 2018, we again spoke with counsel to the petitioner, notifying counsel of a change to the index used to adjust the labor rate in the margin calculation.6

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of certain steel wheels from China are being, or are likely to be, sold in the United States at less-than-fair-value (LTFV) within the meaning of section 731 of the Act, and that such imports are materially injuring, or threatening material injury to, the domestic industry producing certain steel wheels in the United States. Consistent with section 732(b)(1) of the Act, the Petition is accompanied by information reasonably available to the petitioner supporting its allegation.7

Commerce finds that the petitioner filed the Petition on behalf of the domestic industry because the petitioner is an interested party as defined in section 771(9)(C) of the Act. Commerce also finds that the petitioner demonstrated sufficient industry support with respect to the initiation of the requested AD investigation.7

Period of Investigation

Because China is a non-market economy (NME) country, pursuant to 19 CFR 351.204(b)(1), the period of investigation (POI) is January 1, 2018, through June 30, 2018.

Scope of the Investigation

The product covered by this investigation is certain steel wheels 12 to 16.5 inches in diameter from China. For a full description of the scope of this investigation, see the Appendix to this notice.

Scope Comments

During our review of the Petition, Commerce contacted the petitioner regarding the proposed scope language to ensure that the scope language in the Petition is an accurate reflection of the products for which the domestic industry is seeking relief.8 As a result of the petitioner’s submissions, the scope of the Petition was modified to clarify the description of merchandise covered by the Petition. The description of the merchandise covered by this initiation, as described in the Appendix to this notice, reflects these clarifications.

As discussed in the Preamble to Commerce’s regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (scope).9 Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary

questionnaire. This information will be used to identify the key physical characteristics of the merchandise under consideration in order to report the relevant factors of production accurately, as well as to develop appropriate product-comparison criteria.

Interested parties may provide any information or comments that they feel are relevant to the development of an accurate list of physical characteristics. In order to consider the suggestions of interested parties in developing and issuing the AD questionnaire, all product characteristics comments must be filed by 5:00 p.m. ET on September 17, 2018, which is 20 calendar days from the signature date of this notice. Any rebuttal comments must be filed by 5:00 p.m. ET on September 27, 2018. All comments and submissions to Commerce must be filed electronically using ACCESS, as explained above, on the record of the China LTFV investigation.

Determination of Industry Support for the Petition

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) At least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 732(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) Poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the “industry.”

Section 771(4)(A) of the Act defines the “industry” as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The International Trade Commission (ITC), which is responsible for determining whether “the domestic industry” has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product,14 they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce’s determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.15

Section 771(10) of the Act defines the domestic like product as “a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.” Thus, the reference point from which the domestic like product analysis begins is “the article subject to an investigation” (i.e., the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigation.16 Based on our analysis of the information submitted on the record, we have determined that certain steel wheels, as defined in the scope, constitute a single domestic like product, and we have analyzed industry support in terms of that domestic like product.17

In determining whether the petitioner has standing under section 732(c)(4)(A) of the Act, we considered the industry support data contained in the Petition with reference to the domestic like product as defined in the “Scope of the Investigation,” in the Appendix to this notice. To establish industry support, the petitioner provided its own production of the domestic like product in 2017.18 In addition, the petitioner provided a letter of support from American Wheel Corporation, stating that the company supports the Petition and providing its own production of the domestic like product in 2017.19 The petitioner identifies itself and American Wheel Corporation as the only companies constituting the U.S. certain steel wheels industry and states that there are no other known producers of certain steel wheels in the United States; therefore, the Petition is supported by 100 percent of the U.S. industry.20

Our review of the data provided in the Petition, the General Issues Supplement, and other information readily available to Commerce indicates that the petitioner has established industry support for the Petition.21 First, the Petition established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action in order to evaluate industry support (e.g., polling).22 Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petition account for at least 25 percent of the total production of the domestic like product.23 Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petition account for more than 50 percent of the total production of the domestic like product.24 Accordingly, Commerce determines that the Petition was filed on behalf of the domestic industry within the meaning of section 732(b)(1) of the Act.

Commerce finds that the petitioner provided the Petition on behalf of the domestic industry because it is an interested party as defined in section 771(9)(C) of the Act, and it has demonstrated sufficient industry support with respect to the AD

16 See 19 CFR 351.303(b).
17 For a discussion of the domestic like product analysis as applied to this case and information regarding industry support, see memorandum, “Antidumping Duty Investigation Initiation Checklist: Certain Steel Wheels 12 to 16.5 Inches in Diameter from the People’s Republic of China” (China AD Initiation Checklist), at Attachment II, (Analysis of Industry Support for the Antidumping and Countervailing Duty Petitions Covering Certain Steel Wheels 12 to 16.5 Inches in Diameter from the People’s Republic of China). This checklist is dated concurrently with this notice and is available electronically via ACCESS. Access to documents filed via ACCESS is also available in the Central Records Unit, Room B8024 of the main Department of Commerce building.
investigation that it is requesting that Commerce initiate.25

Allegations and Evidence of Material Injury and Causation

The petitioner alleges that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the imports of the subject merchandise sold at less than normal value (NV). In addition, the petitioner alleges that subject imports exceed the negligibility threshold provided for under section 771(24)(A) of the Act.26

The petitioner contends that the industry’s injured condition is illustrated by a significant and increasing volume of subject imports; reduced market share; underselling and price depression or suppression; lost sales and lost revenues; decline in production, U.S. shipments, and capacity utilization; decline in production-related workers and hours worked; decline in capital expenditures; and negative impact on financial performance.27 We have assessed the allegations and supporting evidence regarding material injury, threat of material injury, and causation, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.28

Allegations of Sales at LTFV

The following is a description of the allegations of sales at LTFV upon which Commerce based its decision to initiate an AD investigation of imports of certain steel wheels from China. The sources of data for the deductions and adjustments relating to U.S. price and NV are discussed in greater detail in the China AD Initiation Checklist.

Export Price

The petitioner based U.S. export price (EP) on price lists for certain steel wheels offered for export to the United States by a Chinese producer and exporter of certain steel wheels.29 The petitioner made deductions from U.S. price for movement expenses, consistent with the terms of sale.30

Normal Value

Commerce considers China to be an NME country.31 In accordance with section 771(18)(C)(i) of the Act, any determination that a foreign country is an NME country shall remain in effect until revoked by Commerce. Therefore, we continue to treat China as an NME country for purposes of the initiation of this investigation. Accordingly, NV in China is appropriately based on factors of production (FOPs) valued in a surrogate market economy country, in accordance with section 773(c) of the Act.32

The petitioner claims that Romania is an appropriate surrogate country for China because it is a market economy country that is at a level of economic development comparable to that of China and it is a significant producer of comparable merchandise.33 The petitioner provided publicly available information from Romania to value all FOPs.34 Therefore, based on the information provided by the petitioner, we determine that it is appropriate to use Romania as the primary surrogate country for initiation purposes.35 Interested parties will have the opportunity to submit comments regarding surrogate country selection and, pursuant to 19 CFR 351.301(c)(3)(i), will be provided an opportunity to submit publicly available information to value FOPs within 30 days before the scheduled date of the preliminary determination.

Factors of Production

Based on its assertion that information regarding the FOPs and volume of inputs consumed by Chinese producers/exporters of certain steel wheels was not reasonably available to the petitioner, the petitioner used its own consumption data to estimate the Chinese manufacturers’ FOPs.36 The petitioner stated that consumption rates for the Chinese FOPs are similar to those experienced by the petitioner, and as such, the petitioner used its own inputs and consumption rates to estimate the Chinese manufacturers’ FOPs.37 In addition, the petitioner valued the estimated FOPs using surrogate values from Romania,38 and used the average POI exchange rate to convert surrogate values expressed in euros to U.S. dollars.39

Fair Value Comparisons

Based on the data provided by the petitioner, there is reason to believe that imports of certain steel wheels from China are being, or are likely to be, sold in the United States at LTFV. Based on comparisons of EP to NV in accordance with sections 772 and 773 of the Act, the estimated dumping margins for certain steel wheels from China are 30.48–44.35 percent.40

Initiation of LTFV Investigation

Based upon the examination of the Petition, we find that the Petition meets the requirements of section 732 of the Act. Therefore, we are initiating an AD investigation to determine whether imports of certain steel wheels from China are being, or are likely to be, sold in the United States at LTFV. In accordance with section 733(b)(1)(A) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determination no later than 140 days after the date of this initiation.

Respondent Selection

The petitioner named 36 producers/exporters as accounting for the majority of exports of certain steel wheels to the United States from China.41 In accordance with our standard practice for respondent selection in AD cases involving NME countries, we intend to issue quantity and value (Q&V) questionnaires to producers/exporters of merchandise subject to this investigation. In the event Commerce determines that it cannot individually examine each company, where appropriate, Commerce intends to select mandatory respondents based on the responses received to its Q&V questionnaire. Commerce will request Q&V information from known exporters.
and producers identified with complete contact information in the Petition. In addition, Commerce will post the Q&V questionnaires along with filing instructions on Enforcement and Compliance’s website at http://www.trade.gov/enforcement/news.asp. Producers/exporters of certain steel wheels from China that do not receive Q&V questionnaires by mail may still submit a response to the Q&V questionnaire and can obtain a copy of the Q&V questionnaire from Enforcement & Compliance’s website. The Q&V questionnaire response must be submitted by the relevant Chinese exporters/producers no later than 5:00 p.m. ET on September 11, 2018, which is two weeks from the signature date of this notice. All Q&V responses must be filed electronically via ACCESS.

Separate Rates

In order to obtain separate-rate status in an NME investigation, exporters and producers must submit a separate-rate application. The specific requirements for submitting a separate-rate application in this investigation are outlined in detail in the application itself, which is available on Commerce’s website at http://enforcement.trade.gov/nme/nme-sep-rate.html. The separate-rate application will be due 30 days after publication of this initiation notice. Exporters and producers who submit a separate-rate application and have been selected as mandatory respondents will be eligible for consideration for separate-rate status only if they respond to all parts of Commerce’s AD questionnaire as mandatory respondents. Commerce requires that companies from China submit a response to both the Q&V questionnaire and the separate-rate application by the respective deadlines in order to receive consideration for separate-rate status. Companies not filing a timely Q&V questionnaire response will not receive separate-rate consideration.

Use of Combination Rates

Commerce will calculate combination rates for certain respondents that are eligible for a separate rate in an NME investigation. The Separate Rates and Combination Rates Bulletin states:

while continuing the practice of assigning separate rates only to exporters, all separate rates that the Department will now assign in its NME Investigation will be specific to those producers that supplied the exporter during the period of investigation. Note, however, that one rate is calculated for the exporter and all of the producers which supplied subject merchandise to it during the period of investigation. This practice applies both to mandatory respondents receiving an individually calculated separate rate as well as the pool of non-investigated firms receiving the weighted-average of the individually calculated rates. This practice is referred to as the application of “combination rates” because such rates apply to specific combinations of exporters and one or more producers. The cash-deposit rate assigned to an exporter will apply only to merchandise both exported by the firm in question and produced by a firm that supplied the exporter during the period of investigation.

Distribution of Copies of the Petition

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), copies of the public version of the Petition have been provided to the government of China via ACCESS. To the extent practicable, we will attempt to provide a copy of the public version of the Petition to each exporter named in the Petition, as provided under 19 CFR 351.203(c)(2).

ITC Notification

We will notify the ITC of our initiation, as required by section 732(d) of the Act.

Preliminary Determination by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petition was filed, whether there is a reasonable indication that imports of certain steel wheels from China are materially injuring or threatening material injury to a U.S. industry. A negative ITC determination will result in the investigation being terminated. Otherwise, the investigation will proceed according to statutory and regulatory time limits.

Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). 19 CFR 351.301(b) requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct. Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in this investigation.

Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by the Secretary. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301. For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, we may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, we will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; under limited circumstances we will grant untimely-filed requests for the extension of time limits. Parties should review Extension of Time Limits; Final Rule, 78 FR 57790 (September 20, 2013), available at http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm, prior to submitting factual information in this investigation.

Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information. Parties must use the certification formats provided in 19 CFR

[43] Although in past investigations this deadline was 60 days, consistent with 19 CFR 351.301(a), which states that “the Secretary may request any person to submit factual information at any time during a proceeding.” This deadline is now 30 days.

[44] See Policy Bulletin 05.1 at 6 (emphasis added).

[45] See section 733(a) of the Act.

DEPARTMENT OF COMMERCE
International Trade Administration

Certain Steel Wheels 12 to 16.5 Inches in Diameter From the People’s Republic of China: Initiation of Countervailing Duty Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUPPLEMENTARY INFORMATION:

The Petition

On August 8, 2018, the U.S. Department of Commerce (Commerce) received a countervailing duty (CVD) Petition concerning imports of certain steel wheels 12 to 16.5 inches in diameter (certain steel wheels) from the People’s Republic of China (China), filed in proper form on behalf of Dextar Wheel, a division of Americana Development, Inc. (the petitioner), which is a domestic producer of certain steel wheels.

The petitioner filed its responses to the supplemental questionnaires on August 8, 2018. On August 8, 2018, we spoke with the petitioner regarding the scope language submitted in its August 15, 2018, submission. On August 20, 2018, the petitioner filed an amendment to the scope, further clarifying the scope language.

1 See the petitioner’s letter, “Petitions for the Imposition of Antidumping and Countervailing Duties on Imports of Certain Steel Wheels 12 to 16.5 inches in Diameter from the People’s Republic of China,” dated August 8, 2018 (the Petition).
2 See Commerce’s letters, “Petition for the Imposition of Countervailing Duties on Imports of Certain Steel Wheels 12 to 16.5 inches in Diameter from the People’s Republic of China: Supplemental Questions” (CVD Supplemental Questionnaire), each dated August 15, 2018, submission.
3 See the petitioner’s letters, “Certain Steel Wheels 12 To 16.5 inches in Diameter From the People’s Republic of China (C–570–091); Petitioners’ Response to Commerce’s August 10, 2018 Supplemental Questionnaire Regarding the Countervailing Duty Petition” (CVD Supplement) and “Petitioners’ Response to Commerce’s August 10, 2018 General Issues Questionnaire Regarding the Petitions for the Imposition of Antidumping and Countervailing Duties on Imports of Certain Steel Wheels 12 to 16.5 inches in Diameter from the People’s Republic of China,” (General Issues Supplement), each dated August 15, 2018. See memorandum, “Phone Call with Counsel to the Petitioner,” dated August 17, 2018.

See the petitioner’s letter, “Petitioner’s Response to the Department of Commerce’s August 17, 2018 Additional Questions Regarding the Petitions for the Imposition of Antidumping and Countervailing Duties on Imports of Certain Steel Wheels 12 to 16.5 inches in Diameter from the People’s Republic of China,” dated August 20, 2018 (Second Scope and AD Supplement).
