B. Clearing Agency’s Statement on Burden on Competition

Section 17A(b)(3)(I) of the Act requires that the rules of a clearing agency not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. LCH SA does not believe that the proposed rule change would impose burdens on competition that are not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the proposed changes to the Rule Book, Supplement and Procedures would apply equally to all Clearing Members and their Clients that are not necessary or appropriate in furtherance of the purposes of the Act. Therefore, LCH SA does not believe that the proposed rule change would impose a burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Written comments relating to the proposed rule change have not been solicited or received. LCH SA will notify the Commission of any written comments received by LCH SA.

The proposed rule change is to extend the cutoff times for accepting on close orders entered for participation in the Nasdaq Closing Cross. The Nasdaq Closing Cross provides a transparent auction process that determines a single price for the close. As the equities markets continue to evolve and become more efficient and automated, the Exchange believes that the current cutoff times are overly restrictive to market participants that wish to participate in the Nasdaq Closing Cross and that typically have to tie up on close interest for ten minutes or more at the end of the trading day to participate in the cross. Similar to cutoffs provided by other equities exchanges that operate a closing auction, the Exchange believes that the proposed cutoff times would give Participants greater control over their on close orders while still leaving enough time at the end of the trading day for Participants to react to and offset Imbalances. Last, the Exchange is proposing to begin disseminating the Order Imbalance Indicator at the new Closing Cross Cutoff.

Current Cutoff Times

Generally, Market On Close ("MOC") and Limit on Close ("LOC") Orders are accepted today until immediately prior to 3:50 p.m. ET ("Closing Cross Cutoff") when the Exchange begins disseminating an Order Imbalance Indicator that contains information about the Nasdaq Closing Cross. Imbalance Only ("IO") Orders, on the other hand, are designed to allow Participants to offset Imbalances, and may therefore be entered until the time of execution of the Nasdaq Closing Cross, but may not be cancelled or modified at or after the Closing Cross Cutoff, except to correct legitimate errors as described below. The Exchange also continues to accept LOC Orders between the Closing Cross Cutoff and immediately prior to 3:55 p.m. ET ("Late Cutoff") provided that there is a First Reference Price. In order to promote price stability in the Nasdaq Closing Cross, such LOC Orders entered during this period are either canceled or re-priced to the First Reference Price, based on the Participant’s instruction, if the LOC Order’s limit price is more aggressive than the First Reference Price. Imbalance Only ("IO") Orders, meanwhile, are designed to permit Participants to offset Imbalances and therefore may be entered until 4:00 p.m. ET when the Exchange executes the Nasdaq Closing Cross and disseminates the executions via the consolidated tape.

Participants may also be able to cancel and/or modify their on close orders between the Closing Cross Cutoff and immediately prior to the Late Cutoff in limited circumstances. Specifically, during this time period: (1) MOC Orders and IO Orders can be cancelled and/or modified, and (2) LOC Orders can be cancelled but not modified, in each case to correct a legitimate error in the order (e.g., Side, Size, Symbol, or Price, or duplication of an Order).

Proposed Cutoff Times

The Exchange now proposes to change the Closing Cross Cutoff to 3:55 p.m. ET and the Late Cutoff to 3:58 p.m. ET. The Exchange believes that this

7 See Rule 4702(b)(13)(A).
8 As used in this proposed rule change, the term “Late Cutoff” refers to the various 3:55 p.m. ET cutoff times described herein for the Nasdaq Closing Cross, including the cutoff time for entering the LOC Orders described above and the cutoff time for correcting legitimate errors in an on close order.
9 “First Reference Price” shall mean the Current Reference Price in the first Order Imbalance Indicator disseminated at or after 3:50 p.m. ET. See Rule 4754(a)(9).
10 See Rule 4702(b)(12)(A).
11 An IO Order is an Order entered with a price that may be executed only in the Nasdaq Closing Cross and only against MOC Orders or LOC Orders. See Rule 4702(b)(13).
12 See Rule 4702(b)(13)(A).
13 See Rule 4702(b)(11)(A), (13)(A). As provided in these rules, MOC and IO Orders cannot be cancelled or modified at or after the Late Cutoff for any reason.
14 See Rule 4702(b)(12)(A).
15 The Exchange proposes to reflect the proposed cutoff times throughout the Nasdaq rulebook, including Rule 4702(b)(11)-(13), which defines...
