

Bonneville for Construction of the Walla Walla Spring Chinook Hatchery. The Proposed Action was recommended to Bonneville for funding by the Council and is consistent with the Council's Fish and Wildlife Program. Providing funding for construction and operation of the hatchery under Alternative 1 supports a high-priority mitigation project in the Council's Fish and Wildlife Program. In addition, the Proposed Action under Alternative 1 meets the funding commitment for spring Chinook reintroduction made to the CTUIR in the Fish Accords and would protect weak stocks in the Walla Walla basin while reintroducing spring Chinook for additional harvest opportunities and cultural value to CTUIR and others. Under Alternative 1 of the Proposed Action, the fitness and survival of spring Chinook in the Umatilla basin would not be affected.

In planning and designing the hatchery, Bonneville, the CTUIR, project designers and other fish and wildlife agencies worked to minimize environmental and social impacts through project design, consultation with regulatory entities, and development of mitigation measures.

Impacts considered and fully disclosed in the final EIS include effects of hatchery withdrawals on flows in the South Fork Walla Walla River; water quality impacts of hatchery effluent discharge; impacts of hatchery construction, juvenile spring Chinook releases, and increasing numbers of returning spring Chinook adults on species such as bull trout and steelhead; the effects of additional fishing activities on private property owners; effects on habitat of vegetation removal; the potential of construction activity to spread noxious weeds; and visual changes associated with new structures.

Mitigation

All mitigation measures described in the Final EIS and the project Biological Opinions from NMFS and U.S. Fish and Wildlife Service have been adopted; a few were modified to describe the activity more specifically in order to ensure that contract language is clear. A complete list of these measures is presented in the project Mitigation Action Plan, available on the project website. All practicable means to avoid or minimize environmental harm are adopted.

Signed in Portland, Oregon, on August 22, 2018.

Administrator and Chief Executive Officer.
