d. Purpose of Meeting: To discuss the need for additional studies related to aquatic and fisheries resources on Pole Creek (one of three water sources diverted for the project) for our environmental analysis as part of the relicensing process for the Uintah Project.

e. The technical conference will be recorded by a stenographer and will be placed in the public records of the project.

f. All local, state, and federal agencies, Indian tribes, and other interested parties are invited to participate either in person or by telephone. Please contact Quinn Emmering at (202) 502–6382 or by email at quinn.emmering@erc.gov by 4:00 p.m. (Eastern), September 20, 2018, to receive specific instructions on how to participate by telephone or have any questions.

g. In addition, Moon Lake Electric Association, Inc. (Moon Lake) and FERC staff will conduct an environmental site review of the project on Tuesday, September 25, 2018, starting at 9:00 a.m. (MDT). All interested individuals, organizations, and agencies are invited to attend. The Uintah Project is located approximately 15 miles north of Neola, Utah.

h. For the environmental site review, Moon Lake has made arrangements to provide transportation for participants from The Church of Jesus Christ of Latter-Day Saints parking lot located at 2062 W 9000N, Neola, Utah 84053 (at intersection with 2000W). Please note that the project tour is expected to take 4 hours, at minimum. No lunch is provided and food services in the Neola area are limited. Participants should make their own arrangements to bring food and beverages. Participants should dress appropriately for fall weather outdoors and wear hiking boots or similar footwear. Please RSVP Pat Corun at (435) 722–5406 or by email at pcorun@mleainc.com or before September 14, 2018, if you plan to attend the environmental site review or have any questions.

Dated: August 30, 2018.

Kimberly D. Bose,
Secretary.

and processing. The SAB conducted two previous quality reviews and identified revisions to the draft reports in order to clarify the recommendations and in some cases to reframe them to ensure they are not policy prescriptive. This report is a product of SAB's direct efforts and utilizes portions of the draft reports. Previous drafts of the panel's report are retained on the SAB website. Background on the current advisory activity, Biogenic Carbon Dioxide Emissions from Stationary Sources—Assessment Framework can be found on the SAB website at http://yosemite.epa.gov/sab/sabproduct.nsf/fedregstr_activities/Biogenic%20CO2%20Framework?OpenDocument.

Briefings and updates. The SAB will receive updates from SAB members on the current activities of committees and panels developing advisory reports and briefings on future topics from the EPA staff.

Pursuant to FACA and EPA policy, notice is hereby given that the Chartered SAB will hold a public teleconference to discuss information provided by the EPA on these topics. The Chartered SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Availability of Meeting Materials: Prior to the meeting, the review documents, agenda and other materials will be accessible on the SAB website at http://www.epa.gov/sab/

Procedures for Providing Public Input: Public comment for consideration by the EPA's federal advisory committees and panels has a different purpose from public comment provided to the EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit comments for a federal advisory committee to consider as it develops advice for the EPA. Interested members of the public may submit relevant written or oral information on the topic of this advisory activity, and/or the group conducting the activity, for the SAB to consider during the advisory process. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instructions below to submit comments. Oral Statements: In general, individuals or groups requesting an oral presentation on a public teleconference will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Interested parties should contact Mr. Thomas Carpenter, DFO, in writing (preferably via email) at the contact information noted above by September 19, 2018, to be placed on the list of public speakers. Written Statements: Written statements should be supplied to the DFO via email at the contact information noted above by September 19, 2018, so that the information may be made available to the SAB members for their consideration. It is the SAB Staff Office general policy to post written comments on the web page for the advisory meeting or teleconference. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Mr. Thomas Carpenter at the contact information provided above. To request accommodation of a disability, please contact Mr. Carpenter preferably at least ten days prior to each meeting to give the EPA as much time as possible to process your request.

Dated: August 30, 2018.

Khanh Johnston,
Deputy Director, EPA Science Advisory Staff Office.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

Proposed Information Collection Request; Comment Request; NESHAP for Radionuclides (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “NESHAP for Radionuclides (Renewal)” (EPA ICR No. 1100.16, OMB Control No. 2060–0191) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, the EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before November 5, 2018.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OAR–2003–0085, online using http://www.regulations.gov (our preferred method), by email to [a-and-r-Docket@epa.gov], or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 2822T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC 20460. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of
